

Guaranty Trust Bank Plc and Subsidiary Companies

**Group Financial Statements
Together with Directors' and Auditor's Reports**

December 2015

Introduction

Guaranty Trust Bank's Consolidated Financial Statements complies with the applicable legal requirements of the Nigerian Securities and Exchange Commission regarding Annual Financial Statements and comprises Separate and Consolidated Financial Statements of the Bank and the Group for the year ended 31 December 2015. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board and adopted by the Financial Reporting Council of Nigeria. For better understanding, certain disclosures and some prior year figures have been presented in line with current year figures. Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Corporate Governance

Introduction

Corporate Governance stands for responsible and transparent management and corporate control oriented towards a sustainable increase in value. We, at Guaranty Trust Bank Plc (“the Bank”) are convinced that good corporate governance is an essential foundation for sustainable corporate success and enhances the confidence placed in the Bank by our shareholders, business partners, employees and the financial markets in which we operate. All these, we have enshrined in the Bank’s “Orange rules” which are Simplicity, Professionalism, Service, Friendliness, Excellence, Trustworthiness, Social Responsibility and Innovation signify the principal ideologies upon which the Bank was established and remain the foundation upon which we have built and developed our exemplary corporate governance practices. The Orange rules are fundamental to our culture and are part of the everyday conduct of the Bank’s business.

As a company publicly quoted on the Nigerian Stock Exchange with Global Depository Receipts (GDRs) listed on the London Stock Exchange, we remain dedicated to our duties and pledge to safeguard and increase investor value through transparent corporate governance practices. The Bank ensures compliance with the Code of Corporate Governance for Public Companies issued by the Securities and Exchange Commission (“the SEC Code”), the revised Code of Corporate Governance for Banks and Discount Houses in Nigeria issued by the Central Bank of Nigeria (“the CBN Code”) in May 2014, as well as disclosure requirements under the Disclosure and Transparency Rules of the Financial Conduct Authority (FCA), United Kingdom, which are applicable to non-United Kingdom companies with Global Depository Receipts (GDRs) listed on the London Stock Exchange.

The Bank’s Code of Corporate Governance is continuously reviewed to align with additional legal and regulatory requirements and global best practices, in order to remain a pace setter in the area of good corporate governance practices. In addition to the Code, the Bank aggressively promotes its core values to employees of the Bank through its Code of Professional Conduct; its Ethics Policy as well as Communications Policy which regulate employee relations with internal and external parties. This is a strong indicator of the Bank’s determination to ensure that its employees remain professional at all times in their business practices.

The Bank complies with the requirements of the Central Bank of Nigeria (“CBN”), for the internal review of its compliance status with defined corporate governance practices and submits reports on the Bank’s compliance status to the CBN and the Nigeria Deposit Insurance Corporation. In compliance with the requirement of the CBN Code in respect of Board Appraisal, the Board engaged KPMG Professional Services, an Independent Consultant to conduct the annual Board Appraisal for the financial year ended December 31, 2015. The report of the Appraisal will be submitted to the CBN and also presented to Shareholders at the 26th Annual General Meeting of the Bank.

The Bank has an entrenched culture of openness in which healthy discourse is encouraged and employees are mandated to report improper activities. The Bank continues to serve customers, clients and communities; and create returns for stakeholders. The belief that success is only

worth celebrating when achieved the right way through a process supported and sustained with the right values remains one of the Bank's guiding principles. Our commitment to this principle is for us the key to keeping public trust and confidence in our Bank and the key to our continued long-term success.

Governance Structure

The Board

The Board of Directors is responsible for the governance of the Bank and is accountable to shareholders for creating and delivering sustainable value through the management of the Bank's business. The Bank has adopted its own corporate governance code to provide a robust framework for the governance of the Board and the Bank which is in addition to the corporate governance codes of applicable regulatory agencies which the Bank is obliged to adopt.

Having the right people with an appropriate balance of skills, knowledge and experience is an important aspect of corporate governance in order to continue to have an effective Board and an executive management team to steer the affairs of the Bank in an ever challenging environment. The Bank's rigorous and robust appointment and effective succession planning framework is one way of ensuring that we continue to have the right people to drive the business in the desired direction.

In addition to the Board's direct oversight, the Board exercises its oversight responsibilities through six (6) Committees, namely, Board Risk Management, Board Credit, Board Human Resources and Nominations, Board Remuneration, Board Information Technology Strategy, and the Board Audit. The Statutory Audit Committee of the Bank, which comprises equal numbers of representatives of the Board and Shareholders, also performs its statutory role as stipulated by the Companies and Allied Matters Act (2004).

The Board plays a central role in conjunction with Management in ensuring that the Bank is financially strong, well governed and risks are identified and well mitigated. The synergy between the Board and Management further fosters interactive dialogue in setting broad policy guidelines in the management and direction of the Bank to enhance optimal performance and ensure that associated risks are properly managed.

Members of the Board of Directors are seasoned professionals, who have excelled in various sectors including banking, accounting, engineering, oil and gas as well as law. They possess the requisite integrity, skills and experience to bring to bear independent judgment on the deliberations of the Board and decisions of the Board (without prejudice to Directors' right to earn Directors' fees and hold interest in shares). They have a good understanding of the Bank's businesses and affairs to enable them properly evaluate information and responses provided by Management, and to provide objective challenge to Management. Directors are prepared to challenge others' assumptions, beliefs or viewpoints as necessary for the good of the Bank and question intelligently, debate constructively and make decisions dispassionately.

Three (3) of the Non-Executive Directors are "Independent Directors", appointed based on criteria laid down by the CBN for the appointment of Independent Directors and the core values enshrined in the Bank's Code of Corporate Governance. The Independent Directors do not have

any significant shareholding interest or any special business relationship with the Bank.

The Board meets quarterly and additional meetings are convened as required. Material decisions may be taken between meetings by way of written resolutions, as provided for in the Articles of Association of the Bank. The Directors are provided with comprehensive group information at each of the quarterly Board meetings and are also briefed on business developments between Board meetings. The Board met five (5) times during the financial year ended December 31, 2015.

Responsibilities of the Board

The Board determines the strategic objectives and policies of the Bank to deliver long-term value by providing overall strategic direction within a framework of rewards, incentives and controls. The Board also ensures that Management strikes an appropriate balance between promoting long-term growth and delivering short-term objectives. In fulfilling its primary responsibility, the Board is aware of the importance of achieving a balance between conformance to governance principles and economic performance.

Powers reserved for the Board include the approval of quarterly, half-yearly and full year financial statements (whether audited or unaudited) and any significant change in accounting policies and/or practices; approval of major changes to the Bank's corporate structure and changes relating to the Bank's capital structure or its status as a public limited company; the determination and approval of the strategic objectives and policies of the Bank to deliver long-term value; approval of the Bank's strategy, medium and short term plan and its annual operating and capital expenditure budget; appointment or removal of Company Secretary; recommendation to shareholders of the appointment or removal of auditors and the remuneration of Auditors; approval of resolutions and corresponding documentation for shareholders in general meeting(s), shareholders circulars, prospectus and principal regulatory filings with the regulators.

Other powers reserved for the Board are the determination of Board structure, size and composition, including appointment and removal of Directors, succession planning for the Board and senior management and Board Committee membership; approval of mergers and acquisitions, branch expansion and establishment of subsidiaries; approval of remuneration policy and packages of the Managing Director and other Board members, appointment of the Managing Director and other Directors of subsidiaries nominated by the Bank; approval of the Board performance evaluation process, corporate governance framework and review of the performance of the Managing Director; approval of policy documents on significant issues including Enterprise-wide Risk Management, Human Resources, Credit, Corporate governance and Anti – Money laundering, and approval of all matters of importance to the Bank as a whole because of their strategic, financial, risk or reputational implications or consequences.

Roles of Chairman and Chief Executive

The roles of the Chairman and Chief Executive are separate and no one individual combines the two positions. The Chairman's main responsibility is to lead and manage the Board to ensure

that it operates effectively and fully discharges its legal and regulatory responsibilities. The Chairman is responsible for ensuring that Directors receive accurate, timely and clear information to enable the Board take informed decisions and provide advice to promote the success of the Bank. The Chairman also facilitates the contribution of Directors and promotes effective relationships and open communications between Executive and Non-Executive Directors, both inside and outside the Boardroom.

The Board has delegated the responsibility for the day-to-day management of the Bank to the Managing Director/Chief Executive Officer, who is supported by Executive Management, comprising the Deputy Managing Director and other Executive Directors. The Managing Director executes the powers delegated to him in accordance with guidelines approved by the Board of Directors. Executive Management is accountable to the Board for the development and implementation of strategies and policies. The Board regularly reviews group performance, matters of strategic concern and any other matter it regards as material.

Director Nomination Process

The Board Human Resources and Nominations Committee is charged with the responsibility of leading the process for Board appointments and for identifying and nominating suitable candidates for the approval of the Board.

The balance and mix of appropriate skills and experience of Non-Executive Directors is taken into account when considering a proposed appointment. In reviewing Board composition, the Board ensures a mix with representatives from different industry sectors.

The following core values are considered critical in nominating a new Director;

- (i) Integrity
- (ii) Professionalism
- (iii) Career Success
- (iv) Recognition
- (v) Ability to add value to the Bank.

Shareholding in the Bank is not considered a criterion for the nomination or appointment of a Director. The appointment of Directors is subject to the approval of the shareholders and the Central Bank of Nigeria.

Induction and Continuous Training

On appointment to the Board and to Board Committees, all Directors receive an induction tailored to meet their individual requirements.

The induction, which is arranged by the Company Secretary, may include meetings with senior management staff and key external advisors, to assist Directors in building a detailed understanding of the Bank's operations, its strategic plan, its business environment, the key issues the Bank faces, and to introduce Directors to their fiduciary duties and responsibilities.

Training and education of Directors on issues pertaining to their oversight functions is a continuous process, in order to update their knowledge and skills and keep them informed of new developments in the Bank's business and operating environment. The Bank attaches great premium to training its Directors; all the Bank's Non-Executive Directors attended foreign and/or local courses during the course of the 2015 financial year.

Changes on the Board

During the period under review, the erstwhile Chairman of the Board, Mr. Egbert Imomoh retired from the Board at the end of the 25th Annual General Meeting held on March 31, 2015, as he attained the age of seventy (70) years. He joined the Board of the Bank in June 2005 and became the Chairman of the Board in April 2013. Subsequent to his retirement, the Board of Directors appointed Mrs. Osaretin Afusat Demuren as the Chairman of the Board, in line with the well defined succession plan of the Bank.

Also in the course of the year, Mr. Ohis Ohiwerei retired from the Board, having served as an Executive Director for four (4) years.

To fill the vacancies created on the Board by the retirement of Messrs. Imomoh and Ohiwerei, the Board appointed Ms. Imoni Akpofure as an Independent Non-Executive Director, and Mr. Haruna Musa as Executive Director of the Bank.

The appointments of Ms. Akpofure and Mr. Musa have been approved by the Central Bank of Nigeria and will be presented for Shareholders' approval at this Meeting.

Profiles of the New Directors

- Profile of Ms. Imoni Akpofure

Ms. Akpofure holds a Bachelor of Engineering (B.Eng Honors) degree in Civil Engineering (1988) from the Imperial College, University of London, United Kingdom, and a Masters of Science (M.Sc) Degree in Environmental Engineering (1989) from the Newcastle University, United Kingdom. She also obtained an MBA from the INSEAD, France.

She is a seasoned professional with over eighteen (18) years work experience in the financial industry, having worked with International Finance Corporation from 1995 till 2013, where she rose through the ranks to become the Director, Western Europe, a position she held from 2009 till her retirement in 2013.

Ms. Akpofure also serves as member of several other boards, both locally and internationally, including as Member, Investment Committee, Fund for Agricultural Finance in Nigeria (FAFIN); Member, the Advisory Board, KINA Advisory Limited, United Kingdom; and is currently one of the two (2) Regional Directors for Africa of CDC Group Plc (formerly Commonwealth Development Corporation), responsible for working with CDC's investment teams in London to support investments in Anglophone and Francophone West Africa and Lusophone Africa.

- Profile of Mr. Haruna Musa

Mr. Haruna Musa holds a B.A. (Agriculture) degree from Ahmadu Bello University, Zaria, and a Masters in Business Administration from Bayero University, Kano. He also holds a Masters degree in Finance and Management from Cranfield University, United Kingdom. He worked in several financial institutions before joining Guaranty Trust Bank plc in 2001.

He has over eighteen (18) years' experience which covers various aspects of banking including banking operations, corporate banking, commercial banking, compliance and risk management. He joined the Bank in 2001 and rose through the ranks to become an Assistant General Manager and Group Head Public Sector, North East Division in 2006. He left the Bank briefly in 2008 to pursue a Masters Degree in Finance and Management at the Cranfield University, United Kingdom, after which he returned in 2009.

Prior to his appointment as Executive Director, Mr. Musa was the General Manager in charge of the North East Division.

Non-Executive Directors' Remuneration

The Bank's policy on remuneration of Non-Executive Directors is guided by the provisions of the CBN Code which stipulates that Non-Executive Directors' remuneration should be limited to sitting allowances, Directors' fees and reimbursable travel and hotel expenses.

Details of remuneration paid to Executive and Non-Executive Directors is contained in Note 46 of this annual report.

Board Committees

The Board carries out its responsibilities through its Standing Committees, which have clearly defined terms of reference, setting out their roles, responsibilities, functions and scope of authority. The Board has six (6) Standing Committees in addition to the Statutory Audit Committee of the Bank, namely; Board Risk Management Committee, Board Credit Committee, Board Human Resources and Nominations Committee, Board Remuneration Committee, Board Information Strategy Committee and Board Audit Committee.

Through these Committees, the Board is able to more effectively deal with complex issues, and to fully utilize its expertise to formulate strategies for the Bank. The Committees make recommendations to the Board, which retains responsibility for final decision making.

All Committees in the exercise of their powers so delegated conform to the regulations laid down by the Board, with well defined terms of reference contained in the Charter of each Committee. The Committees render reports to the Board at the Board's quarterly meetings.

A summary of the roles, responsibilities, composition and frequency of meetings of each of the Committees are as stated hereunder:

Board Risk Management Committee

This Committee is tasked with the responsibility of setting and reviewing the Bank's risk policies. The coverage of supervision includes the following: credit risk, reputation risk, operations risk, technology risk, market and rate risks, liquidity risk and other pervasive risks as may be posed by the events in the industry at any point in time.

The Terms of Reference of the Board Risk Management Committee include:

- To review and recommend for the approval of the Board, the Bank's Risk Management Policies including the risk profile and limits;
- To determine the adequacy and effectiveness of the Bank's risk detection and measurement systems and controls;
- To evaluate the Group's internal control and assurance framework annually, in order to satisfy itself on the design and completeness of the framework relative to the activities and risk profile of the Bank and its subsidiaries;
- To oversee Management's process for the identification of significant risks across the Bank and the adequacy of risk mitigation, prevention, detection and reporting mechanisms;
- To review and recommend to the Board for approval, the contingency plan for specific risks;
- To review the Bank's compliance level with applicable laws and regulatory requirements which may impact on the Bank's risk profile;
- To conduct periodic review of changes in the economic and business environment, including emerging trends and other factors relevant to the Bank's risk profile;
- To handle any other issue referred to the Committee from time to time by the Board.

The Chief Risk Officer of the Bank presents regular briefings to the Committee at its meetings.

The Committee meets quarterly and additional meetings are convened as required. The Committee met four (4) times in the financial year period ended December 31, 2015.

The Board Risk Management Committee¹ comprised the following members during the period under review:

S/No	Name	Status	Designation
1	Mrs. A. O. Demuren ²	Non-Executive Director	Chairman
2	Mr. H.A Oyinlola ³	Non-Executive Director	Chairman
3	Mr. J. K. O. Agbaje	Managing Director	Member
4	Mr. A. F. Alli	Non-Executive (Independent) Director	Member
5	Mr. A. A. Odeyemi	Executive Director	Member
6.	Mrs. O.O. Omotola	Executive Director	Member

¹ One vacancy exists;

² Ceased to be a member of the Committee in April 2015 in compliance with the CBN Code which prohibits the Chairman of the Board from being a member of any Board Committee.

³ Appointed as Chairman of the Committee following Mrs. Demuren's appointment as Chairman of the Board

Board Credit Committee

This Committee is responsible for approval of credit facilities in the Bank. The Terms of Reference of the Board Credit Committee include:

- To consider and approve specific loans above the Management Credit Committee's authority limit, as determined by the Board from time to time
- To review Management Credit Committee's authority level as and when deemed necessary and recommend new levels to the Board for consideration;
- To conduct quarterly review of credits granted by the Bank to ensure compliance with the Bank's internal control systems and credit approval procedures;
- To notify all Director related loans to the Board;
- To monitor and notify the top debtors to the attention of the Board;
- To review the Bank's internal control procedures in relation to credit risk assets and ensure that they are sufficient to safeguard the quality of the Bank's risk assets;
- To review the Asset and Liability Management of the Bank;
- To ensure that the Bank complies with regulatory requirements regarding the grant of credit facilities;
- To handle any other issue referred to the Committee from time to time by the Board.

In view of the volume of transactions that require Board Credit Committee approvals, there are instances where the need arises for credits to be approved by members expeditiously between Board Credit Committee Meetings. Such urgent credits are circulated amongst the members for consideration and approval in line with a defined procedure that

ensures that all members of the Committee are furnished with full information on such credits. All credits considered as “Large Exposures” as defined by the Board of Directors from time to time are considered and approved by the Board Credit Committee at a special meeting convened for that purpose.

The Board Credit Committee meets at least once in each quarter. However, additional meetings are convened as required. The Committee met five (5) times during the financial year period ended December 31, 2015.

The Board Credit Committee is made up of the following members:

S/No	Name	Status	Designation
1	Mr. A. O. Akintoye	Non-Executive (Independent) Director	Chairman
2	Mrs. C. N. Echeozo	Deputy Managing Director	Member
3	Mr. K. A. Adeola	Non-Executive Director	Member
4	Mr. O. M. Agosto	Non-Executive Director	Member
5	Mr. I. Hassan	Non-Executive Director	Member
6	Mr. O. Ohiwerei ¹	Executive Director	Member
7	Mr. A. A. Oyedeji	Executive Director	Member
8.	Mr. H. Musa ²	Executive Director	Member

¹ Ceased to be a member of the Committee upon his retirement from the Board in October 2015;

² Appointed as member of the Committee in October 2015 following Mr. Ohiwerei’s retirement

Board Human Resources and Nominations Committee

This Committee is responsible for the approval of the human resources matters, identification and nomination of candidates for appointment to the Board and board governance issues such as annual evaluation of the performance of the Managing Director and the Board, induction and continuous education, approval of promotion of top management staff, corporate governance, succession planning, conflict of Interest situations and compliance with legal and regulatory provisions.

The Committee is also responsible for the oversight of strategic people issues, including employee retention, equality and diversity as well as other significant employee relations matters.

The membership of the Committee is as follows:

S/No	Name	Status	Designation
1	Mr. A. F. Alli	Non-Executive (Independent) Director	Chairman
2	Mr. J.K.O. Agbaje	Managing Director	Member
3	Mr. A. O. Akintoye	Non-Executive (Independent) Director	Member
4	Mr. I. Hassan	Non-Executive Director	Member
5	Mr. H.A Oyinlola	Non-Executive Director	Member
6	Mrs. O. O. Omotola	Executive Director	Member

The Committee is required to meet at least once a year, and additional meetings may be convened as the need arises. The Committee met four (4) times during the financial year ended

December 31, 2015.

Board Remuneration Committee

The Board Remuneration Committee has the responsibility of setting the principles and parameters of Remuneration Policy across the Bank, determining the policy of the Bank on the remuneration of the Managing Director and other Executive Directors and the specific remuneration packages and to approve the policy relating to all remuneration schemes and long term incentives for employees of the Bank.

The Board Remuneration Committee¹ comprised the following members during the period under review:

S/No	Name	Status	Designation
1	Mr. O. M. Agosto	Non-Executive Director	Chairman
2	Mr. K.A Adeola	Non-Executive Director	Member
3	Mrs. A. O. Demuren ²	Non-Executive Director	Member
4	Mr. A. O. Akintoye	Non-Executive Director	Member

¹ One vacancy exists;

² Ceased to be a member of the Committee in April 2015 in compliance with the CBN Code which prohibits the Chairman of the Board from being a member of any Board Committee.

The Committee is required to meet at least once a year, and additional meetings may be convened as the need arises. The Committee met once during the period.

Board Information Technology Strategy Committee

The Board Information Technology Strategy Committee is responsible for the provision of strategic guidance to Management on Information Technology issues and monitoring the effectiveness and efficiency of Information Technology within the Bank and the adequacy of controls.

The Terms of Reference of the Board Information Technology Strategy Committee include:

- To provide advice on the strategic direction of Information Technology issues in the Bank;
- To inform and advise the Board on important Information Technology issues in the Bank;
- To monitor overall Information Technology performance and practices in the Bank.

The Board Information Technology Strategy Committee¹ comprised the following members during the period under review:

S/No	Name	Status	Designation
1	Mr K. A. Adeola	Chairman	Chairman
2	Mr J. K. O. Agbaje	Managing Director	Member
3	Mrs. A O. Demuren ²	Non-Executive Director	Member
4	Mr A. A. Odeyemi	Executive Director	Member
5	Mr O. Ohiwerei	Executive Director	Member

¹vacancy [ies] exists;

²Ceased to be a member of the Committee in April 2015 in compliance with the CBN Code which prohibits the Chairman of the Board from being a member of any Board Committee

The Committee is required to hold its Meetings bi-annually or at such other frequency as may be required. The Committee met two (2) times during the financial year ended December 31, 2015.

Board Audit Committee

The Board Audit Committee is responsible for oversight of audit functions, without prejudice to the statutory Audit Committee established in compliance with CAMA which is not considered a board committee.

The Terms of Reference of the Board Audit Committee include:

- To keep the effectiveness of the Bank's system of accounting, reporting and internal control under review and to ensure compliance with legal and agreed ethical requirements;
- To review the activities, findings, conclusions and recommendations of the external auditors relating to the Bank's annual audited financial statements;
- To review the Management Letter of the External Auditor and Management's response thereto;
- To review the appropriateness and completeness of the Bank's statutory accounts and its other published financial statements;
- To oversee the independence of the external auditors;
- To receive a summary of whistle blowing cases reported and the result of the investigation from the Head of Internal Audit;
- To ensure that the Bank's Investment Valuation Policy is updated to take into account changes in International Financial Reporting Standards (IFRS) as issued and/or amended from time to time by the International Accounting Standards Board and/or in valuation techniques as recommended by the European Venture Capital Association and best practices.

The Board Audit Committee comprised the following members during the period under review:

S/No	Name	Status	Designation
1	Mr. A. F. Alli	Non-Executive Director	Chairman
2	Mr. O. M. Agosto	Non-Executive Director	Member
3	Mr. I. Hassan	Non-Executive Director	Member

The Committee is required to hold its Meetings once every quarter. The Committee held its first meeting in April, 2015, and quarterly thereafter.

Statutory Audit Committee of the Bank

This Committee is responsible for ensuring that the Bank complies with all the relevant policies and procedures both from the regulators and as laid-down by the Board of Directors. Its major functions include the approval of the annual audit plan of the internal auditors, review and approval of the audit scope and plan of the external auditors, review of the audit report on internal weaknesses observed by both the internal and external auditors during their respective examinations and to ascertain whether the accounting and reporting policies of the Bank are in accordance with legal requirements and agreed ethical practices.

The Committee also reviews the Bank's annual and interim financial statements, particularly the effectiveness of the Bank's disclosure controls and systems of internal control as well as areas of judgment involved in the compilation of the Bank's results. The Committee is responsible for the review of the integrity of the Bank's financial reporting and oversees the independence and objectivity of the external auditors. The Committee has access to external auditors to seek explanations and additional information, while the internal and external auditors have unrestricted access to the Committee, which ensures that their independence is in no way impaired.

The Committee is made up of three (3) Non-Executive Directors and three (3) Shareholders of the Bank appointed at Annual General Meetings, while the Chief Inspector of the Bank serves as the secretary to the Committee. The membership of the Committee at the Board level is based on relevant experience of the Board members, while one of the shareholders serves as the Chairman of the Committee.

The internal and external auditors are invited from time to time to attend the Meetings of the Committee. The Chief Financial Officer and appropriate members of Management also attend the meetings upon invitation. The Committee is required to meet quarterly or at such other frequency as may be required.

The Statutory Audit Committee of the Bank met four (4) times during the period.

The following members served on the Committee during the 2015 financial year:

S/No	Name	Status	Designation	Attendance
1	Mr. A. B. Akisanmi	Shareholders' Representative	Chairman	4
2	Alhaji M. O. Usman	Shareholders' Representative	Member	4
3	Mrs. S. O. J. Mbagwu-Fagbemi	Shareholders' Representative	Member	4
4	Mr. A. F. Alli	Non-Executive Director	Member	4
5	Mr. I. Hassan	Non-Executive Director	Member	4
6	Mr. O. M. Augusto	Non-Executive Director	Member	4

¹ Retired from the Board on March 31, 2015

² Ceased to be a member of the Committee in April 2015 in compliance with the CBN Code which prohibits the Chairman of the Board from being a member of any Board Committee

³ Retired from the Board effective October, 2015

⁴ Yet to attend any meetings following her appointment to the Board at the Board Meeting held in October, 2015

N/A -Not Applicable

Tenure of Directors

In order to ensure both continuity and injection of fresh ideas, the tenure for Non-Executive Directors is limited to a maximum of three (3) terms of four (4) years each, i.e. twelve (12) years whilst the maximum tenure for Independent Non-Executive Directors is limited to a maximum of two (2) terms of four (4) years each, i.e. eight (8) years.

This is in compliance with the directives of the CBN Code.

Board Appraisal

In the Bank's customary manner of imbibing the best corporate governance practices, the Board engaged an Independent Consultant, KPMG Professional Services, to carry out the annual Board and Directors appraisal for the 2015 financial year. The annual appraisal covered all aspects of the Board's structure, composition, responsibilities, processes, relationships, individual members' competencies and respective roles in the Board performance, as well as the Bank's compliance status with the provisions of the CBN and SEC Codes.

The Annual Board and Director Review/Appraisal Report for the 2015 financial year will be presented to shareholders at the 26th Annual General Meeting and a copy sent to the Central Bank of Nigeria, in compliance with the requirements of the CBN Code.

Shareholders

The General Meeting of the Bank is the highest decision making body of the Bank. The Bank's General Meetings are conducted in a transparent and fair manner. Shareholders have the opportunity to express their opinions on the Bank's financial results and other issues affecting the Bank. The Annual General Meetings are attended by representatives of regulators such as the Central Bank of Nigeria, the Securities and Exchange Commission, The Nigerian Stock Exchange, Corporate Affairs Commission as well as representatives of Shareholders' Associations.

The Bank has an Investors Relations Unit, which deals directly with enquiries from shareholders and ensures that shareholders' views are escalated to Management and the Board. In addition, quarterly, half-yearly and annual financial results are published in widely read national newspapers.

The Bank ensures that institutional investors and international holders of the Global Depositary Receipts get frequent updates on the Bank's progress via interactive conference calls, local and international investor presentations and meetings. These conference calls and investor meetings provide our investors with direct access to senior and executive Management.

Protection of Shareholders' Rights

The Board ensures the protection of the statutory and general rights of shareholders at all times, particularly their right to vote at general meetings. All shareholders are treated equally,

regardless of volume of shareholding or social status.

Communication Policy

The Board and Management of the Bank ensure that communication and dissemination of information regarding the operations and management of the Bank to shareholders, stakeholders and the general public is timely, accurate and continuous, to give a balanced and fair view of the Bank's financial and non-financial matters. Such information, which is in plain language, readable and understandable, is available on the Bank's website, <http://www.gtbank.com>. The website is constantly updated with information as events occur.

The website also has an Investors Relations portal where the Bank's financial Reports and other relevant information about the Bank is published and made accessible to its shareholders, stakeholders and the general public.

The main objective of the Bank's Communication Policy is to support the Bank in achieving the overall goals described in the Bank's core values which strengthens the Bank's culture of transparency in pursuit of best corporate governance practices.

In order to reach its overall goal on information dissemination, the Bank is guided by the following principles:

- (i) **Compliance with Rules and Regulations:** The Bank complies with the legislation and codes of corporate governance of the jurisdictions within which it operates. These include the Banks and other Financial Institutions Act (BOFIA), the Companies and Allied Matters Act (CAMA) and the codes of Corporate Governance issued by the Central Bank of Nigeria as well as the Securities and Exchange Commission, the United Kingdom Listing Authority ("UKLA") (by virtue of the listing of Global Depository Receipts by the Bank on The London Stock Exchange in July 2007);
- (ii) **Efficiency:** The Bank uses modern communication technologies in a timely manner to convey its messages to its target groups. Synergies are sought when it comes to using different communication channels. The Bank replies without unnecessary delay to information requests by the media and the public;
- (iii) **Transparency:** As an international financial institution, the Bank strives in its communication to be as transparent and open as possible while taking into account the concept of confidentiality between the Bank and its customers, and bank secrecy. This contributes to maintaining a high level of accountability;
- (iv) **Pro-activity:** The Bank proactively develops contacts with its target groups and identifies topics of possible mutual interest;
- (v) **Clarity:** The Bank aims at clarity, i.e. to send uniform and clear messages on key issues;
- (vi) **Cultural awareness:** As an international financial institution, the Bank operates in a multicultural environment and accordingly recognizes the need to be sensitive to the cultural

peculiarities of its operating environment;

(vii) Feedback: The Bank actively and regularly seeks feedback on its image and communication activities both from the media as well as from its key target groups. This feedback is used to fine-tune communication activities.

Information Flows

It is the responsibility of Executive Management under the direction of the Board, to ensure that the Board receives adequate information on a timely basis, about the Bank's businesses and operations at appropriate intervals and in an appropriate manner, to enable the Board to carry out its responsibilities.

The Company Secretary

The Company Secretary provides a point of reference and support for all Directors. The Company Secretary also consults regularly with Directors to ensure that they receive required information promptly. The Board may obtain information from external sources, such as consultants and other advisers, if there is a need for outside expertise, via the Company Secretary or directly.

The Company Secretary is also responsible for assisting the Board and Management in the implementation of the Code of Corporate Governance of the Bank, coordinating the orientation and training of new Directors and the continuous education of Non-Executive Directors; assisting the Chairman and Managing Director to formulate an annual Board Plan and with the administration of other strategic issues at the Board level; organizing Board meetings and ensuring that the minutes of Board meetings clearly and properly capture Board discussions and decisions.

Independent Advice

Independent professional advice is available, on request, to all Directors at the Bank's expense when such advice is required to enable a Member of the Board effectively perform certain responsibilities.

The Bank meets the costs of independent professional advice obtained jointly or severally by a Director or Directors where such advice is necessary to enable the obligations imposed on an individual, through membership of the Board, to be properly fulfilled.

Insider Trading and price sensitive information

The Bank has adopted a policy regarding trading in its shares by its Directors and employees on the terms and conditions similar to the standards set out by the Nigerian Stock Exchange. The policy is periodically circulated on the Bank's internal communication network ("Intranet").

Directors, insiders and their related persons in possession of confidential price sensitive information ("insider information") are prohibited from dealing with the securities of the Bank

where such would amount to insider trading. Directors, insiders and related parties are prohibited from disposing, selling, buying or transferring their shares in the Bank for a “lock up” period commencing from the date of receipt of such insider information until such a period when the information is released to the public or any other period as defined by the Bank from time to time.

In addition to the above, the Bank makes necessary disclosure as required under Rule 111 of the Securities and Exchange Commission (“SEC”) Rules and Regulations which stipulates that Directors, Directors and top Management employees and other insiders of public companies shall notify the SEC of any sale or purchase of shares in the company, not later than forty-eight (48) hours after such activity.

The Directors of the Bank comply strictly with the laid down procedure and policy regarding trading in the Bank’s shares.

Management Committees

These are Committees comprising senior management staff of the Bank. The Committees are risk driven as they are basically set up to identify, analyze, synthesize and make recommendations on risks arising from day to day activities of the Bank. They also ensure that risk limits as contained in the Board and Regulatory policies are complied with at all times. They provide inputs for the respective Board Committees and also ensure that recommendations of the Board Committees are effectively and efficiently implemented. They meet as frequently as necessary to immediately take action and decisions within the confines of their powers.

The standing Management Committees in the Bank are:

- Management Risk Committee;
- Management Credit Committee;
- Criticized Assets Committee;
- Assets and Liability Management Committee;
- Information Technology (IT) Steering Committee;
- Information Technology (IT) Risk Management Committee.

Management Risk Committee

This Committee is responsible for regular analysis and consideration of risks in the Bank. The Committee meets from time to time and at least quarterly. However, additional meetings may be held if required. The Committee reviews and analyses environmental issues and policies impacting either directly or remotely on the Bank, brainstorms on such issues and recommends steps to be taken by the Bank. The Committee’s approach is risk based.

The Committee provides inputs for the Board Risk Management Committee and also ensures that the decisions and policies emanating from the Committee's meetings are implemented.

The mandate of the Committee includes;

- Reviews the effectiveness of GTBank's overall risk management strategy at the enterprise level.
- Follow-up on management action plans based on the status of implementation compiled by the Management Risk Committee
- Identify and evaluate new strategic risks including corporate matters involving regulatory, business development issues, etc., and agree on suitable mitigants.
- Review the enterprise risk scorecard and determine the risks to be escalated to the Board on a quarterly basis.

Management Credit Committee

This is the Committee responsible for ensuring that the Bank complies fully with the Credit Policy Guide as laid down by the Board of Directors. The Committee also provides inputs for the Board Credit Committee. This Committee reviews and approves credit facilities to individual obligors not exceeding an aggregate sum to be determined by the Board from time to time. The Management Credit Committee is responsible for reviewing and approving all credits that are above the approval limit of the Managing Director as determined by the Board. The Committee reviews the entire credit portfolio of the Bank and conducts periodic assessment of the quality of risk assets in the Bank. It also ensures that adequate monitoring of credits is carried out. The Committee meets weekly depending on the number of credit applications to be considered.

The secretary of the Committee is the Head of the Credit Administration Unit of the Bank

Criticized Assets Committee

This Committee is responsible for the assessment of the risk asset portfolio of the Bank. It highlights the status of the Bank's assets in line with the internal and external regulatory framework, and directs appropriate actions in respect of delinquent assets. The Committee ensures that adequate provisions are taken in line with the regulatory guidelines.

Assets and Liability Management Committee

This Committee is responsible for the management of a variety of risks arising from the Bank's business including, market and liquidity risk management, loan to deposit ratio analysis, cost of funds analysis, establishing guidelines for pricing on deposit and credit facilities, exchange rate risks analysis, balance sheet structuring, regulatory considerations and monitoring of the status of implemented assets and liability strategies. The members of the Committee include the Managing Director, Executive Directors, the Treasurer, the Head of the Financial Control Group, the Chief Risk Officer as well as a representative of the Assets and Liability Management Unit.

Information Technology (IT) Steering Committee

The Committee is responsible for assisting Management with the implementation of IT strategy approved by the Board. The roles and responsibilities of the Committee include:

1. Planning, Budgeting and Monitoring

- Review and approve the Bank's IT plan and budget (short and long term).
- Review IT performance against plans and budgets, and recommend changes, as required.
- Review, prioritize and approve IT investment initiatives.
- Establish a balance in overall IT investment portfolio in terms of risk, return and strategy.

2. Ensuring Operational Excellence

- Provide recommendations to Management on strategies for new technology and systems.
- Review and approve changes to IT structure, key accountabilities, and practices.
- Ensure project priorities and success measures are clearly defined, and effectively monitored.
- Conduct a review of exceptions and projects on selected basis.
- Perform service catalogue reviews for continued strategic relevance.
-
-
- Review and approve current and future technology architecture for the Bank.
- Monitor service levels, improvements and IT service delivery.
- Assess and improve the Bank's overall IT competitiveness.

3. IT Risk Assurance

- Review and approve governance, risk and control framework.
- Monitor compliance with defined standards and agreed performance metrics.
- Ensure that vulnerability assessments of new technology are performed.
- Reviewing and ensuring the effectiveness of the IT Risk Management and Security plan.
- Ensuring the effectiveness of disaster recovery plans and review reports on periodic disaster recovery testing.
- Reviewing key IT risk and security issues relevant to the Bank's IT processes / systems.
- Ensuring the Bank's compliance with relevant laws and regulations.

Information Technology (IT) Risk Management Committee

The Information Technology Risk Management Committee is responsible for establishing standardised IT risk management practices and ensuring compliance, for institutionalising IT risk management in the Bank's operations at all levels; and identifying and implementing cost effective solutions for IT risk mitigation. The Committee is also responsible for the continuous development of IT risk management expertise and ensuring that a proactive risk management approach is adopted throughout the Bank to drive competitive advantage.

Monitoring Compliance with Corporate Governance

Chief Compliance Officer

The Chief Compliance Officer monitors compliance with money laundering requirements and the implementation of the Corporate Governance Code of the Bank.

The Chief Compliance Officer together with the Chief Executive of the Bank certify each year to the Central Bank of Nigeria that they are not aware of any other violation of the Corporate Governance Code, other than as disclosed to the CBN during the course of the year.

The Company Secretary and the Chief Compliance Officer forward regular returns to the Central Bank of Nigeria on all whistle-blowing reports and corporate governance breaches.

Whistle Blowing procedures

In line with the Bank's commitment to instill the best corporate governance practices, the Bank has established a whistle blowing procedure that ensures anonymity. The Bank has two (2) hotlines and a dedicated e-mail address for whistle-blowing procedures. The hotline numbers are 01-4480905 and 01- 4480906, and the email address is hotline@gtbank.com

Internally, the Bank has a direct link on its Intranet for dissemination of information, to enable members of staff report all identified breaches of the Bank's Code of Corporate Governance.

Code of Professional Conduct for Employees

The Bank has an internal Code of Professional Conduct which all members of staff subscribe to upon assumption of duties. Staff are also required to reaffirm their commitment to the Bank's Code annually.

All members of staff are expected to strive to maintain the highest standards of ethical conduct and integrity in all aspects of their professional life as contained in the Code of Professional Conduct which prescribes the common ethical standards, policies and procedures of the Bank relating to employee values.

Human Resources Policy

The Human Resources policy of the Bank is contained in the Directors' Report on page 36 of this

Annual Report.

Employee Share-ownership Scheme

The Bank has in place an employee share ownership scheme called the Staff Investment Trust (SIT) scheme. Under the Bank's Articles of Association, the Scheme is authorized to hold up to a specified percentage of ordinary shares of the Bank for the benefit of eligible employees of the Bank.

The scheme was established for the benefit of the Bank's staff as an incentive mechanism, by enabling eligible staff invest in ordinary shares of the Bank at a discount (the prevailing Net Assets Value (NAV)), and buying-back their stock from the Bank at the market price, subject to attaining a determined length of service at the point of disengagement from the Bank and proper conduct at disengagement.

Internal Management Structure

The Bank operates an internal management structure where all officers are accountable for duties and responsibilities attached to their respective offices and there are clearly defined and acceptable lines of authority and responsibility.

Subsidiary Governance

Subsidiary governance is an integral part of a company's risk management framework. It provides the structure through which performance objectives of the subsidiaries are set, the means through which the set objectives are achieved and how performance monitoring is conducted.

GTBank's governance strategy is implemented through the establishment of systems and processes which will assure the Board that the subsidiaries reflect the same values, ethics, control and processes as that of the parent while remaining independent in the conduct of their business and abiding within the confines of local extant regulations.

The operations and management of the subsidiaries are monitored and controlled by GTBank Plc as described below.

Oversight function

The International Banking Directorate is responsible for the coordination and implementation of the Bank's international expansion strategy. It plays a pivotal role in driving and monitoring the performance of existing subsidiaries. In this respect, it performs an advisory role to the subsidiaries' senior management and serves as an interface between the parent and its subsidiaries, ensuring that synergies are derived between both parties.

Subsidiary Board Representation

GTBank Plc has controlling representation on the Board of each subsidiary. The Board representatives are seasoned professionals with high level of integrity and proven track records in their respective fields.

Local Board and Board Committees

A minimum of two non-executive directors representing GTBank Plc sit on the board/board committees of the subsidiaries. They perform an advisory role and provide strategic guidance on the direction of the bank. They also provide expert knowledge on expansion, consolidation strategy and proffer direction on appropriate technology to use to efficiently and effectively dominate the local market.

Management of Subsidiaries

The bank appoints one of its Management staff to run the subsidiary. This is achieved by appointing a staff from the parent company to act as the Managing Director of the subsidiary. In addition, another management staff is seconded to act as a backup to the managing director and Head of Support and Operations Divisions within the bank.

The objective is to ensure enculturation, adoption and continuity of GTBank Plc values in the subsidiary. It is also to ensure that the tried and tested approach to corporate governance, systems and controls, technology, credit approval processes and customer service excellence is applied in a seamless manner.

Monthly Management Reporting

Subsidiaries furnish GTBank Plc with reports on their business activities and operating environment on a monthly basis. The reports cover the subsidiaries' financial performance, risk assessment, regulatory activities among others.

Business Performance Review Session

The Managing Directors of the respective GTBank Subsidiaries attend the quarterly Group Business Performance Review sessions during which their performance is analyzed and recommendations made towards achieving continuous stability and improved profitability. This session also serves as a platform for sharing and dissemination of best practices and information among the subsidiaries' executives.

Annual System and Control Audit

An annual audit is carried out by the Systems and Control Group of GTBank Plc to review all operational areas of the offshore banks. This exercise is distinct from the daily operations audit carried out by the respective internal audit unit within the subsidiaries. Upon completion of the audit, a report is circulated to the Board members of the subsidiary and the International Banking Team which follows up on the required actions as the case may be.

Annual Risk Management Audit

This audit is carried out by the Credit Admin arm of GTBank Plc. The areas of concentration during this audit include asset quality, loan performance, review of security pledged, loan conformity with credit policy, documentation check and review of central liability report among others.

Group Compliance Function

To ensure an effective and consistent compliance culture across all entities, the Group Compliance function oversee compliance risk and promote training and best practice implementation across the subsidiaries, therefore affirming the group commitment to a zero tolerance for regulatory breach.

External Auditors' Report

GTBank Plc conducts a review of the management letters provided by the subsidiaries' auditors on completion of periodic audits. The objective is to ensure that all identified deficiencies are promptly corrected and recommendations implemented in line with approved best practices and local regulatory guidelines.

Sustainability Report

As a first-class financial services provider with an internal obligation to comply with international best practices, Guaranty Trust Bank continuously ensures that its business operations and activities are carried out in line with applicable Environmental and Social regulations. The Bank's commitment is evident in the entrenchment of environmental and social considerations in its activities and operations. These practices have also been extended to the activities of the Bank's stakeholders – customers, suppliers, workers and communities where the Bank operates.

Guaranty Trust Bank's business practices conform to the Nigerian Sustainable Banking Principles. Consequently, during the year, the Bank reviewed relevant business processes to ensure further integration of the Sustainability Principles into its business operations and activities. Integration and Implementation are being guided by the provisions of the Nigerian Sustainable Banking Principles. Monitoring of recommended action plans from Environmental and Social Risk Assessments is continuously carried out to ensure regularization, where applicable, based on agreed timelines.

In line with the Bank's continuous commitment to gender equality and women economic empowerment, the ratio of women in the employment of the Bank increased from 45% to 46% during the course of the year, while the ratio of women in the Senior Management cadre increased from 31%, as at 31st December 2014, to 33% in December 2015. This is a clear indication that women play a prominent role in the affairs of the Bank.

The drive for a safe and healthy work environment was further sustained by inculcating a culture that encourages staff to undertake full medical check-up. Additionally, a fitness walk was organized for staff in the course of the year. These activities complements other initiatives, such as the establishment of a staff gymnasium and a crèche, designed to promote work-life balance and ease the work pressure on nursing mothers.

As part of the Bank's continuous drive to reach the un-banked and under-banked in the community, the Bank launched its GTeasysavers product which enables customers to save for financial and non-financial goals. It also introduced a variation of the GTeasysavers product to enable customers open accounts by dialing a designated code. The account is available to all customers who fall within the CBN level 1 KYC requirement. Furthermore, the Bank's Agent banking outlets has continued to grow with an addition of twelve (12) new agent banking locations in the last one year to encourage financial inclusion.

As an International Bank with a global outlook that imbibes best practices, a healthy work culture, an ethical value system and a social conscience at the heart of its operation, Guaranty Trust Bank will continue to expand its Corporate Social Responsibility footprint by growing its beneficiary base and implementing meaningful CSR schemes that impact the lives of the less privileged within its host communities.

Treating Customer Fairly (TCF)

Our customers remain critical stakeholders in our business. As such, we pay particular attention to their needs and ensure that fair treatment of all our customers forms an integral part of our business processes.

In keeping with our vision to deliver the utmost in customer service, the treating customer's fairly policy was formulated in order to ensure customers' complaints are noted and appropriate feedback given promptly and in a timely manner.

This we achieve by implementing and maintaining a robust Complaints management process/platform. To further improve our services, periodic reviews of the complaints/feedback received are carried out including a root cause analysis, which is conducted, analysed and feedback forwarded to relevant stakeholders for learning purposes and prevention of reoccurrence of identified issues/complaints.

Complaints and Feedback Channels

To ensure the full integration of the complaints management and resolution process, the following channels have been provided for customers to enable them contact the Bank.

- The Complaints portal on the Bank's website;
- An SMS platform;
- GT Connect (a 24 hours self-service interactive call center);
- Social Media feedback platform;
- The Whistle Blowing portal on the Bank's website;
- The Customer service desk at any of our branches.

Customers' opinion on products, services and processes

The Bank periodically evaluates public/customers' opinion about our services, products and policies in a bid to improve services to our customers. The evaluation is conducted in various ways, including:

- Customer feedback survey on the Bank's website;
- One-on-one focus meetings with customers;
- Interviews with randomly picked customers.

Complaints Handling and Resolution Structure

We are committed to resolving customer's complaints if and when they arise. Our complaints and feedback structure ensures the prompt resolution of customers' complaints. There is a dedicated Complaints Unit responsible for receiving, ensuring prompt investigation and resolution of customers' complaints. The Unit serves as the liaison between the Bank and its customers as well as regulatory authorities in ensuring that complaints are satisfactorily resolved.

When a complaint is received, it is allocated a unique identifier number for tracking purposes and acknowledged. A review is conducted to confirm if it could be resolved at the point of receipt. Where a resolution can be provided, a feedback is provided to the customer immediately if not the

complaint is referred to the appropriate team in the Bank to handle. The Complaints received are categorised to ensure proper monitoring and efficient management.

Upon resolution, the customer is contacted and the resolution provided to the customer. The complaint is closed and marked as resolved.

Reports to the Central Bank of Nigeria

We provide periodic reports to the Central Bank of Nigeria (CBN) in line with the CBN's guidelines on resolution of customers' complaints.

Below is a breakdown of Complaints received and resolved by the Bank between January and December 2015 pursuant to CBN circular dated August 16, 2011.

Description	Number		Amount Claimed (N'000)		Amount Refunded (N'000)	
	2015	2014	2015	2014	2015	2014
1 Pending Complaints brought forward from prior period	129	97	2,976,536	515,671	-	-
2 Received Complaints	6,011	5,772	1,328,997	8,531,677	-	-
3 Resolved Complaints	6,026	5,740	3,428,757	6,070,812	161,505	94,282
4 Unresolved Complaints escalated to CBN for intervention	-	-	-	-	-	-
5 Unresolved Complaints pending with the Bank carried forward	114	129	876,776	2,976,536	-	-

*Some of the outstanding complaints also include complaints on excess charges, complaints on loan and facilities availed by the Bank.

** Majority of outstanding complaints as at December 31, 2015 also constitute unauthorised International card transaction that are yet to be resolved by International card operators and International dispense errors (which requires a minimum of 45 working days for investigation and resolution).

Anti-Money Laundering and Combating the Financing of Terrorism (AML/CFT) framework

Guaranty Trust Bank plc is fully committed to the global fight against all forms of financial crimes, including money laundering and terrorist financing. In this regard, the Bank has implemented a framework for Anti-Money Laundering (“AML”), Combating the Financing of Terrorism (“CFT”) and the prevention of the financing and proliferation of weapons of mass destruction.

The framework assures adherence to AML/CFT legislation and regulations in Nigeria as well as leading best practices including but not limited to the Financial Action Task Force (FATF) 40 Recommendations.

Structure of the framework

The Bank has in place policies and procedural guidelines that are regularly reviewed/revised to ensure that they remain in line with the ever evolving regulatory requirements and leading practices. The Bank has moved away from a “rule based and tick box” approach for combating financial crime risk, to a risk based approach. Thus, the Bank identifies and assesses the risks from a proactive stance and allocates the requisite resources which center around systems and controls to manage these risks.

Scope of the framework

The scope of the Bank’s AML/CFT framework covers the following:

(i) Board and Management responsibilities:

The Board of Directors of the Bank has oversight responsibilities for the AML/CFT framework. The Board ensures that the Bank’s Management and all employees conform strictly with all regulatory and internal procedures relating to AML/CFT and that the Bank maintains a zero tolerance to regulatory infraction. The “tone is set from the top”.

(ii) Reports to Senior Management and the Board:

AML & CFT reports are submitted monthly and quarterly to senior management and the Board respectively. These reports provide the Board and Management with information to enable them assess how the Bank is complying with its regulatory responsibilities as well keeping them abreast on current trends and developments in the financial industry, particularly in the area of risk management.

(iii) Know Your Customer (KYC) procedures:

The completion of an account opening form and the collection of identification documents is the foundation/bedrock for account opening. Customer Due Diligence (CDD) is conducted prior to entering into any relationship. This includes at a minimum identity and address verification as well as ascertaining the source of income and wealth of the customer. Enhanced Due Diligence (EDD) is conducted on high risk customers including politically exposed persons. The approval of senior management and Compliance is required prior to commencement of banking relationship with such high risk customers.

The Bank takes requisite and regulatory measures when embarking on relationships with Designated Non-Financial Business and Professionals (DNFBPs) due to their perceived risk and in compliance with regulatory requirements.

The Bank as part of its KYC and CDD procedures, requests and obtains identification documents to confirm who the beneficial owners of a business are as well as the organization's control and structure.

The Bank in the financial year under review as directed by the CBN made it mandatory for our customers to acquire a Bank Verification Number (BVN) to transact on their accounts and have access to loans and purchase of foreign exchange.

The Bank will continue to ensure compliance with applicable laws and regulations, while ensuring that customers continue with their banking transactions.

(iv) Transaction Monitoring:

A compliance culture is firmly entrenched within the Bank and thus all members of staff understand that compliance is a collective responsibility.

Transaction monitoring occurs on a manual and automated basis. The former is performed by all members of staff, who are regularly provided with red flags to look out for and the latter resides within the Compliance Unit.

All members of staff are aware of the fact that suspicious activities/ transactions should be immediately referred to the Compliance Unit.

(v) Transaction Reporting:

Regulatory and statutory requirements provide that certain reports and returns are made to regulatory bodies. In Nigeria, the Nigerian Financial Intelligence Unit (NFIU) is the agency charged with the responsibility of receiving the following core transaction based reports:

- Currency Transaction Report (CTR)
- Foreign Currency Transaction Report (FTR)
- Suspicious Transaction Report (STR)

The Bank renders reports to the NFIU in accordance with the provisions of sections 2, 6 and 10 of the Money Laundering (Prohibition) Act of 2011 as amended ("the Act").

Section 2 of the Act provides that financial institutions must submit a report on all international transfer of funds and securities of a sum exceeding ten thousand dollars (\$10,000) or its equivalent in other foreign currencies.

Section 6 of the Act provides that a financial institution must submit a report on all unusual and suspicious transactions.

Section 10 of the Act provides that any lodgment or transfer of funds in excess of N5 million and above for individuals and N10 million and above for corporate customers must be reported.

(vi) Relationship with Regulators and Law Enforcement Agencies:

The Bank understands that part of its corporate and social role is to cooperate with law enforcement agencies in the fight against financial crime. To this end, the Bank maintains a cordial and supportive relationship with all regulatory and law enforcement agencies. The Bank promptly

complies with all requests made, pursuant to the law, and provides information to regulators including the NFIU, the CBN and other relevant agencies.

(vii) Sanctions Compliance Management:

The Bank as a policy, does not enter into any relationships with sanctioned individuals/entities. All employees, as applicable to their functions, are required to screen names of individuals and organizations who have or plan to enter a business relationship or carry out a transaction with/through the Bank against the Bank's Internal watch list.

The internal watch list contains the names of individuals and entities, who have been blacklisted by various sanctions bodies. Employees are required, as part of the Bank's policy, to refrain from any relationship and/or transaction which yield a true or positive match and follow the escalation procedure. Sanctions screening is done at account opening and on a real time basis for all SWIFT transactions.

(viii) Politically Exposed Persons (PEPs)

PEPs are individuals who are or have been entrusted with prominent public functions and people or entities associated with them. Enhanced due diligence measures are applied to PEPs, as with other high risk customers to mitigate the AML/CFT risk they pose. This is to ensure that the Bank is not unknowingly supporting fraudulent activities such as money laundering and/or the financing of terrorism.

In line with FATF's recommendation, the Bank employs the use of an automated monitoring tool in identifying and monitoring PEPs transactions. This is achieved through the thorough review of information provided by the customer and their transaction trends.

Establishment of new accounts for PEPs as well as continuity of such accounts (for those already existing in the system) is subject to the approval of an Executive Director and the Compliance Unit.

(ix) AML/CFT principles for Correspondent Banking:

As is the global best practice, the Bank only enters into and maintains correspondent banking relationships with financial institutions that have implemented sufficient AML/CFT policies and procedures. The Bank does not deal with shell banks nor maintain any payable through accounts.

(x) Training:

The Bank places a high premium on the training of its employees. Trainings are carried out to ensure employees are conversant with the AML/CFT laws, KYC principles and other AML/CFT related information. Annual Compliance training is mandatory for all members of staff, including Senior Management and Directors. Training are done via e-learning or face to face media. Ad hoc training also takes place by way of the dissemination of topical national and international findings.

(xi) AML/CFT Audits:

To ensure an ever evolving fit for use Compliance function, internal audit of the AML/CFT function is conducted on a quarterly basis. The purpose of the audit is to test for, and ensure the effectiveness of the AML/CFT measures put in place by the Bank.

The report and findings of the audit are circulated to various levels of senior management. A follow-up to the audits takes place to ensure that the relevant issues are closed out and highlighted recommendations have been implemented.

(xii) Record Retention:

As provided for within the “Act”, customer identification documents are retained throughout the life of the account and for five (5) years after the cessation of the banking relationship, except in cases of litigation and/or regulatory investigations. In the case of the latter, the records will be kept for as long as they are required.

Subsidiaries

The Bank ensures that its foreign subsidiaries AML/CFT provisions is consistent with the Bank’s framework which is based on leading practices. These measures are applied to the extent that the respective subsidiary’s local laws and regulations permit; however, where there are discrepancies the stricter will always prevail.

Internal control and Risk Management Systems in relation to the financial reporting

Guaranty Trust Bank's internal control and risk Management systems ensure that material errors or inconsistencies in the financial statements are identified and corrected. The Bank's internal control framework is patterned after the Committee of Sponsoring Organizations of the Treadway Commission's (COSO) Framework.

COSO defines internal control as "a process effected by an entity's Board of Directors, Management and other personnel, to provide reasonable assurance regarding the achievement of objectives" in three categories--effectiveness and efficiency of operations; reliability of financial reporting; and compliance with applicable laws and regulations. The scope of internal control therefore extends to policies, plans, procedures, processes, systems, activities, functions, projects, initiatives, and endeavors of all types at all levels of the Bank.

The internal control and risk Management systems comprise the following areas:

- Control Environment
- Risk Assessment
- Control Activities
- Information and Communication
- Monitoring

Control Environment

The Bank has three Board Committees (Board Risk Committee, Board Credit Committee and Board Audit Committee) that have oversight function on the Bank's Risk Management Processes. The Committees are responsible for setting risk Management policies that ensure material risks inherent in the Bank's business are identified and mitigated or controlled. The Bank also has an Audit Committee which is made up of three shareholders' representatives and three Non- Executive Directors; one of the shareholders' representatives is the Chairman. The Audit Committee is therefore independent. Its oversight functions include among others, ensuring that quality accounting policies, internal controls, independent and objective statutory auditors are in place to prevent and detect fraud and material errors in financial reporting.

The Bank's Management committees are responsible for implementing risk Management policies set out by the Board. They are also responsible for setting internal control policies and monitoring the effectiveness of the internal control systems. They ensure proper books of accounts are kept and accounting policies are in conformity with: International Financial Reporting Standards; Prudential Guidelines for licensed Banks; Circulars issued by the Central Bank of Nigeria; The requirements of the Banks and Other Financial Institutions Act; and The requirements of the Companies and Allied Matters Act.

Risk Assessment

The Board and Senior Management regularly assess the risks the Bank is exposed to, including risks relating to financial reporting. Management Committees meets on a regular basis to assess the credit, market, interest rates, liquidity, legal and reputational risks facing the bank. Senior Management also regularly considers whether the existing internal controls are effective in relation to the risks identified in the financial reporting process.

The Board also assesses the effectiveness of the Bank's internal control over financial reporting on an ongoing basis and specifically at mid-year and year end. The Management letter issued by the external auditors which contains the auditors' observations on the control environment in the Bank is discussed at the Audit Committee meetings.

Control Activities

Control activities are an integral part of the Bank's day to day operations. Senior Management has set up control structure to ensure control activities are defined at every business area.

Examples of the Bank's control activities include the following;

Top Management Reviews

- Internal Audit Reports eliciting control weaknesses are presented periodically to Management and Board Audit Committee.
- Preparation of financial statements on a daily basis for Management review.
- Monthly and quarterly profitability review, where the Bank's financial performance is reviewed and compared with set budgets. Quarterly reports of the Chief Risk Officer to the Board, eliciting the existing and potential risks facing the Bank and the mitigants deployed.

Activity Control

Control functions are embedded within each business area for self-checking of activities within the areas (for instance, transactions call over for timely detection of errors is carried out by all posting units).

Physical Controls

There are policies guiding access to the Bank's physical and financial assets, including dual custody, use of overrides etc.

Compliance with Limits

The Bank sets internal limits guiding its trading book activities, liquidity and interest rate gaps, credit concentration limits. The limits are monitored on a daily basis by an independent unit outside the business areas.

Approval and Authorisation Limits

- There are segregation of duties; no officer can start and conclude transactions
- Limits exist for credit and expense approvals. Transactions are approved at appropriate levels.

Verifications and Reconciliations

All internal ledgers are regularly proofed and reconciled; exception reports are generated.

Whistle Blowing

The Bank has instituted a strong whistle blowing culture among staff and also created awareness among its stakeholders. The whistle blowing platform is accessible to all and the aim is primarily to ensure that all cases of irregularities are made known and addressed by the Bank.

Information and Communication/ Monitoring

The Bank's Management understands the need for a timely, reliable and accurate information flow within the Bank, for effective decision making and enhanced financial reporting. Every activity of the Bank is codified in the Bank's standard operating procedure (SOP), which outlines the process flow and specifies the duties and responsibilities of every officer in relation to the activity. The SOP further highlights requirement for reporting, the frequency of reporting as well as those within the organization to whom the report would be directed to.

The following are some of the generic internal reports used by Management for decision making and monitoring purposes:

- FINSTAT- Financial Statements Report
- BPR- Business Performance Review Report
- MPR- Monthly Profitability Report
- Liquidity Ratio Report
- OPR - Operations Performance Report
- APR- Account Profitability Report
- ECR- Expense Control Report
- CAC- Criticized Asset Committee Report
- CLR- Criticized Loans Report
- ALCO- Asset and Liability Committee Report
- Overdraft Efficiency Report

Directors' Report

For the financial year ended December 31, 2015

The Directors have pleasure in presenting their report on the affairs of Guaranty Trust Bank Plc (“the Bank”) and its subsidiaries (“the Group”), together with the Group audited financial statements and the auditor’s report for the financial year ended December 31, 2015.

Legal form and principal activity

Guaranty Trust Bank Plc was incorporated as a private limited liability company on July 20, 1990, and obtained a license to operate as a commercial bank on August 1, 1990. The Bank commenced operations on February 11, 1991. It became a public limited company on April 2, 1996, with the listing of its shares on The Nigerian Stock Exchange on September 9, 1996. The Bank was issued a Universal Banking license by the Central Bank of Nigeria on February 5, 2001.

The Bank was issued a Commercial Banking License with International Scope on December 20, 2012, by the Central Bank of Nigeria, following the divestment from all its non-banking subsidiaries in compliance with the Central Bank of Nigeria Regulation on Scope of Banking Activities and other Ancillary Matters.

The Bank’s principal activity remains the provision of commercial banking services to its customers, such as retail banking, granting of loans and advances, corporate finance, money market activities and related services, as well as foreign exchange operations.

The Bank has the following overseas subsidiaries: Guaranty Trust Bank (Gambia) Limited, Guaranty Trust Bank (Sierra Leone) Limited, Guaranty Trust Bank (Ghana) Limited, Guaranty Trust Bank (United Kingdom) Limited, Guaranty Trust Bank (Liberia) Limited, Guaranty Trust Bank (Ivory Coast) Limited, Guaranty Trust Bank (Kenya) Limited, Guaranty Trust Bank (Rwanda) Limited, Guaranty Trust Bank (Uganda) Limited; as well as GTB Finance B.V. Netherlands, the special purpose entity used to raise funds from the international financial market.

The financial results of all the subsidiaries have been consolidated in these financial statements.

Operating results

The Group's Gross earnings increased by 15%. Highlights of the Group's operating results for the year ended 31 December 2015 are as follows:

	Group Dec-2015 N'000	Group Dec-2014 N'000	Parent Dec-2015 N'000	Parent Dec-2014 N'000
Gross Earnings	301,850,111	278,520,814	268,876,290	249,007,051
Profit before income tax	120,694,804	116,385,843	113,027,057	110,367,851
Taxation	(21,257,923)	(21,951,751)	(18,718,934)	(21,197,074)
Profit for the year	99,436,881	94,434,092	94,308,123	89,170,777
Non-controlling interests	758,454	697,633	-	-
Profit attributable to equity holders of the Bank	98,678,427	93,736,459	94,308,123	89,170,777
Earnings Per Share (Kobo) - Basic	351	332	335	303
Earnings Per Share (Kobo) - Diluted	351	332	335	303

Dividends

During the 2015 financial year, Directors declared and paid an interim dividend of 25 Kobo per ordinary share on the issued capital of 29,431,179,224 Ordinary Shares of 50 Kobo each, for the half-year ended June 30, 2015.

Withholding tax was deducted at the time of payment.

There was no income tax consequence on the Bank as a result of the dividend pay-out, as the bank is only required to deduct this tax at source on behalf of Tax authorities in Nigeria. The tax so withheld represents advance payment of income tax by the recipient shareholders.

The Directors recommend the payment of a final dividend of ₦1.52 k (one naira fifty two kobo only) per ordinary share of 50 Kobo (bringing the total dividend for the financial year ended December 31, 2015 to ₦1.77k (2014: ₦1.75k per share). Withholding tax would be deducted at the point of payment.

Directors and their interest

The Directors who held office during the period, together with their direct and indirect interests in the issued share capital (including the Global Depository Receipts (GDRs)) of the Company as recorded in the register of Directors' shareholding and/or as notified by the Directors for the purposes of sections 275 and 276 of the Companies and Allied Matters Act and the listing requirements of The Nigerian Stock Exchange is noted below:

Sitting allowances	- Allowances paid to Non-Executive Directors only for attending Board and Board Committee Meetings.	Paid after each Meeting

Changes on the Board

During the period under review, the erstwhile Chairman of the Board, Mr. Egbert Imomoh retired from the Board at the end of the 25th Annual General Meeting held on March 31, 2015, as he attained the age of seventy (70) years. He joined the Board of the Bank in June 2005 and became the Chairman of the Board in April 2013. Subsequent upon his retirement, the Board of Directors appointed Mrs. Osaretin Afusat Demuren as the Chairman of the Board, in line with the well defined succession plan of the Bank.

Also in the course of the year, Mr. Ohis Ohiwerei retired from the Board, having served as an Executive Director for four (4) years.

To fill the vacancies created on the Board by the retirement of Messrs. Imomoh and Ohiwerei, the Board appointed Ms. Imoni Akpofure as an Independent Non-Executive Director, and Mr. Haruna Musa as Executive Director of the Bank.

The appointments of Ms. Akpofure and Mr. Musa have been approved by the Central Bank of Nigeria and will be presented for Shareholders' approval at this Meeting.

Profiles of the New Directors

- **Profile of Ms. Imoni Akpofure**

Ms. Akpofure holds a Bachelor of Engineering (B.Eng Honors) degree in Civil Engineering (1988) from the Imperial College, University of London, United Kingdom, and a Masters of Science (M.Sc) Degree in Environmental Engineering (1989) from the Newcastle University, United Kingdom. She also obtained an MBA from the INSEAD, France.

She is a seasoned professional with over eighteen (18) years work experience in the financial industry, having worked with International Finance Corporation from 1995 till 2013, where she rose through the ranks to become the Director, Western Europe, a position she held from 2009 till her retirement in 2013.

Ms. Akpofure also serves as member of several other boards, both locally and internationally, including as Member, Investment Committee, Fund for Agricultural Finance in Nigeria (FAFIN); Member, the Advisory Board, KINA Advisory Limited, United Kingdom; and is currently one of the two (2) Regional Directors for Africa of CDC Group Plc (formerly Commonwealth Development Corporation), responsible for working with CDC's investment teams in London to support investments in Anglophone and Francophone West Africa and Lusophone Africa.

- **Profile of Mr. Haruna Musa**

Mr. Haruna Musa holds a B.A. (Agriculture) degree from Ahmadu Bello University, Zaria, and a Masters in Business Administration from Bayero University, Kano. He also holds a Masters degree in Finance and Management from Cranfield University, United Kingdom. He worked in several financial institutions before joining Guaranty Trust Bank plc in 2001.

He has over eighteen (18) years' experience which covers various aspects of banking including banking operations, corporate banking, commercial banking, compliance and risk management. He joined the Bank in 2001 and rose through the ranks to become an Assistant General Manager and Group Head Public Sector, North East Division in 2006. He left the Bank briefly in 2008 to pursue a Masters Degree in Finance and Management at the Cranfield University, United Kingdom, after which he returned in 2009. Haruna's experience.

Prior to his appointment as Executive Director, Mr. Musa was the General Manager in charge of the North East Division.

Directors' interest in Contracts

For the purpose of Section 277 of the Companies and Allied Matters Act (2004), Mr. K. A. Adeola disclosed to the Board his indirect interest in Touchdown Travels Limited, a company in which his brother serves as director.

Touchdown Travels Limited provided airline tickets to the Bank in the course of the year on an ad-hoc basis.

The selection and conduct of the company is in conformity with rules of ethics and acceptable standards. In addition, the Bank ensures that all transactions with the company are conducted at arm's length at all times.

Shareholding analysis

The analysis of the distribution of the shares of the Bank as at December 31, 2015, is as follows:

Share Range			Number Of Shareholders	% of Shareholder	Number Of Holdings	% Shareholding
1	-	10,000	252,062	75.0531	785,016,361	2.6673

Human Resources Policy

(1) Recruitment

The Bank conforms with all regulatory requirements in the employment of staff, whilst also ensuring that only fit and proper persons are approved for appointment to board or top management positions. All prescribed pre-employment screening for prospective employees and other requirements for regulatory confirmation of senior management appointments are duly implemented.

(2) Diversity and Inclusion

The Bank treats all employees, prospective employees and customers fairly and equally regardless of their gender, sexual orientation, family status, race, colour, nationality, ethnic or national origin, religious belief, age, physical or mental disability, or any such factor.

The Bank seeks to achieve a minimum of 30% and 40% female representation at Board and senior management levels respectively, subject to identification of candidates with appropriate skills. "Senior Management" positions for the purpose of this statement refers to Managing Director/CEO, Deputy Managing Director, Executive Director, General Manager, Deputy General Manager and Assistant General Manager grades.

(3) Employment of Disabled Persons

The Bank operates a non-discriminatory policy in the consideration of applications for employment, including those received from disabled persons.

In the event of any employee becoming disabled in the course of employment, where possible, the Bank is in a position to arrange appropriate training to ensure the continuous employment of such a person without subjecting him/her to any disadvantage in his/her career development. In the period under review, the Bank had three persons on its staff list with physical disability.

(4) Employee Involvement and Training

The Bank encourages participation of employees in arriving at decisions in respect of matters affecting their well-being through various forum like town hall meetings. Towards this end, the Bank provides opportunities where employees deliberate on issues affecting the Bank and employee interests, with a view to making inputs to decisions thereon.

The Bank places a high premium on the development of its workforce. Consequently, the Bank sponsored its employees for various training courses, both locally and overseas, in the period under review. The Bank has also gone into partnership with top-notch executive business schools in Europe and North America to deliver world-class technical and leadership training to employees in Nigeria.

(5) Health, Safety and Welfare of Employees

The Bank maintains business premises designed with a view to guaranteeing the safety and healthy living conditions of its employees and customers alike. Employees are adequately insured against occupational and other hazards. In addition, the Bank provides medical facilities to its employees and their immediate families at its expense. In line with the status of the Bank as a family-friendly organization, we operate a crèche facility at our Head Office and have plans to expand to other locations shortly. There is a state-of-the-art gymnasium for

staff at our Head Office. This is in addition to the registration of staff members at fitness centres (within their vicinity) and social clubs towards achieving employee wellness.

The Bank has in place a number of training programmes, workshops and enlightenment programmes/publications designed to equip staff members with basic health management tips, First Aid, fire prevention and other occupational safety skills.

Fire prevention and fire-fighting equipment are installed in strategic locations within the Bank's premises.

The Bank operates a Group Life and Group Personal Accident (formerly known as Workmen's Compensation) Insurance covers and Employee Compensation Act contributions for the benefits of its employees. It also operates a contributory pension plan in line with the Pension Reform Act 2004 (amended in 2014) as well as a terminal gratuity scheme for its employees.

BY ORDER OF THE BOARD

Olutola Omotola

Company Secretary

FRC/2013/ICSAN/00000001781

Plot 635, Akin Adesola Street, Victoria Island, Lagos

27 January, 2016

Statement of Directors' Responsibilities in Relation to the Financial Statements for year ended December 31, 2015

The Directors accept responsibility for the preparation of the financial statements set out from pages 49-314 that give a true and fair view in accordance with the requirements of the International Financial Reporting Standards.

The Directors further accept responsibility for maintaining adequate accounting records as required by the Companies and Allied Matters Act of Nigeria and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

Going Concern:

The Directors have made assessment of the Company's ability to continue as a going concern and have no reason to believe that the Bank will not remain a going concern in the years ahead.

Resulting from the above, the directors have a reasonable expectation that the company has adequate resources to continue operations for the foreseeable future. Thus, directors continued the adoption of the going concern basis of accounting in preparing the annual financial statements.

SIGNED ON BEHALF OF THE DIRECTORS BY:

CATHY ECHEOZO

Report of the Audit Committee

For the year ended 31 December, 2015

To the members of Guaranty Trust Bank Plc

In accordance with the provisions of Section 359 (6) of the Companies and Allied Matters Act 2004, the members of the Audit Committee of Guaranty Trust Bank Plc hereby report as follows:

- ◆ We have exercised our statutory functions under Section 359 (6) of the Companies and Allied Matters Act, 2004 and acknowledge the co-operation of management and staff in the conduct of these responsibilities.
- ◆ We are of the opinion that the accounting and reporting policies of the Bank and Group are in accordance with legal requirements and agreed ethical practices and that the scope and planning of both the external and internal audits for the year ended 31 December, 2015 were satisfactory and reinforce the Group's internal control systems.
- ◆ We are satisfied that the Bank has complied with the provisions of Central Bank of Nigeria circular BSD/1/2004 dated 18 February, 2004 on "Disclosure of directors' related credits in the financial statements of banks", and hereby confirm that an aggregate amount of N 1,585,455,000 (31 December, 2014: N881,920,000) was outstanding as at 31 December, 2015. The status of performance of insider related credits is as disclosed in Note 46(d).
- ◆ We have deliberated with the External Auditors, who have confirmed that necessary cooperation was received from management in the course of their statutory audit and we are satisfied with management's responses to the External Auditor's recommendations on accounting and internal control matters and with the effectiveness of the Bank's system of accounting and internal control.

Mr. Akinola B. Akisanmi
 Chairman, Audit Committee
 FRC/2014/ICAN/00000005627

In attendance:
 Mr. Segun Fadahunsi - Secretary

REPORT OF THE INDEPENDENT AUDITOR TO THE MEMBERS OF GUARANTY TRUST BANK PLC

Report on the financial statements

We have audited the accompanying separate and consolidated financial statements of Guaranty Trust Bank Plc (“the bank”) and its subsidiaries (together “the group”). These financial statements comprise the statement of financial position as at 31 December 2015 and the statements of comprehensive income, changes in equity and cash flows for the year ended, and a summary of significant accounting policies and other explanatory notes.

Directors’ responsibility for the financial statements

The directors are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and with the requirements of the Companies and Allied Matters Act and the Banks and Other Financial Institutions Act and for such internal control, as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express an independent opinion on the financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform our audit to obtain reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion the accompanying financial statements give a true and fair view of the state of the financial affairs of the bank and the group as at 31 December 2015 and of their financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies and Allied Matters Act, the Banks and Other Financial Institutions Act and the Financial Reporting Council of Nigeria Act.

Report on other legal requirements

The Companies and Allied Matters Act and the Banks and Other Financial Institutions Act require that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- ii) the bank has kept proper books of account, so far as appears from our examination of those books and returns adequate for our audit have been received from branches not visited by us;
- iii) the bank's statements of financial position and comprehensive income are in agreement with the books of account;
- iv) the information required by Central Bank of Nigeria Circular BSD/1/2004 on insider related credits is disclosed in Note 46 to the financial statements;
- v) except for the contraventions disclosed in Note 47 to the financial statements, the bank has complied with the requirements of the relevant circulars issued by the Central Bank of Nigeria.

The accompanying notes are an integral part of these financial statements

1. Reporting entity

Guaranty Trust Bank Plc (“the Bank” or “the Parent”) is a company domiciled in Nigeria. The address of the Bank’s registered office is Plot 635, Akin Adesola Street, Victoria Island, Lagos. These separate and consolidated financial statements, for the year ended 31 December 2015, are prepared for the Parent and the Group (Bank and its subsidiaries, separately referred to as “Group entities”) respectively. The Parent and the Group are primarily involved in investment, corporate, commercial and retail banking.

2. Basis of preparation

The Consolidated and separate financial statements of the parent and the Group have been prepared in accordance with International Financial Reporting Standards as issued by the IASB, the requirements of the Companies and Allied Matters Act and with the Banks and Other Financial Institutions Act.

These Consolidated and Separate financial statements have been audited and were authorised for issue by the directors on 27 January 2016.

3. (a) Significant Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements. All entities within the group apply the same accounting policies.

(a) Functional and presentation currency

These Consolidated and Separate financial statements are presented in Nigerian Naira, which is the Parent’s functional currency. Except where indicated, financial information presented in Naira has been rounded to the nearest thousand.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for the following:

- Derivative financial instruments which are measured at fair value.
- Non-derivative financial instruments, carried at fair value through profit or loss, are measured at fair value.
- Available-for-sale financial assets are measured at fair value through equity. However, when the fair value of the Available-for-sale financial assets cannot be measured reliably, they are measured at cost less impairment.
- Liabilities for cash-settled share-based payment arrangements are measured at fair value.
- The liability for defined benefit obligations is recognized as the present value of the defined benefit obligation less the fair value of the plan assets.
- The plan assets for defined benefit obligations are measured at fair value.
- Assets and liabilities held for trading are measured at fair value
- Assets and Liabilities held to maturity are measured at amortised cost
- Loans and Receivables are measured at amortised cost.

(c) Use of Estimates and Judgements

The preparation of the financial statements in conformity with IFRS requires the directors to

make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected. Information about significant areas of estimation, uncertainties and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in note 6.

(d) Changes to accounting policies

New and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial period.

Standards and interpretations effective during the reporting period

It is important to note that no standard nor amendment to existing standard took effect during the reporting period. Hence, there was no impact on the accounting policies, financial position or performance of the Group.

Standards and interpretations issued/amended but not yet effective

Other standards issued/amended by the IASB but yet to be effective are outlined below:

<i>Standard</i>	<i>Content</i>	<i>Effective Year</i>
Amendments to IFRS 11	Joint arrangements	1-Jan-16
Amendments to IAS 1	Presentation of financial statements	1-Jan-16
Amendments to IAS 27	Separate financial statements	1-Jan-16
Amendments to IFRS 7	Financial Instruments: Disclosures	1-Jul-16
Amendments to IAS 19	Employee Benefits	1-Jul-16
Amendments to IAS 34	Interim Financial Reporting	1-Jul-16
Amendments to IAS 16	Property, Plant and Equipment	1-Jan-16
Amendments to IAS 38	Intangible Assets	1-Jan-16
Amendments to IAS 41	Agriculture	1-Jan-16
IFRS 15	Revenue from Contracts with Customers	1-Jan-17
Amendments to IFRS 14	Regulatory deferral accounts	1-Jan-16
Amendments to IFRS 5	Non Current Asset Held for Sale and Discontinued Operations	1-Jul-16
IFRS 10	Consolidated Financial Statements	1-Jan-16
IFRS 9	Financial instruments	1-Jan-18

Commentaries on these new standards/amendments are provided below.

- **Amendments to IFRS 11 - Accounting for Acquisitions of Interests in Joint Operations**
Amends IFRS 11 Joint Arrangements to require an acquirer of an interest in a joint operation in which the activity constitutes a business (as defined in IFRS 3 Business Combinations) to:

 - apply all of the business combinations accounting principles in IFRS 3 and other IFRSs, except for those principles that conflict with the guidance in IFRS 11
 - disclose the information required by IFRS 3 and other IFRSs for business combinations.

The amendments apply both to the initial acquisition of an interest in joint operation, and the acquisition of an additional interest in a joint operation (in the latter case, previously held interests are not remeasured).
- **Amendments to IAS 1 - Presentation of financial statements**
Amends IAS 1 to clarify guidance on materiality and aggregation, the presentation of subtotals, the structure of financial statements and the disclosure of accounting policies.
- **Amendments to IAS 27 - Separate financial statements**
Amends IAS 27 to restore the option to use the equity method to account for investments in subsidiaries, joint ventures and associates in an entity's separate financial statements.
- **Amendments to IFRS 7 - Financial Instruments: Disclosures**
Amends IFRS 7 to remove the phrase 'and interim periods within those annual periods' from paragraph 44R, clarifying that offsetting disclosures is not required in the condensed interim financial report . However, if the IFRS 7 disclosures provide a significant update to the information reported in the most recent annual report, an entity is required to include the disclosures in the condensed interim financial report.

On servicing contract, it clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and arrangement against the guidance for continuing involvement in paragraphs IFRS 7.B30 and IFRS 7.42C in order to assess whether the disclosures are required.
- **Amendments to IAS 19 - Defined Benefit Plans: Employee Contributions**
Amends IAS 19 to clarify that high quality corporate bonds used in estimating the discount rate for post employment benefits should be denominated in the same currency as the benefits to be paid (thus, the depth of the market for high quality corporate bonds should be assessed at currency level).
- **Amendments to IAS 34 – Interim Financial Reporting**
Amends IAS 34 to clarify that the required interim disclosures must either be in the interim financial statements or incorporated by cross reference between the financial statements and wherever they are included within the greater interim financial report (e.g. management commentary or risk report).
- **IAS 16 – Property, Plant and Equipment**
Amends IAS 16 to clarify that the use of revenue based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. The IASB has also clarified that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset.

- **IAS 38 – Intangible Assets**

Amends IAS 38 to introduce a rebuttable presumption that a revenue-based amortization method for intangible assets is inappropriate for the same reasons as stated in amendment to IAS 16 above. The amendment stated that there are limited circumstances where the rebuttable presumption can be overcome. This is when the intangible asset is expressed as a measure of income and when it can be demonstrated that revenue and consumption of economic benefits of the intangible asset are highly correlated although there are no clear details as to the admissible evidence that is required to overcome the presumption.

- **IAS 41 – Agriculture**

The amendment seek to move biological assets that meet the definition of a “Bearer Plant” away from the fair value measurement approach as prescribed by IAS 41, Agriculture and bring it within the scope of IAS 16, Property, Plant and Equipment. This will enable entities to measure bearer plants at cost subsequent to initial recognition or at revaluation. The amendment also introduced an appropriate definition of a bearer plant.

The Group does not have any operational business related to Agriculture and therefore is not in any way impacted by the standard or its amendments.

- **IFRS 15 - Revenue from Contracts with Customers**

IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers.

The five steps in the model are Identification of the contract with the customer, Identification of the performance obligations in the contract, Determination of the transaction price, Allocation of the transaction price to the performance obligations in the contracts, and Recognition of revenue when (or as) the entity satisfies a performance obligation.

- **IFRS 14- Regulatory deferral accounts:**

IFRS 14 is designed as a limited scope Standard to provide an interim, short-term solution for rate-regulated entities that have not yet adopted International Financial Reporting Standards (IFRS). Its purpose is to allow rate-regulated entities adopting IFRS for the first-time to avoid changes in accounting policies in respect of regulatory deferral accounts until such time as the International Accounting Standards Board (IASB) can complete its comprehensive project on rate regulated activities. This standard would not have an impact on the Group as it is not a first time preparer of IFRS financial statements. This is in addition to the fact that the regulators of the countries where we operate do not allow creation of any regulatory deferral account.

- **Amendments to IFRS 5 - Non Current Asset Held for Sale and Discontinued Operations**

Amends IFRS 5 with specific guidance on changes in disposal methods, for cases in which an entity reclassifies an asset from held for sale to held for distribution or vice versa and cases for which held for distribution accounting is discontinued. The amendment clarifies that changing from one of these disposal methods to the other should not be considered to be a new disposal plan, rather it is a continuation of the original plan.

- **Amendments to IFRS 10 - Consolidated Financial Statements**

The amendments address issues that have arisen in applying the investment entities exception under IFRS 10. The amendments to IFRS 10 clarify that the exemption from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity, when the investment entity measures all of its subsidiaries at fair value.

Furthermore, the amendments to IFRS 10 clarify that only a subsidiary of an investment entity that is not an investment entity itself and that provides support services to the investment entity is consolidated. All other subsidiaries of an investment entity are measured at fair value. These amendments do not have any impact on the Group as no member of the Group is an investment entity.

▪ **IFRS 9 - Financial instruments**

IFRS 9 is part of the IASB's project to replace IAS 39. It addresses classification, measurement and impairment of financial assets as well as hedge accounting.

IFRS 9 replaces the multiple classification and measurement models in IAS 39 with a single model that has only three classification categories: amortised cost, fair value through OCI and fair value through profit or loss. It includes the guidance on accounting for and presentation of financial liabilities and derecognition of financial instruments which was previously in IAS 39. Furthermore for non-derivative financial liabilities designated at fair value through profit or loss, it requires that the credit risk component of fair value gains and losses be separated and included in OCI rather than in the income statement.

IFRS 9 also requires that credit losses expected at the balance sheet date (rather than only losses incurred in the year) on loans, debt securities and loan commitments not held at fair value through profit or loss be reflected in impairment allowances. The bank is yet to quantify the impact of this change although it is expected to lead to an increased impairment charge than recognized under IAS 39.

Furthermore, the IASB has amended IFRS 9 to align hedge accounting more closely with an entity's risk management. The revised standard establishes a more principles-based approach to hedge accounting and addresses inconsistencies and weaknesses in the current model in IAS 39. The bank is yet to quantify the impact of these changes on its financial statements.

Other standards and interpretations issued that are effective for annual periods beginning after January 1, 2016, as shown on page 61, have not been applied in preparing these financial statements and the Group is yet to assess the full impact of the amendments arising from these standards.

3.(b) Other Accounting Policies

Other accounting policies that have been applied are:

(a) Consolidation

The financial statements of the subsidiaries used to prepare the consolidated financial statements were prepared as of the parent company's reporting date. The consolidation principles are unchanged as against the comparative period.

(i) Subsidiaries

Subsidiaries are entities controlled by the Parent. Control exists when the Parent has:

- power over the investee;

- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect the amount of the investor's returns.

Acquisition of subsidiaries

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Parent. The Group measures goodwill as the fair value of the consideration transferred including the recognised amount of any non-controlling interest in the acquiree, less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the acquisition date. When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The Group elects on a transaction-by-transaction basis whether to measure at the acquisition date components of non-controlling interests in the acquiree at its fair value, or at its proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition-date fair values, unless another measurement basis is required by IFRS. Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

(ii) Structured entity

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity is consolidated if the Group is exposed, or has rights to variable returns from its involvement with the Structured Entity and has the ability to affect those returns through its power over the Structured Entity. Power is the current ability to direct the activities that significantly influence returns.

The Group established GTB Finance B.V. Netherlands as a Structured Entity to raise funds from the international financial market. Accordingly, the financial statements of GTB Finance B.V. have been consolidated.

(iii) Accounting method of consolidation

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. The results of the subsidiaries acquired or disposed of during the period are included in the consolidated financial statements from the effective acquisition date and or up to the effective date on which control ceases, as appropriate. The integration of the subsidiaries into the consolidated financial statements is based on consistent accounting and valuation methods for similar transactions and other occurrences under similar circumstances.

(iv) Transactions eliminated on consolidation

Intra-group balances, income and expenses (except for foreign currency translation gains or losses) arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with subsidiaries, associates and

jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. Profits and losses resulting from intra-group transactions are also eliminated.

(v) Non-controlling interest

The group applies IFRS 10 Consolidated Financial Statements (2011) in accounting for acquisitions of non-controlling interests. Under this accounting policy, acquisitions of non-controlling interests are accounted for as transactions with equity holders in their capacity as owners and therefore no goodwill is recognised as a result of such transactions. The adjustments to non-controlling interests are based on the proportionate amount of the net assets of the subsidiary.

(b) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency').

(ii) Transactions and balances

Foreign currency transactions, that is transactions denominated, or that require settlement in a foreign currency, are translated into the functional currency using the exchange rates prevailing at the dates of the transactions.

Monetary items denominated in foreign currency are translated using the closing rate as at the reporting date. Non-monetary items measured at historical cost denominated in a foreign currency are translated with the exchange rate as at the date of initial recognition; non monetary items in a foreign currency that are measured at fair value are translated using the exchange rates at the date when the fair value was determined.

Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the year end translation of monetary assets and liabilities denominated in foreign currencies are recognised in the Income statement, except when deferred in equity as gains or losses from qualifying cash flow hedging instruments or qualifying net investment hedging instruments.

All foreign exchange gains and losses recognised in the Income statement are presented net in the Income statement within the corresponding item. Foreign exchange gains and losses on other comprehensive income items are presented in other comprehensive income within the corresponding item.

In the case of changes in the fair value of monetary assets denominated in foreign currency classified as available for sale, a distinction is made between translation differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in the amortised cost are recognised in profit or loss, and other changes in the carrying amount, except impairment, are recognised in equity.

(iii) Group Entities

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses for each Income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions);
- All resulting exchange differences are recognised in other comprehensive income.

Exchange differences arising from the above process are reported in shareholders' equity as 'Foreign currency translation reserve'.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are taken to 'Other comprehensive income'. When a foreign operation is disposed of, or partially disposed of, such exchange differences are recognised in the consolidated income statement as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(c) Interest

Interest income and expense for all interest-earning and interest-bearing financial instruments are recognised in the income statement within "interest income" and "interest expense" using the effective interest method.

The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, the next re-pricing date) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial instruments but not future credit losses.

The calculation of the effective interest rate includes contractual fees paid or received, transaction costs, and discounts or premiums that are an integral part of the effective interest rate.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Interest income and expense presented in the Income statement include:

- Interest on financial assets and liabilities measured at amortised cost calculated on an

effective interest rate basis.

- Interest on financial assets measured at fair value through profit or loss calculated on an effective interest rate basis.
- Interest on financial assets measured at fair value through OCI calculated on an effective interest rate basis.

(d) Fees and commission

Fees and Commission that are integral to the effective interest rate on a financial asset are included in the measurement of the effective interest rate. Fees, such as processing and management fees charged for assessing the financial position of the borrower, evaluating and reviewing guarantee, collateral and other security, negotiation of instruments' terms, preparing and processing documentation and finalising the transaction are an integral part of the effective interest rate on a financial asset or liability and are included in the measurement of the effective interest rate of financial assets or liabilities.

Other fees and commissions which relates mainly to transaction and service fees, including loan account structuring and service fees, investment management and other fiduciary activity fees, sales commission, placement line fees, syndication fees and guarantee issuance fees are recognised as the related services are provided / performed.

(e) Net trading income

Net trading income comprises gains less losses related to trading assets and liabilities, and it includes all fair value changes, dividends and foreign exchange differences.

(f) Net income from other financial instruments at fair value through profit or loss

Net income from other financial instruments at fair value through profit or loss relates to derivatives held for risk management purposes that do not form part of qualifying hedge relationships.

Fair value changes on other derivatives held for risk management purposes, and other financial assets and liabilities carried at fair value through profit or loss, are presented in Other operating income – Mark to market gain/(loss) on trading investments in the Income statement.

(g) Dividend income

Dividend income is recognised when the right to receive income is established. Dividends on trading equities are reflected as a component of net trading income. Dividend income on long term equity investments is recognised as a component of other operating income.

(h) Leases

Leases are accounted for in accordance with IAS 17 and IFRIC 4. They are divided into finance leases and operating leases.

(a) The Group is the lessee

(i) Operating lease

Leases in which a significant portion of the risks and rewards of ownership are retained by

another party, the lessor, are classified as operating leases. Payments, including prepayments, made under operating leases (net of any incentives received from the lessor) are charged to the income statements on a straight-line basis over the period of the lease. When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

(ii) Finance lease

Leases, where the Group has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the outstanding balance of the finance lease.

The corresponding rental obligations, net of finance charges, are included in other liabilities. The interest element of the finance cost is charged to the Income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Investment properties acquired under finance lease are measured subsequently at their fair value.

(b) The Group is the lessor

When assets are leased to a third party under finance lease terms, the present value of the lease income is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income. Lease income is recognised over the term of the lease using the net investment method (before tax), which reflects a constant periodic rate of return.

(i) Income Tax

(a) Current income tax

Income tax payable is calculated on the basis of the applicable tax law in the respective jurisdiction and it consists of Company Income Tax, Education tax and NITDEF tax.

Company Income tax is assessed at a statutory rate of 30% of total profit. Education tax is computed as 2% of assessable profit while NITDEF tax is a 1% levy on Profit before tax of the Bank.

Current income tax is recognised as an expense for the period except to the extent that current tax is related to items that are charged or credited in other comprehensive income or directly to equity. In these circumstances, deferred tax is charged or credit to other comprehensive income or to equity (for example, current tax on available-for-sale investment).

Where the Group has tax losses that can be relieved only by carrying it forward against taxable profits of future periods, a deductible temporary difference arises. Those losses carried forward are set off against deferred tax liabilities carried in the consolidated statement of financial position.

The Group evaluates positions stated in tax returns; ensuring information disclosed are in agreement with the underlying tax liability, which has been adequately provided for in the

financial statements.

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

However, the deferred income tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that they will not reverse in the foreseeable future; and
- temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised when it is probable that future taxable profit will be available against which these temporary differences can be utilised. The tax effects of carry-forwards of unused losses or unused tax credits are recognised as an asset when it is probable that future taxable profits will be available against which these losses can be utilised. Deferred tax related to fair value re-measurement of available-for-sale investments and cash flow hedges, which are recognised in other comprehensive income, is also recognised in the other comprehensive income and subsequently in the income statement together with the deferred gain or loss.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities against current tax assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

(j) Financial assets and liabilities

(i) Recognition

The Group initially recognises loans and advances, Deposits, Debt securities issued and Subordinated liabilities on the date that the Bank becomes a party to the contract. All other financial assets and liabilities (including assets and liabilities designated at fair value through profit or loss) are initially recognised on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

(ii) Classification

The classification of financial instruments depends on the purpose and management's intention for which the financial instruments were acquired and their characteristics. The Group's classification of financial assets and liabilities are in accordance with IAS 39, viz:

a) Loans and Receivables

The group's loans and receivable comprises loans and advances, cash and cash equivalent and other receivables.

Loans and advances are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Group does not intend to sell immediately or in the near term.

When the Group is the lessor in a lease agreement that transfers substantially all of the risks and rewards incidental to ownership of an asset to the lessee, the arrangement is classified as a finance lease and a receivable equal to the net investment in the lease is recognised and presented within loans and advances.

When the Group purchases a financial asset and simultaneously enters into an agreement to resell the asset (or a substantially similar asset) at a fixed price on a future date ("reverse repo or stock borrowing"), the arrangement is accounted for as a loan or advance, and the underlying asset is not recognised in the Group's financial statements.

Cash and cash equivalents include notes and coins on hand, Unrestricted balances held with central banks, Balances held with other banks, Money market placements and highly liquid financial assets with original maturities of less than three months, which are subject to insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments. Cash and cash equivalents are carried at amortised cost in the Statements of financial position.

b) Available-for-sale investments

Available-for-sale investments are non-derivative investments that are not designated as another category of financial assets. Unquoted equity securities whose fair value cannot be reliably measured are carried at cost. All other available-for-sale investments are carried at fair value (see note J (iii)).

Interest income is recognised in profit or loss using the effective interest method. Dividend income is recognised in profit or loss when the Group becomes entitled to the dividend. Foreign exchange gains or losses on available-for-sale debt security investments are recognised in profit or loss.

Other fair value changes are recognised directly in other comprehensive income until the investment is sold or impaired whereupon the cumulative gains and losses previously recognised in other comprehensive income are recognised in profit or loss as a reclassification adjustment.

A non-derivative financial asset may be reclassified from the available-for-sale category to the loans and receivable category if it otherwise would have met the definition of loans and receivables and if the Group has the intention and ability to hold that financial asset for the foreseeable future or until maturity.

c) Held-to-maturity

Held-to-maturity investments are non-derivative assets with fixed or determinable payments and fixed maturity that the Group has the positive intent and ability to hold to maturity, and which are not designated at fair value through profit or loss or available-for-sale.

Held-to-maturity investments are carried at amortised cost using the effective interest method. A sale or reclassification of a significant amount of held-to-maturity investments would result in the reclassification of all held-to-maturity investments as available-for-sale, and prevent the Group from classifying investment securities as held-to-maturity for the current and the following two financial years. However, sales and reclassifications in any of the following circumstances would not trigger a reclassification:

- Sales or reclassifications that are so close to maturity that changes in the market rate of interest would not have a significant effect on the financial asset's fair value.
- Sales or reclassifications after the Group have collected substantially all the asset's original Principal.
- Sales or reclassification attributable to non-recurring isolated events beyond the Group's control that could not have been reasonably anticipated.

d) Financial assets and liabilities at fair value through profit or loss

This category comprises two sub-categories: financial assets and liabilities classified as held for trading, and financial assets designated by the Group as at fair value through profit or loss upon initial recognition.

Financial liabilities for which the fair value option is applied are recognised in the Statements of financial position as 'Financial liabilities designated at fair value'. Fair value changes relating to financial liabilities designated at fair value through profit or loss are recognised in 'Net gains/(losses) on financial instruments designated at fair value through profit or loss'.

- Financial assets and liabilities classified as held for trading

Trading assets and liabilities are those assets and liabilities that the Group acquires or incurs principally for the purpose of selling or repurchasing in the near term, or holds as part of a portfolio that is managed together for short-term profit.

Trading assets and liabilities (including derivatives other than those designated as hedging instruments) are initially recognised and subsequently measured at fair value in the statement of financial position with transaction costs recognised in profit or loss. All changes in fair value are recognised as part of net trading income in profit or loss.

- Designation at fair value through profit or loss

The Group designates certain financial assets upon initial recognition as at fair value through profit or loss (fair value option). This designation cannot subsequently be changed. According to IAS 39, the fair value option is only applied when the following conditions are met:

- the application of the fair value option reduces or eliminates an accounting mismatch that would otherwise arise or
- the financial assets are part of a portfolio of financial instruments which is risk managed and reported to senior management on a fair value basis or
- the financial assets consists of debt host and an embedded derivative that must be separated.

To reduce accounting mismatch, the fair value option is applied to certain loans and receivables that are hedged with credit derivatives or interest rate swaps but for which the hedge accounting conditions of IAS 39 are not fulfilled. The loans would have been otherwise accounted for at amortised cost, whereas the derivatives are measured at fair value through profit or loss.

The fair value option is also applied to investment funds that are part of a portfolio managed on a fair value basis. Furthermore, the fair value option is applied to structured instruments that include embedded derivatives.

Financial assets for which the fair value option is applied are recognised in the Statements of financial position as 'Financial assets held for trading' and 'Derivative financial assets'. Fair value changes relating to financial assets designated at fair value through profit or loss are recognised in 'Net gains/(losses) on financial instruments classified as held for trading'.

(iii) Measurement

All financial instruments are measured initially at their fair value plus transaction costs, except in the case of financial assets and financial liabilities recorded at fair value through profit or loss where transaction cost are expensed in the income statement.

Financial assets at fair value through profit and loss are subsequently measured at fair value. Held to maturity financial assets and Loans and receivables are subsequently measured at amortised cost using the effective interest rate. Available for sale financial assets are subsequently measured at fair value through equity except where the fair value cannot be reliably measured.

Non-trade financial liabilities are measured at amortised cost. Liabilities held for trading are measured at fair value. Subsequent recognition of financial assets and liabilities is at amortised cost or fair value.

Changes in the fair value of monetary and non monetary securities classified as available-for-sale are recognised in their comprehensive income (OCI). When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognized in equity are included in the income statements as "gains or losses from investment securities".

a) Amortised cost measurement

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

b) Fair value measurement

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

For financial instruments traded in active markets, the determination of fair values of financial assets and financial liabilities is based on quoted market prices or dealer price quotations. This includes listed equity securities and quoted debt instruments on major exchanges (for example, NSE, LSE) and broker quotes from Bloomberg and Reuters.

A financial instrument is regarded as quoted in an active market if it is traded in a market with sufficient frequency and volume to provide pricing information on an ongoing basis on the instrument. Otherwise, the market is to be regarded as inactive.

For financial instruments with no readily available quoted market price, fair value is determined using valuation techniques. In these techniques, fair values are estimated from observable data in respect of similar financial instruments, using models to estimate the present value of expected future cash flows or other valuation techniques, using inputs (for example, NIBOR, LIBOR yield curve, FX rates, volatilities and counterparty spreads) existing at the end of the reporting period.

The Group uses widely recognised valuation models for determining fair values of non-standardised financial instruments of lower complexity, such as options or interest rate and currency swaps. For these financial instruments, inputs into models are generally market-observable.

For more complex instruments, the Group uses internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value derivatives transacted in the over-the-counter market, unlisted debt securities (including those with embedded derivatives) and other debt instruments for which markets were or have become illiquid. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

In cases when the fair value of unlisted equity instruments cannot be determined reliably, the instruments are carried at cost less impairment. For the purpose of disclosure, the fair value for loans and advances as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs.

(iv) Offsetting

Financial assets and liabilities are set off and the net amount presented in the statements of financial position when, and only when, the Group has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRSs, or for gains and losses arising from a group of similar transactions such as in the Group's trading activity.

(v) De-recognition

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss.

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset. Any interest in such transferred financial asset that qualify for derecognition that is created or retained by the Group is recognized as a separate asset or liability.

In certain transactions the Group retains the obligations to service the transferred financial asset for a fee. The transferred asset is derecognized if it meets the derecognition criteria. An asset or liability is recognized for the servicing contract, depending on whether the servicing fee is more than adequate (asset) or is less than adequate (liability) for performing the servicing.

The Group enters into transactions whereby it transfers assets recognized on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognized. Transfers of assets with retention of all or substantially all risks and rewards include, for example, securities lending and repurchase transactions.

When assets are sold to a third party with a concurrent total rate of return swap on the transferred assets, the transaction is accounted for as a secured financing transaction similar to repurchase transactions as the Group retains all or substantially all the risks and rewards of ownership of such assets.

In transactions in which the Group neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset and it retains control over the asset, the Group continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

Derecognition of a financial liability occurs only when the obligation is extinguished. A financial liability is said to be extinguished when the obligation is discharged, cancelled or expired.

(vi) Pledge of assets as collateral

Financial assets transferred to external parties that do not qualify for de-recognition (see J(v)) are reclassified in the statement of financial position from investment securities to assets pledged as

collateral, if the transferee has received the right to sell or re-pledge them in the event of default from agreed terms.

Initial recognition of assets pledged as collateral is at fair value, whilst subsequent measurement is based on the classification of the financial asset. Assets pledged as collateral are either designated as available for sale or held to maturity. Where the assets pledged as collateral are designated as available for sale, subsequent measurement is at fair-value through equity. Assets pledged as collateral designated as held to maturity are measured at amortized cost.

(vii) Sale and repurchase agreements

Securities sold under repurchase agreements ('repos') remain on the statements of financial position; the counterparty liability is included in amounts due to other banks, deposits from banks, other deposits or deposits due to customers, as appropriate. Securities purchased under agreements to resell (reverse repos') are recorded as money market placement. The difference between sale and repurchase price is treated as interest and accrued over the life of the agreements using the effective interest method.

Securities lent to counterparties are also retained in the financial statements. Securities borrowed are not recognised in the financial statements, unless these are sold to third parties, in which case the purchase and sale are recorded with the gain or loss included in trading income.

(viii) Identification and measurement of impairment

(a) Assets carried at amortised cost

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- (i) significant financial difficulty of the issuer or obligor;
- (ii) a breach of contract, such as a default or delinquency in interest or principal payments;
- (iii) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- (iv) it becomes probable that the borrower will enter bankruptcy or other financial re-organisation;
- (v) the disappearance of an active market for that financial asset because of financial difficulties; or
- (vi) observable data indicating that there is a measurable decrease in the estimated future cash

flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:

- (i) adverse changes in the payment status of borrowers in the portfolio; and
- (ii) national economic conditions that correlate with defaults on the assets in the portfolio.

The estimated period between a loss occurring and its identification is determined by local management for each identified portfolio. In general, the periods used vary between three months and 12 months.

The Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the Income statement. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purposes of a collective evaluation of impairment, financial assets are grouped on the basis of similar credit risk characteristics (that is, on the basis of the Group's grading process that considers asset type, industry, geographical location, collateral type, past-due status and other relevant factors). Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the Group and historical loss experience for assets with credit risk characteristics similar to those in the Group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not currently exist.

Estimates of changes in future cash flows for groups of assets should reflect and be directionally

consistent with changes in related observable data from period to period (for example, changes in unemployment rates, property prices, payment status, or other factors indicative of changes in the probability of losses in the Group and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any differences between loss estimates and actual loss experience.

When a loan is uncollectible, it is written off against the related allowance for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Impairment charges relating to loans and advances to banks and customers are classified in loan impairment charges whilst impairment charges relating to investment securities (held to maturity category) are classified in 'Net gains/ (losses) on investment securities'.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the Income statement.

(b) Assets classified as available for sale

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is objective evidence of impairment resulting in the recognition of an impairment loss. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in the Income statement. Impairment losses recognised in the Income statement on equity instruments are not reversed through the Income statement. If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through the Income statement.

Assets classified as available for sale are assessed for impairment in the same manner as assets carried at amortised cost.

(k) Investment securities

Investment securities are initially measured at fair value plus, in case of investment securities not at fair value through profit or loss, incremental direct transaction costs and subsequently accounted for depending on their classification as either held for trading, held-to-maturity, fair value through profit or loss or available-for-sale. See description in accounting policy Note J (ii) above

(l) Derivatives held for risk management purposes

Derivatives held for risk management purposes include all derivative assets and liabilities that are not classified as trading assets or liabilities. Derivatives are recognised initially at fair value; attributable transaction costs are recognised in profit or loss when incurred.

Subsequent to initial recognition, derivatives are measured at fair value with changes in fair value recognised in profit or loss.

(m) Investment in subsidiaries

Investments in subsidiaries are reported at cost less any impairment (if any) in the separate financial statement of the Bank.

(n) Property and equipment

(i) Recognition and measurement

The bank recognizes items of property, plant and equipment at the time the cost is incurred. These costs include costs incurred initially to acquire or construct an item of property, plant and equipment as well as the costs of its dismantlement, removal or restoration, the obligation for which an entity incurs as a consequence of using the item during a particular period.

Items of property and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. When parts of an item of property or equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

The assets' carrying values and useful lives are reviewed, and written down if appropriate, at each reporting date. Assets are impaired whenever events or changes in circumstances indicate that the carrying amount is less than the recoverable amount; see note (p) on impairment of non-financial assets.

(ii) Subsequent costs

The cost of replacing part of an item of property or equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property and equipment are recognised in the income statement as incurred.

(iii) Depreciation

Depreciation is recognised in the income statement on a straight-line basis to write down the cost of each asset, to their residual values over the estimated useful lives of each part of an item of property and equipment. Leased assets under finance lease are depreciated over the shorter of the lease term and their useful lives.

Depreciation begins when an asset is available for use and ceases at the earlier of the date that the asset is derecognised or classified as held for sale in accordance with IFRS 5. A non-current asset or disposal group is not depreciated while it is classified as held for sale.

The estimated useful lives for the current and comparative periods are as follows:

Item of Property, Plant and Equipment	Estimated Useful Life
Leasehold improvements	Over the shorter of the useful life of the item or lease term
Buildings	50 years
Leasehold Land	Over the remaining life of the lease
Furniture and equipment	5years
Computer hardware	3years
Motor vehicles	4years
Other transportation equipment	10years

Capital work in progress is not depreciated. Upon completion it is transferred to the relevant asset category. Depreciation methods, useful lives and residual values are reassessed at each reporting date.

Cost of leasehold land is amortised over the remaining life of the lease as stated in the certificate of occupancy issued by Government.

(iv) De-recognition

An item of property and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is derecognised.

(o) Intangible assets

(i) Goodwill

Goodwill represents the excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquired subsidiaries at the date of acquisition. When the excess is negative, it is recognised immediately in profit or loss; Goodwill on acquisition of subsidiaries is included in intangible assets.

Subsequent measurement

Goodwill is allocated to cash-generating units or groups of cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose identified in accordance with IFRS 8. Goodwill is tested annually as well as whenever a trigger event has been observed for impairment by comparing the present value of the expected future cash flows from a cash generating unit with the carrying value of its net assets, including attributable goodwill and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

(ii) Software

Software acquired by the Group is stated at cost less accumulated amortisation and accumulated impairment losses.

Expenditure on internally developed software is recognised as an asset when the Group is able to demonstrate its intention and ability to complete the development and use the software in a manner that will generate future economic benefits, and can reliably measure the costs to complete the development. Development costs previously expensed cannot be capitalised. The capitalised costs of internally developed software include all costs directly attributable to developing the software and capitalised borrowing costs, and are amortised over its useful life. Internally developed software is stated at capitalised cost less accumulated amortisation and impairment.

Subsequent expenditure on software assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful life of the software, from the date that it is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The maximum useful life of software is five years.

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(p) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, inclusive of deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite useful lives or that are available for use, the recoverable amount is estimated each year.

An impairment loss is recognised in the income statement if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a *pro rata* basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount only to

the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(q) Deposits, debt securities issued

Deposits and debt securities issued are the Group's sources of debt funding. When the Group sells a financial asset and simultaneously enters into a "repo" or "stock lending" agreement to repurchase the asset (or a similar asset) at a fixed price on a future date, the arrangement is accounted for as a deposit, and the underlying asset continues to be recognised in the Group's financial statements.

The Group classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

Deposits and debt securities issued are initially measured at fair value plus transaction costs, and subsequently measured at their amortised cost using the effective interest method, except where the Group chooses to carry the liabilities at fair value through profit or loss.

(r) Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A provision for restructuring is recognised when the Group has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. The Group recognizes no provision for future operating losses.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

(s) Financial guarantees

Financial guarantees are contracts that require the Group to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. Financial guarantee liabilities are initially recognised at their fair value, and the initial fair value is amortised over the life of the financial guarantee. The guarantee liability is subsequently carried at the higher of this amortised amount and the present value of any expected payment (when a payment under the guarantee has become probable). Financial guarantees, principally consisting of letters of credit are included within other liabilities.

(t) Employee benefits**(i) Defined contribution plans**

A defined contribution plan is a pension plan under which the Group pays fixed contributions to a separate entity. The rate of contribution by the Bank and its employee is 10% and 8% respectively of basic salary, housing and transport allowance. The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

For defined contribution plans, the Group pays contributions to publicly or privately administered pension fund administrators (PFA) on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense in the Statements of Comprehensive Income when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(ii) Defined benefit plans

A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors, such as age, years of service and compensation.

The liability recognised in the Statements of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the date of the Statements of financial position less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. In determining the appropriate discount rate, the Group considers the market yields on Government Bonds of medium duration as compiled by the Debt Management Organisation.

Remeasurements arising from experience adjustments and changes in actuarial assumptions in excess of the plan assets or of the defined benefit obligation are charged or credited to Other Comprehensive Income in the financial year in which they arise. Past-service costs are recognised immediately in the Income statement.

(iii) Termination Benefits

Termination benefits are recognised as an expense when the Group is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to terminate employment before the normal retirement date. Termination benefits for voluntary redundancies are recognised if the Group has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

(iv) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(v) Share-based payment transactions

The Bank operates a cash-settled share based compensation plan (i.e. share appreciation rights - SARs) for its management personnel. The management personnel are entitled to the share appreciation rights at a pre-determined price, usually market price, after spending ten years in the Bank.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense, with a corresponding increase in liabilities, over the period in which the employees become unconditionally entitled to payment. The liability is re-measured at each reporting date and at settlement date. Any changes in the fair value of the liability are recognized as personnel expense in profit or loss.

(u) Discontinued operations

The Group presents discontinued operations in a separate line in the Income statement if an entity or a component of an entity has been disposed of or is classified as held for sale and:

- (a) Represents a separate major line of business or geographical area of operations;
- (b) Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- (c) Is a subsidiary acquired exclusively with a view to resale

Net profit from discontinued operations includes the net total of operating profit and loss before tax from operations, including net gain or loss on sale before tax or measurement to fair value less costs to sell and discontinued operations tax expense. A component of an entity comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, from the rest of the Group's operations and cash flows. If an entity or a component of an entity is classified as a discontinued operation, the Group restates prior periods in the Income statement.

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell. Non-current assets are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition, subject to terms that are usual and customary for sales of such assets.

(v) Assets acquired in exchange for loans

Non-financial assets acquired in exchange for loans as part of an orderly realisation are recorded as assets held for sale and reported in 'Other assets' if the carrying amounts of the assets are recovered principally through sale, the assets are available for sale in their present condition and their sale is highly probable.

The asset acquired is recorded at the lower of its fair value less costs to sell and the carrying amount of the loan (net of impairment allowance) at the date of exchange. No depreciation is charged in respect of assets held for sale. Any subsequent write-down of the acquired asset to fair value less costs to sell is recognised in the income statement, in 'Other operating income'. Any subsequent increase in the fair value less costs to sell, to the extent this does not exceed the cumulative write-down, is also recognised in 'Other operating income', together with any realised gains or losses on disposal.

(w) Share capital and reserves**(i) Share issue costs**

Incremental costs directly attributable to the issue of an equity instrument are deducted from the initial measurement of the equity instrument.

(ii) Dividend on the Bank's ordinary shares

Dividends on the Bank's ordinary shares are recognised in equity when approved by the Bank's shareholders.

(iii) Treasury shares

Where the Bank or any member of the Group purchases the Bank's shares, the consideration paid is deducted from shareholders' equity as treasury shares until they are cancelled. Where such shares are subsequently sold or reissued, any consideration received is included in shareholders' equity.

(x) Earnings per share

The Group presents Basic Earnings Per Share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is determined by adjusting the profit or loss that is attributable to ordinary shareholders and the weighted-average number of ordinary shares outstanding for effects of all dilutive potential ordinary shares.

(y) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it can earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, whose operating results are reviewed regularly by the Executive Management Committee to make decisions about resources allocated to each segment and assess its performance, and for which discrete financial information is available. All costs that are directly traceable to the operating segments are allocated to the segment concerned, while indirect cost are allocated based on the benefits derived from such costs.

4. Financial risk management

(a) Introduction and overview

Guaranty Trust Bank has a strong risk culture and follows best practice enterprisewide risk management, which aligns strategy, policies, people, processes, technology and business intelligence in order to evaluate, manage and optimize the opportunities and threats it may face in its efforts to maximize sustainable stakeholders' value within the defined risk appetite.

To continually sustain this strong risk culture, the bank adopted the COSO definition of Enterprise Risk Management which depicts ERM as a process driven by an entity's board of directors, management and other personnel, applied in strategy setting and across the enterprise, to identify potential events that may affect the entity, and manage risk to be within its risk appetite, to provide reasonable assurance regarding the achievement of the entity's objectives.

This involves the application of risk management principles and processes in every business activity to determine potential threats, and adopt appropriate control measures, to contain risks with the aim of achieving its objectives.

The Bank has recognised its major risk areas as Credit, Operational, Information Technology, Market and Liquidity Risks. Risk identification these areas is carried out by the relevant risk owners, in collaboration with the ERM Division.

(b) Risk Management Philosophy

GTBank's Risk Management Philosophy describes its attitude to risk taking. It is the driving force behind its officers' behavior in the conduct of business activities and operations from a risk perspective. This is summarized in the statement:

“To enhance shareholders' value by creating and maintaining a culture of intelligent risk-taking”.

This philosophy is further cascaded into working statements via the following risk principles:

- The Bank's decisions will be based on careful analysis of its operating environment as well as the implications of risks to the achievement of its strategic goals.
- The Bank will not take any action that will compromise its integrity
- Risk control will not constitute an impediment to the achievement of strategic objectives.
- The Bank will always comply with all government regulations and embrace global best practice.
- Risk management will form an integral part of the Bank's strategy setting process
- The Bank will only assume risks that fall within its risk appetite with commensurate returns.
- The Bank shall adhere to the risk management cycle of identifying, measuring, controlling and reporting risks.
- The Bank shall continually review its activities to determine the level of risks inherent in them and adopt appropriate risk responses at all time.

Risk Appetite

The bank recognises that there are risk elements associated with the pursuit of growth opportunities to achieve its strategic objectives. While its risk philosophy articulates how inherent risks are considered when making decisions, the Board and management of the bank determine the risks that are acceptable based on its capabilities in terms of capital, technology and people.

Risk Appetite Statement

“Guaranty Trust Bank maintains a moderate risk appetite in pursuit of its core strategies to dominate its priority sectors, expand its franchise on Africa continent, contain its operating cost whilst leveraging on technology and remain the most profitable, without taking unnecessary risks.”

The bank’s risk appetite statement expresses the opinion of the Board and Management on the approach to risk that will be adopted across all business levels, in relation to the Bank’s set strategic objectives. This statement is interpreted in both quantitative and qualitative risk factors that measure the bank’s risk profile at any time. These risk factors include: Adequacy

- Earnings growth (Profit Before Tax)
- Earnings quality (Net Interest Margin)
- Return on Asset
- Issuer Debt Rating
- Return on Equity
- Cost-to-Income
- Asset quality (Non-Performing Loan),
- Coverage
- Cost of Risk
- Liquidity
- Risk Asset Funding
- Staff Attrition

Risk Tolerance

To cascade the risk appetite statement across all business levels, the management of the bank defines the risk tolerances applicable to risk factor. The tolerances are measured via a three leg limit system which measures an extreme upper region suggesting high risk or unacceptable risk level, a middle range region known as trigger point and a lower region suggesting a low risk or acceptable risk level. This establishes the acceptable level of variation relative to the bank’s desired objective.

In setting the risk tolerances, the bank adopts the interview session approach wherein Management of the bank are questioned to ascertain their position on the degree of risk the bank is willing to take. The set risk acceptance levels are subject to the approval of the Board of Directors and can be changed at the discretion of the Board and Management, when there are compelling regulatory and operating factors.

The risk tolerance limit is monitored periodically using a dashboard which establishes the status of each risk factor at any given point in time. The results of the dashboard is made available to the Management and board of directors to enable them take appropriate decisions regarding the acceptability of the risk tolerance level.

(c) Risk Management Framework

The Group's Risk Management Framework is built on a well-defined organisational structure and established policies to guide in the function of identifying, analysing, managing and monitoring the various risks inherent in the business as well as setting appropriate risk limits and controls to align the risks with the strategic objectives.

The risk management policies are subject to review at least once a year. However more frequent reviews may be conducted at the instance of the Board, when changes in laws, regulations, market conditions or the Group's activities are material enough to impact on the continued adoption of the existing policies. The Group, through its trainings and management standards and procedures, aims to develop a disciplined and engaging and controlled environment, in which all employees understand their roles and obligations.

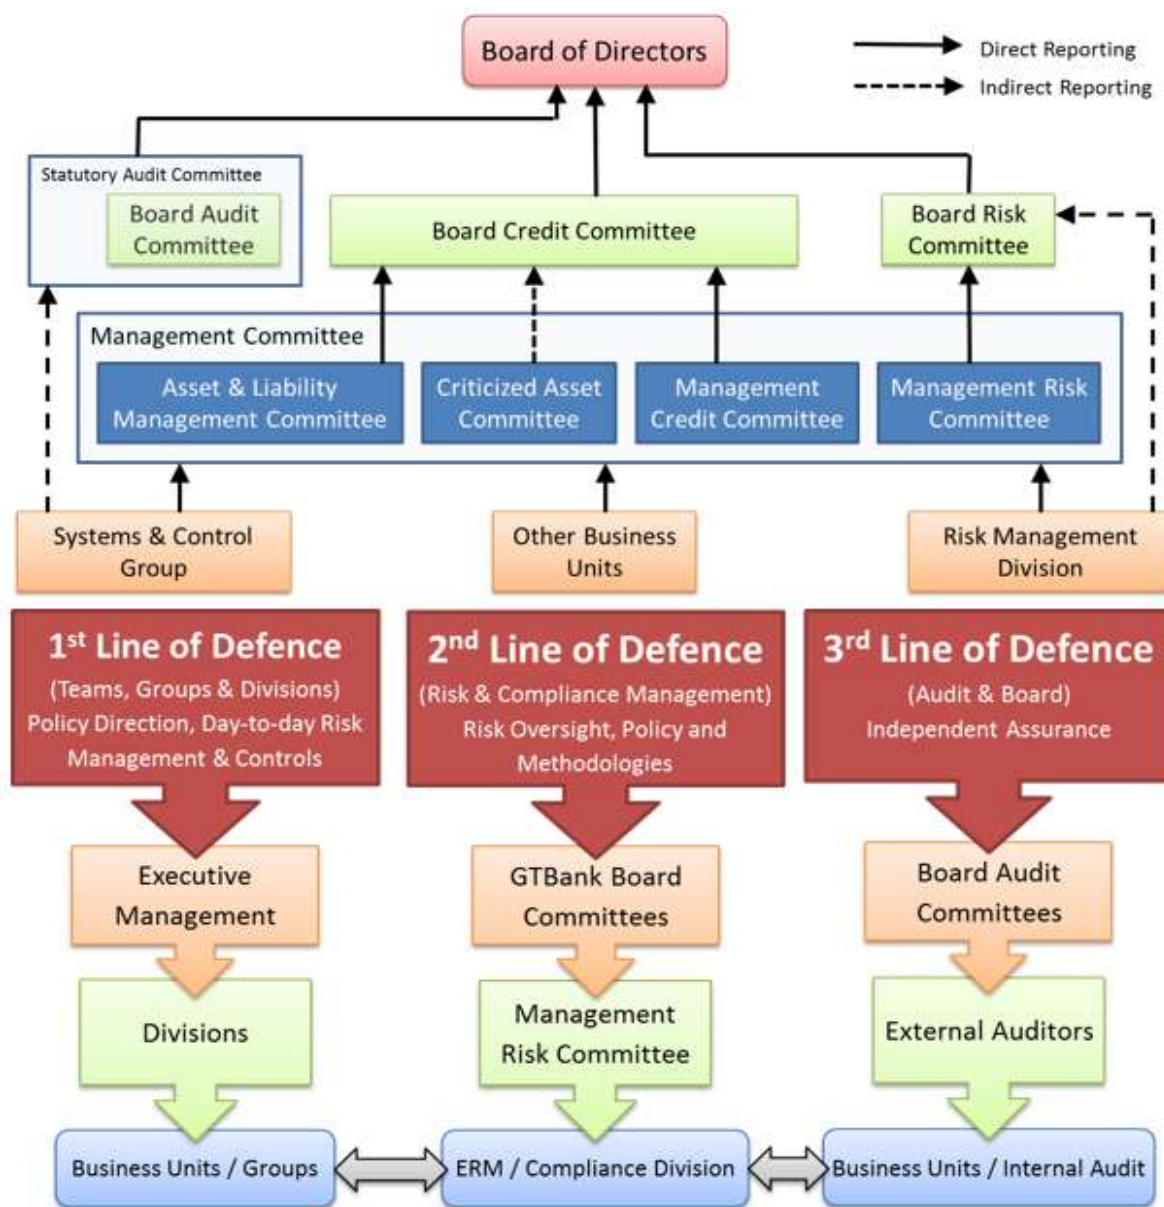

The Board of Directors has overall responsibility for the establishment of the Group's Risk Management framework and exercises its oversight function over all the Group's prevalent risks via its various committees; Board Risk Committee, Board Credit Committee, and Board Audit Committee. These committees are responsible for developing and monitoring risk policies in their specific areas and report regularly to the Board of Directors. All Board committees have both executive and non-executive members.

The Board Committees are assisted by the various Management Committees in identifying and assessing risks arising from day to day activities of the Group. These committees include:

- The Management Credit Committee
- Criticized Assets Committee
- Asset and Liability Management Committee (ALMAC)
- Management Risk Committee
- IT Steering Committee
- Other Ad-hoc Committees

These committees meet on a regular basis while others are set up on an ad-hoc basis as dictated by circumstances.

The Risk Governance Structure of the Group

The three lines of defence model differentiated among the three groups involved in effective risk management include:

- Functions that own and manage risks.
- Functions that oversee risks.
- Functions that provide independent assurance.

FIRST LINE OF DEFENSE: Owns and manage the risks. They are responsible for implementing corrective actions to address process and control deficiencies; maintaining effective internal controls and executing risk and control procedures on a day-to-day basis. They also identify, assess, control and mitigate risks to ensure the achievement of set goals and objectives.

SECOND LINE OF DEFENSE: Established to perform a policy-setting and monitoring role. It is a risk management function (and/or committee) that facilitates and monitors the implementation of effective risk management practices and a compliance function that monitors various specific risks such as non-compliance with applicable laws and regulations. Other functions include identifying known and emerging issues, providing risk management framework, assisting management in developing processes and controls to manage risks, monitoring the adequacy and effectiveness of internal control, accuracy and completeness of reporting and timely remediation of deficiencies.

THIRD LINE OF DEFENSE: Provides objective assurance on the effectiveness of governance, risk management and internal controls. The scope of the assurance, which is reported to senior management and Board covers a broad range of objectives, including efficiency and effectiveness of operations, safeguarding of assets, reliability and integrity of reporting processes, and compliance with laws, regulations, policies, procedures and contracts. It also includes all elements of the risk management and internal control framework.

The Board **Risk Committee** is responsible for reviewing and recommending risk management policies, procedures and profiles including risk philosophy, risk appetite and risk tolerance of the Group. The oversight functions cut across all risk areas including credit risk, market and interest rate risk, liquidity risk, operational risk, reputation risk, technology risk and other major risks that may arise from time to time. The committee monitors the Group's plans and progress towards meeting regulatory Risk-Based Supervision requirements including Basel II compliance as well as the overall Regulatory and Economic Capital Adequacy. It also reviews and approves the contingency plan for specific risks and ensures that all members of the Group are fully aware of the risks involved in their functions.

The Group's **Board Audit Committee** is responsible for monitoring compliance with the risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to risks faced by the Group. The Audit Committee is assisted by the Internal Audit group, in carrying out these functions. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

The Group's Board of Directors has delegated responsibility for the management of credit risk to the **Board Credit Committee**. The Board Credit Committee considers and approves all lending exposures, including treasury investment exposures, as well as insider-related credits in excess of limits assigned to the Management Credit Committee by the Board. The committee also ensures that the Bank's internal control procedures in the area of risk assets remain fool proof to safeguard the quality of the Bank's risk assets.

Management Risk Committee examines risk in its entirety by reviewing and analysing environmental issues and policies impacting the Group, either directly or remotely, and make recommendations to the Board Risk Committee.

Management Credit Committee formulates credit policies in consultation with business units, covering credit assessment, risk grading and reporting, collateral, regulatory and statutory requirements. The committee also assesses and approves all credit exposures in excess of the Managing Director's limit set by the Board.

The **Asset & Liability Management Committee** establishes the Group's standards and policies covering the various components of Market Risk Management. These include Interest Rate Risk, Liquidity Risk, Investment Risk and Trading Risk. It ensures that the authority delegated by the Board and Management Risk Committees with regard to Market Risk is exercised, and that Market Risk exposures are monitored and managed. Furthermore, the Committee limits and monitors the potential impact of specific pre-defined market movements on the comprehensive income of the Bank through stress tests and simulations.

Criticized Assets Committee is responsible for the assessment of the bank's credit risk asset portfolio. It highlights the status of the risk assets in line with the internal and external regulatory framework and ensures that triggers are sent in respect of delinquent credit risk assets. It also ensures adequate provisions are taken in line with the regulatory guidelines.

The Credit Risk Management Group is responsible for identifying, controlling, monitoring and reporting credit risk related issues. The Group also serves as the secretariat for the **Management Credit Committee**. Credit risk is the most critical risk for the Group as credit exposures, arising from lending activities account for the major portion of the Group's assets and source of its revenue. Thus, the Group ensures that credit risk related exposures are properly monitored, managed and controlled. The Credit Risk Management Group is responsible for managing the credit exposures, which arise as a result of the lending and investment activities as well other unfunded credit exposures that have default probabilities; such as contingent liabilities.

(d) Risk Management Methodology

The Group recognizes that it is in the business of managing risks to derive optimal satisfaction for all stakeholders. It has therefore, over the years detailed its approach to risk management through various policies and procedures, which include the following:

- ERM Policy
- Credit Policy Guide
- Human Resources Policy Manual
- Quality Manual
- Standard Operating Procedures
- IT Policy

To ensure adherence to the policies and procedures, several exception reports on customers and activities of the Group are generated by the various audit/control units for management's decision making. These include:

- Monthly Management Profitability Reports (MPR) for the marketing teams
- Monthly Operations Performance Reports (OPR) for the support teams
- Quarterly Business Profitability Review
- Annual Bank-wide performance appraisal systems
- Monthly Expense Control Monitoring Report
- Criticized Asset Committee Report

(e) Risk Management Overview

The Enterprise-wide Risk Management (ERM) Division is responsible for optimising the risks and returns opportunities inherent in the business. The risk management infrastructure encompasses a comprehensive and integrated approach to identifying, managing, monitoring and reporting risks with focus on the following:

- (i) the 5 main inherent risk groups – Credit, Market, Operational, Liquidity and Technology.
- (ii) additional risk areas such as Reputation and Strategy risks

In compliance with the Central Bank of Nigeria’s ‘Risk-based Supervision’ guidelines, best global practices, and to align with Basel II Capital requirements, the Group incorporated a strategic framework for efficient measurement and management of the bank’s risks and capital. The Group has implemented Basel II recommended capital measurement approaches for the estimate of the bank’s economic capital required to cope with unexpected losses using Oracle Financial Services Analytical Applications. The Group has also put in place other qualitative and quantitative measures that will assist with enhancing risk management processes and creating a platform for more risk-adjusted decision-making.

(f) Credit risk

Lending and other financial activities form the core business of the Group. The Group recognises this and has laid great emphasis on effective management of its exposure to credit risk. The Group defines credit risk as the risk of counterparty’s failure to meet the terms of any lending contracts with the Group or otherwise to perform as agreed. Credit risk arises anytime the Group’s funds are extended, committed, invested or otherwise exposed through actual or implied contractual agreements.

The Group’s specific credit risk objectives, as contained in the Credit Risk Management Framework, are:

- Maintenance of an efficient loan portfolio
- Institutionalization of sound credit culture in the Bank
- Adoption of international best practices in credit risk management
- Development of Credit Risk Management professionals.

Each business unit is required to implement the credit policies and procedures in line with the the credit policy guide approved by the Board . Each business unit is responsible for the quality and performance of its credit portfolio and for monitoring and controlling all credit risks in its portfolio, including those subject to Management Credit Committee’s approval. The Internal Audit and Credit Administration units respectively undertake regular audits of business units and credit quality reviews.

The Group continues to focus attention on intrinsic and concentration risks inherent in its business in order to manage its portfolio risk. It sets portfolio concentration limits that are measured under the following parameters: concentration limits per obligor, business lines, industry, sector, rating grade and geographical area. Sector limits reflect the risk appetite of the Group.

The Group drives the credit risk management processes using appropriate technology to achieve global best practices. To comply with the CBN requirements on implementation of Basel II, especially with the computation of capital adequacy ratio and market disclosure, the Group invested in two major softwares namely: Lead to Loan

and OFSAA Basel II solution. These softwares are customised to suit the internal processes of GTBank and to interact seamlessly with the bank's core banking application

To satisfy the Basel II pillar 2 requirements, the Group came up with a comprehensive ICAAP (Internal Capital Adequacy Assessment Process) document which detailed our approach and procedures on how the bank measures its various risks and capital required. The document also spells out the capital planning process of the bank and it is updated annually.

Lead to Loan is an integrated credit solution software which handles credit customers' profiles, rating scores, documents and collateral management, credit workflow processes, disbursement, recoveries and collection. The deployment of 'Lead to Loan' has further enhanced the credit processes of the Group and guarantee data integrity towards achieving the CBN required sets of disclosures and the seamless application of Internal Rating Based – Advanced in the measurement and management of capital.

OFSAA Basel II solution is an Oracle Financial Services Analytical Application which is capable of handling the complete range of calculations covered in the Basel II Accord. It supports Risk Weighted Assets (RWA) computation for credit risk, market risk and operational risk and performs the capital computation as well as risk weighted assets aggregation for all risk areas considered. Aside from achieving Pillar 1 with OFSAA, the software is configured to process data from bank's core application and generate different required management reports for decision.

For capital adequacy computation under Basel II Pillar I, the Group has implemented the Standardized Approach for the three risk areas – credit, market & operational risk and the Advanced Internal Rating Based (AIRB) Approach using the OFSAA Basel II solution software. The advanced measurement approach for credit risk uses PD, LGD and EAD as the input parameters.

(i) Management of Credit Risk

The Board of Directors has delegated responsibility for the management of credit risk to its Board Credit Committee. The Management Credit Committee reporting to the Board Credit Committee is responsible for oversight of the Group's credit risk, including:

- Formulating credit policies in consultation with business units, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- Establishing the authorisation structure for the approval and renewal of credit facilities. Authorisation limits are allocated to business unit heads. Larger facilities require approval by the Management Credit Committee, Deputy Managing Director, Managing Director and the Board Credit Committee/Board of Directors as appropriate.
- Reviewing and assessing credit risk. Management Credit Committee assesses all credit exposures in excess of designated limits, prior to facilities being committed to customers by the business unit concerned. Renewals and reviews of facilities are subject to the same review process.
- Developing and maintaining the Group's risk grading in order to categorise exposures according to the degree of risk of financial loss faced and to focus management on the attendant risks. The

current risk grading framework consists of ten grades reflecting varying degrees of risk of default and the availability of collateral or other credit risk mitigation. The responsibility for approving the risk grades lies with the Board Credit Committee. The risk grades are subject to regular reviews by the Risk Management Group.

- Reviewing compliance of business units with agreed exposure limits, including those for selected industries, country risk and product types. Regular reports are provided to Risk Management Group on the credit quality of local portfolios and appropriate corrective action is taken.
- Providing advice, guidance and specialist skills to business units to promote best practice throughout the Group in the management of credit risk.

There were no changes in the Group's risk management policies. Each business unit is required to implement Group credit policies and procedures, with credit approval authorised by the Board Credit Committee.

(ii) Credit Risk Measurement

In line with IAS 39, the bank adopted incurred loss approach and intends to migrate to the expected loss approach outlined under IFRS 9. The incurred loss approach takes into consideration the Emergence Period (EP) to arrive at losses that have been incurred at the reporting date. To enable the bank migrate to the Internal Rating Based (IRB - Foundation approach) as well as the Expected Loss approach, the bank has developed its internal rating models.

Guaranty Trust Bank Group undertakes lending activities after careful analysis of the borrowers' character, capacity to repay, cash flow, credit history, industry and other factors. The Group acknowledges that there are diverse intrinsic risks inherent in its different business segments and, as a result, applies different parameters to adequately dimension the risks in each business segment.

The Bank's rating grades reflect the range of parameters developed to predict the default probabilities of each rating class in line with international best practices and in compliance with BASEL II requirements. The grades reflect granularities and are handled by Account Officers and Relationship Managers with further check by Credit Risk Analysis Unit in Credit Risk Management Group.

Rating Grade	Description	Characteristics
1 (AAA)	Exceptional Credit	<ul style="list-style-type: none"> • Exceptional credit quality • Obligors with overwhelming capacity to meet obligation • Top multinationals / corporations • Good track record • Strong brand name • Strong equity and assets • Strong cash flows • Full cash coverage
2 (AA)	Superior Credit	<ul style="list-style-type: none"> • Very high credit quality • Exceptionally high cash flow coverage (historical and projected) • Very strong balance sheets with high liquid assets

		<ul style="list-style-type: none"> • Excellent asset quality • Access to global capital markets • Typically large national corporate in stable industries and with significant market share
3 (A)	Minimal Risk	<ul style="list-style-type: none"> • High quality borrowers • Good asset quality and liquidity position • Strong debt repayment capacity and coverage • Very good management • Though credit fundamentals are strong, it may suffer some temporary setback if any of them are adversely affected • Typically in stable industries
4 (BBB)	Above Average	<ul style="list-style-type: none"> • Good asset quality and liquidity • Very good debt capacity but smaller margins of debt service coverage • Good management in key areas • Temporary difficulties can be overcome to meet debt obligations • Good management but depth may be an issue • Good character of owner • Typically good companies in cyclical industries
5 (BB)	Average	<ul style="list-style-type: none"> • Satisfactory asset quality and liquidity • Good debt capacity but smaller margins of debt service coverage • Reasonable management in key areas • Temporary difficulties can be overcome to meet debt obligations • Good management but depth may be an issue • Satisfactory character of owner • Typically good companies in cyclical industries
6 (B)	Acceptable Risk	<ul style="list-style-type: none"> • Limited debt capacity and modest debt service coverage • Could be currently performing but susceptible to poor industry conditions and operational difficulties • Declining collateral quality • Management and owners are good or passable • Typically borrowers in declining markets or with small market share and operating in cyclical industries
7 (CCC)	Watch-list	<ul style="list-style-type: none"> • Eliciting signs of deterioration as a result of well defined weaknesses that may impair repayment • Typically start-ups / declining markets/deteriorating industries with high industry risk • Financial fundamentals below average • Weak management • Poor information disclosure
8 (CC)	Substandard Risk	<ul style="list-style-type: none"> • Well-defined weaknesses though significant loss unlikely; orderly liquidation of debt under threat • Continued strength is on collateral or residual repayment capacity of obligor

		<ul style="list-style-type: none"> • Partial losses of principal and interest possible if weaknesses are not promptly rectified • Questionable management skills
9 (C)	Doubtful Risk	<ul style="list-style-type: none"> • High probability of partial loss • Very weak credit fundamentals which make full debt repayment in serious doubt • Factors exist that may mitigate the potential loss but awaiting appropriate time to determine final status • Demonstrable management weaknesses, poor repayment weaknesses and poor repayment profile
10 (D)	Lost	<ul style="list-style-type: none"> • A definite loss of principal and interest • Lack of capacity to repay unsecured debt • Bleak economic prospects • Though it is still possible to recover sometime in the future, it is imprudent to defer write - offs

The Group uses internally developed models to estimate the amount of credit exposures, using the value of a product relative to changes in market variables, expected cash flows and time. The assessment of credit risk of a portfolio of assets entails further estimations of likelihood of defaults occurring, the associated loss ratios and default correlations between parties.

Risk Ratings and Credit scoring models are in use for all key credit portfolios and form the basis for measuring default risks.

In measuring credit risk of loans and advances at a counterparty level, the Group considers four components:

- (1) The 'Probability of Default' (PD),
- (2) Exposures to the counterparty and its likely future development, from which the Group derive the 'exposure at default' (EAD),
- (3) The likely recovery ratio on the defaulted obligations, the 'Loss Given Default' (LGD); and
- (4) The Emergence Period (EP) which is the time it takes from the date a loss event occurred to the date the entity identifies it has occurred

The models are reviewed regularly to monitor their predictive capacity relative to actual risk assets performance and amended as necessary to optimise their effectiveness.

(1) Probability of Default (PD)

The Group assesses the probability of default of individual counterparties using internal rating tools tailored to the various categories of counterparty. The tools have been developed internally using rigorous statistical analysis and the professional judgement of credit officer.

The rating tool combines both qualitative and quantitative factors to arrive at a rating which is comparable to internationally available standards. The rating methods are subject to an annual validation and recalibration to ensure that they reflect the latest projection in the light of all actually observed defaults.

(2) Exposure at Default (EAD)

EAD is the amount the Group is owed at the time of default or at a reporting date. For a loan, this is the face value (principal plus interest) as at a particular reporting date. For a commitment, the Group includes any amount already drawn plus the further amount that may have been drawn by the time of default, should it occur.

(3) Loss Given Default (LGD)

Loss Given Default represents the Group's expectation of the extent of loss on a claim should default occur. It is expressed as percentage loss per unit of exposure. It typically varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support.

(4) Emergence Period (EP)

Emergence period is the time period it takes from the date a loss event occurs to the date the entity identifies it has occurred. The emergence period is estimated by management for each identified portfolio. The factors that may influence this estimation include economic and market conditions, customer behaviour, portfolio management information, credit management techniques and collection and recovery experiences in the market. A fixed range for the period between a loss occurring and its identification is not defined across the Group and as it is assessed empirically on a periodic basis it may vary over time as these factors change. Given that credit management policies require all customers to be reviewed at least annually, we expect this estimated period would be at most 12 months in duration.

The measurement of Exposure at Default and Loss Given Default is based on the risk parameters standard under Basel II.

(iii) Risk Limit Control and Mitigation Policies

The Group applies limits to control credit risk concentration and diversification of its risk assets portfolio. The Group maintains limits for individual borrowers and groups of related borrowers, business lines, rating grade and geographical area.

The Group adopts the obligor limits as set by the regulators and it is currently at 20% of the Bank's shareholders' funds. The obligor limit covers exposures to counterparties and related parties.

Although the Group is guided by this regulatory limit, it applies additional parameters internally to determine the suitable limits that an individual borrower should have. These include: obligor rating, position in the industry and perceived requirements of key players (e.g. import finance limit may be determined by the customer's import cycle and volume during each cycle), financial analysis, etc.

The Group imposes industry/economic sector limits to guide against concentration risk as a result of exposures to sets of counterparties operating in a particular industry. The industry limits are arrived at after rigorous analysis of the risks inherent in the industries/economic sectors.

The limits are usually recommended by the Portfolio Management Unit in the Credit Risk Management Group and approved by the Board. The limits set for each industry or economic sector depend on the historical performance of the sector as well as the intelligence report on the outlook of the sector. During a review

period, limits can be realigned (by way of outright removal, reduction or increase) to meet the exigencies of the prevailing macroeconomic events.

The Group also sets internal credit approval limits for various levels of officers in the credit process. Approval decisions are guided by the Group's strategic focus as well as the stated risk appetite and the other limits established by the Board or Regulatory authorities such as Aggregate Large Exposure Limits, Single Obligor Limits, Geographical Limits, Industry/ Economic sector limits etc.

The lending authority in the Group flows through the management hierarchy with the final authority residing with the Board of Directors as indicated below:

Designation	Limit
Board of Directors	Up to the single obligor limit as advised by the regulatory authorities from time to time but currently put at 20% of shareholders' funds (total equity)
Management Credit Committee	Up to N2 Billion
Managing Director	Up to N500 Million
Deputy Managing Director	Up to N350 Million
Other Approving Officers	as delegated by the Managing Director

The above limits are subject to the following overriding approvals:

- The deposit required for all cash collateralized facilities (with the exception of bonds, guarantees and indemnities) must be 125% of the facility amount to provide a cushion for interest and other charges.
- All new facilities require one-up approval i.e. approval at a level higher than that of the person that would ordinarily approve it.

Master Netting Arrangements

The Group further manages its exposure to credit losses by entering into master netting arrangements, where applicable, with counterparties with which it undertakes a significant volume of transactions. The right to set off is triggered at default. By so doing, the credit risk associated with favourable contracts is reduced by a master netting arrangement to the extent that if a default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Group's overall exposure to credit risk on derivative instruments subject to master netting arrangements can change substantially within a short period, as it is affected by each transaction subject to the arrangement.

Off-balance sheet engagements

These instruments are contingent in nature and carry the same credit risk as loans and advances. As a policy, the Group ensures that all its off-balance sheet exposures are subjected to the same rigorous credit analysis, like that of the on-balance sheet exposures, before avancement. The major off-balance sheet items in the Group's books are Bonds and Guarantees, which the Group will only issue where it has full cash collateral or a counter guarantee from a first class bank, or another acceptable security.

Contingencies

Contingent assets/liabilities which include transaction-related bonds and guarantees, letters of credit and short term foreign currency related transactions, are not recognized in the annual financial statements but are disclosed when, as a result of past events; it is highly likely that economic benefits/settlement will flow to/from the Group. However this will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events which are not wholly within the Group's control.

Placements

The Group has placement lines for its counterparties. The lines cover the settlement risks inherent in the activities with these counterparties. The limits are arrived at after conducting fundamental analysis of the counterparties, presentation of findings to, and approval by the Group's Management Credit Committee. The lines are monitored by market risk arm of Enterprise Risk Management Division. As a rule, the Group's placements with local banks are backed with treasury bills.

IFRS 7 requires the Group to disclose the amounts that best represents its maximum exposure to credit risk at the end of the reporting period without taking account of any collateral held or other credit enhancements (eg netting agreements that do not qualify for offset in accordance with IAS 32). This disclosure is presented below for the Bank and Group as at 31 December 2015 and 31 December 2014.

Credit risk exposure relating to On-Balance Sheet

In thousands of Nigerian naira	Maximum exposure Group		Maximum exposure Parent	
	Dec-2015	Dec-2014	Dec-2015	Dec-2014
Classification				
Cash and cash equivalents:				
- Unrestricted balances with central banks	40,213,238	33,346,313	25,453,036	19,823,983
- Balances held with other banks	146,072,187	91,993,886	100,404,743	42,561,912

Contingencies are disclosed on Note 43.

Classification of Maximum Exposure on Loans to Customers by Product

Loans and advances have been classified into Overdraft, Loans and Others through out the Financials Statement.

- Overdraft are lines of credit which allow customers to write cheques for more than the actual balance on their accounts usually to finance working capital.
- Loans include non-revolving facilities given to finance specific transactions, capital projects or a customer's expansion Programme.
- Others include Usances and Usance Settlement.

Maximum exposure on Loans and advances to customers is analysed below:

	Group		Parent	
	Dec-2015	Dec-2014	Dec-2015	Dec-2014
Loans to individuals:				
Overdraft	10,008,765	7,857,152	4,858,203	5,477,656
Loans	95,714,099	78,944,450	72,789,071	64,973,590

B : Weak Financial condition but obligati are still being met as and when they

Credit Concentration

IFRS 7 requires disclosures about concentrations of risk. Concentration of risk arise from financial instruments that have similar characteristics and are affected similarly by changes in economic or other conditions. This information has been provided along geographical areas and economic sectors.

(i) Geographical Sector**Concentration of risks of financial assets with credit risk exposure**

The following table breaks down the Group's credit exposure (without taking into account any collateral held or other credit support), as categorised by geographical region as at the reporting date. For this table, the Group has allocated exposures to regions based on the country of domicile of its counterparties.

Credit risk exposure relating to On-Balance Sheet**Group****Dec-2015***In thousands of Nigerian naira*

Classification	Nigeria	Rest of Africa	Outside Africa	Total

(viii) Impairment and provisioning policies

The **following** policies guide the Bank's provisioning and impairment:

(1) Loan Categorization

All loans and advances are categorized as follows:

- **Neither past due nor impaired:**

These are significant loans and advances where contractual interest or principal payments are not past due. The credit quality of the portfolio of loans and advances that were neither past due nor impaired can be assessed by reference to the internal rating system adopted by the Group (see Note 4(f)(ii) Credit Risk Measurement). These are assigned ratings 1-6¹.

- **Past due but not impaired:**

These are loans and advances where contractual interest or principal payments are past due but individually assessed as not being impaired. The Group believes that impairment is not appropriate on the basis of the level of receivable/security/collateral available and/or the stage of collection of amounts owed to the Group. This is assigned rating 7¹.

- **Individually impaired:**

Individually impaired are loans and advances for which the Group determines that it is probable that it will be unable to collect all principal and interest due according to the contractual terms of the loan/advance agreement(s). These are loans and advances specifically impaired. These are assigned ratings 8-10¹.

- **Collectively impaired:**

Collectively impaired are portfolios of homogenous loans and advances where contractual interest or principal payments are not past due, but have been assessed for impairment by the Group. Thus, Loans assessed for collective impairment transverse from ratings 1 to ratings 7¹.

¹ Ratings 1	Exceptional capacity
Ratings 2	Very strong capacity
Ratings 3-5	Strong repayment capacity
Ratings 6	Acceptable Risk
Ratings 1-7	Collectively impaired
Ratings 8-10	Individually impaired

This classification is in line with disclosures in note 4 on page 96-97

(2) Allowances for impairment

The Group establishes an allowance for impairment losses that represents its estimate of incurred losses in its loan portfolio. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loan loss allowance, established for groups of homogeneous assets in respect of losses that have been incurred but have not been identified on loans subject to individual assessment for impairment.

Specific Impairment – This is derived by identifying exposure at default and recoverable cash-flows. The Cash-flows are then discounted to present value using the original effective interest rate on the exposures. The shortfall between the discounted cash-flows and the exposure at default is recognized as individual impairment.

Collective Impairment - This is arrived at using the incurred loss model under IAS 39 by incorporating emergence period (EP) into the expected loss model under Basel II.

Realizable collaterals are important component of cash flows.

(3) Loans with renegotiated terms

Loans with renegotiated terms are loans that have been restructured due to deterioration in the borrower's financial position and where the Group has made concessions that it would not otherwise consider. Once the loan is restructured, it remains in this category independent of satisfactory performance after restructuring.

(4) Write-off policy

The Group writes off a loan / security balance (and any related allowances for impairment losses) when Group Management Credit Committee determines that the loans / securities are uncollectible.

This determination is reached after considering information such as the occurrence of significant changes in the borrower / issuer's financial position such that the borrower / issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. For smaller balance standardised loans, charge off decisions are generally based on a product specific past due status.

Categorization of Loans and advances

The table below analyses the Group's Loans and advances based on the categorization of the Loans and the allowances taken on them.

Group

In thousands of Nigerian naira

	Dec-2015				Dec-2014			
	Loans to Individual	Loans to non-Individual	Loans to Banks	Total	Loans to Individual	Loans to non-Individual	Loans to Banks	Total

The sensitivity of carrying amount of loans and advances to changes in probability of default, loss given default, and emergence period are disclosed in note 4(d) under market risk above.

IFRS 7 requires that the group disclose information about the credit quality of financial assets that are neither past due nor impaired, an analysis of the age of financial assets that are past due as at the end of the reporting period but not impaired, and an analysis of financial assets that are individually determined to be impaired as at the end of the reporting period. This information is provided in the tables below.

(i) **Credit quality of Loans and advances Neither Past Due Nor Impaired.**

The credit quality of the portfolio of loans and advances that were neither past due nor impaired can be assessed by reference to the internal rating system adopted by the Group.

(ii) **Loans and advances past due but not impaired**

Clearing cheques, late processing and other administrative delays on the side of the borrower can lead to a financial asset being past due but not impaired. Therefore, loans and advances less than 90 days past due are not usually considered impaired, unless other information is available to indicate the contrary. Gross amount of loans and advances by class to customers that were past due but not impaired were as follows:

Group**Dec-2015***In thousands of Nigerian naira*

Age	Loans to Individual	Loans to Non-individual	Total

¹ The nature of fair value of collateral are set out summary of collaterals pledged against loans and advances.

Upon initial recognition of loans and advances, the fair value of collateral is based on valuation techniques commonly used for the corresponding assets. In subsequent periods, the fair value is assessed by reference to market price or indexes of similar assets.

(iii) Loans and advances individually impaired

The breakdown of the gross amount of individually impaired loans and advances by class, along with the fair value of related collateral held by the Group as security, are as follows:

Group**Dec-2015***In thousands of Nigerian naira*

	Loans to Individual	Loans to Non-individual	Loans to Banks	Total
Gross loans:				
Loans	1,272,032	21,441,932	-	22,713,964

¹ The nature of fair value of collateral are set out summary of collaterals pledged against loans and advances.

Upon initial recognition of loans and advances, the fair value of collateral is based on valuation techniques commonly used for the corresponding assets. In subsequent periods, the fair value is assessed by reference to market price or indexes of similar assets.

(xi) Credit collateral

The Group ensures that each credit is reviewed and granted based on the strength of the borrowers' cash flow. However, the Group also ensures its credit facilities are well secured as a second way out. The policies that guide collateral for facilities are embedded within the Group's credit policy guide. These include the following policy statements amongst others:

Loans to individuals or sole proprietors must be secured by tangible, marketable collateral that has a market value that is supported by a valuation report from a registered estate valuer who is acceptable to the Group. The collateral must also be easy to check and easy to dispose of. This collateral must be in the possession of, or pledged to, the Group. Client's account balances must be within the scope of cover provided by its collateral.

All collateral offered must have the following attributes:

- There must be good legal title
- The title must be easy to transfer
- It should be easy and relatively cheap to value
- The value should be appreciating or at least stable
- The security must be easy to sell.

All collateral must be protected by insurance. Exceptions include cash collateral, securities in safe keeping, indemnity or guarantees, or where our interest is general (for instance in a negative pledge). The insurance policy has to be issued by an insurer acceptable to the Bank. All cash collateralized facilities shall have a 20% margin to provide cushion for interest and other charges i.e. only 80% of the deposit or cash collateral may be availed to an obligor.

The main collateral types acceptable to the Bank for loans and advances include:

- Mortgages over residential properties
- Charges over business premises, fixed and floating assets as well as inventory.
- Charges over financial instruments such as equities, treasury bills etc.

The fair values of collaterals are based upon last annual valuation undertaken by independent valuers on behalf of the Bank. The valuation techniques adopted for properties are based upon fair values of similar properties in the neighbourhood taking into cognizance the advantages and disadvantages of the comparatives over the subject property and any other factor which can have effect on the valuation e.g. subsequent movements in house prices, after making allowance for dilapidations. The fair values of non-property collaterals (such as equities, bond, treasury bills, etc.) are determined with reference to market quoted prices or market values of similar instrument.

The same Fair value approach is used in determining the collaterals value in the course of sale or realisation. The Bank does not take physical possession of properties or other assets held as collateral and uses external agents to realise the value as soon as practicable, generally at auction, to settle indebtedness. Any surplus funds are returned to the borrower.

Summary of collaterals pledged by customers against loans and advances

An estimate of the fair value of any collateral and other security enhancements held against loans and advances to customers and banks is shown below:

(g) Liquidity risk

The Bank's liquidity risk management process is primarily the responsibility of the Market Risk Management Group within the ERM Division.

A brief overview of the bank's liquidity management processes during the year includes the following:

1. Maintenance of minimum levels of liquid and marketable assets above the regulatory requirement of 30%. The Bank has also set for itself more stringent in-house limits above this regulatory requirement to which it adheres.
2. Monitoring of its cash flow and balance sheet trends. The Bank also makes forecasts of anticipated deposits and withdrawals to determine their potential effect on the Bank.
3. Regular measurement and monitoring of its liquidity position/ratios in line with regulatory requirements and in-house limits.
4. Regular monitoring of non-earning assets.
5. Monitoring of deposit concentration.
6. Ensure diversification of funding sources.
7. Monitoring of level of undrawn commitments.
8. Maintaining a contingency funding plan.

(i) Funding approach

The Bank's overall approach to funding is as follows:

1. Generation of large pool of low cost deposits.
2. Maintenance of efficiently diversified sources of funds along product lines, business segments and also regions to avoid concentration risk

The bank was able to meet all its financial commitments and obligations without any liquidity risk exposure during the year ended December 2015.

The Group's Asset and Liability Management Committee (ALMAC) is charged with the responsibility of managing the Group's daily liquidity position. A daily liquidity position is monitored and regular liquidity stress testing is conducted under a variety of scenarios covering both normal and more severe market conditions. All liquidity policies and procedures are subject to review and approval by ALMAC. The Risk Management Group sets limits which are in conformity with the regulatory limits. The limits are monitored regularly and exceptions are reported to ALMAC as appropriate. In addition, gap reports are prepared monthly to measure the maturity mismatches between assets and liabilities. The cumulative gap over total assets is not expected to exceed 20%.

(ii) Exposure to liquidity risk

The key measure used by the Group for managing liquidity risk is the ratio of liquid assets to short term liabilities. For this purpose, liquid assets are considered as including cash and cash equivalents and investment grade debt securities for which there is an active and liquid market. Short term liability includes local currency deposits from banks and customers. A similar calculation is used to measure the Group's compliance with the liquidity limit established by the Bank's lead regulator (The Central Bank of Nigeria).

	Dec-2015	Dec-2014
At end of year	42.21%	40.07%
Average for the year	41.04%	43.88%
Maximum for the year	44.02%	49.27%
Minimum for the year	38.23%	39.66%
Regulatory requirement	30.00%	30.00%

Liquidity ratio which is a measure of liquidity risk is calculated as a ratio of naira liquid assets to local currency deposits and it is expressed in percentages.

Financial risk management (continued)

The following tables show the undiscounted cash flows on the Group's financial assets and liabilities and on the basis of their earliest possible contractual maturity. The Gross nominal inflow / (outflow) disclosed in the table is the contractual, undiscounted cash flow on the financial assets and liabilities.

(iii) Gross nominal (undiscounted) maturities of financial assets and liabilities

Financial risk management (continued)**(i) Residual contractual maturities of financial assets and liabilities**

Details of contractual maturities for assets and liabilities form an important source of information for the management of liquidity risk which is managed through a series of measures, tests and reports that are largely based on contractual maturity. The following table shows the contractual maturities at year end of the Group's financial assets and liabilities and represents actual and in some cases assumed obligation expected for the assets or liability to be recovered or settled. These figures do not include elements of future incomes or costs.

(h) Settlement risk

The Group's activities may give rise to risk at the time of settlement of transactions and trade. Settlement risk is the risk of loss due to the failure of a company to honour its obligations to deliver cash, securities or other assets as contractually agreed.

For certain types of transactions, the Group mitigates this risk by conducting settlements through a settlement clearing agent to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations. Settlement limits form part of the credit approval / limit monitoring process described earlier. Acceptance of settlement risk on free settlement trade requires transaction specific or counterparty specific approvals from Group Risk Management Unit.

(i) Market risk

Market risk is the risk that changes in market variables, such as interest rate, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's / issuer's credit standing) will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

(i) Management of market risk

The Group separates its exposure to market risk between trading and non-trading portfolios. Trading portfolios are mainly held by the Treasury Group, and include positions arising from market making and proprietary position taking, together with financial assets and liabilities that are managed on a fair value basis. With the exception of translation risk arising on the Group's net investment in its foreign operations, all foreign exchange risks within the Group are monitored by the Treasury Group. Accordingly, the foreign exchange position is treated as part of the Group's trading portfolios for risk management purposes.

Overall authority for market risk is vested in Market Risk Management Committee. However, the Market Risk Management group within the Enterprise-wide Risk Management Division is responsible for the development of detailed risk management policies (subject to review and approval by the Committee) and for the day-to-day review of their implementation.

(ii) Exposure to market risks – trading portfolios

The principal tool used to measure and control market risk exposure within the Group's trading portfolios is the open position limits using the Earning-at-Risk approach. Specific limits (regulatory and in-house) have been set across the various trading portfolios to prevent undue exposure and the market risk management group ensures that these limits and triggers are adhered to by the bank.

The bank traded in the following financial instruments in the course of the period;

1. Treasury Bills
2. Bonds (Spot and Repo transactions)
3. Foreign currencies (Spot and Forwards)
4. Money market products

(iii) Exposure to interest rate risk – Trading and non-trading portfolios

The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. The ALMAC is the monitoring body for compliance with these limits and is assisted by Risk Management in its day-to-day monitoring activities. A summary of the Group's interest rate gap position on trading and non-trading portfolios is as follows:

The Bank makes use of limit monitoring, earnings-at-risk, gap analyses and scenario analyses to measure and control the market risk exposures within its trading and banking books.

The bank also performs regular stress tests on its banking and trading books. In performing this, the bank ensures there are quantitative criteria in building the scenarios. The bank determines the effect of changes in interest rates on interest income; volatility in prices on trading income; and changes in funding sources and uses on the bank's liquidity.

During the period, the key potential risks the bank was exposed to from these instruments were foreign exchange risk and interest rate risk and price risk. However, all potential risk exposures in the course of the period were successfully mitigated as mentioned above.

(iv) Other market risks: Sensitivity analysis of non-trading portfolios to various scenarios

The management of interest rate risk against interest rate gap limits is supplemented with monitoring the sensitivity of the Group's financial assets and liabilities to various scenarios. Credit spread risk (not relating to changes in the obligor / issuer's credit standing) on debt securities held by the Group and equity price risk is subject to regular monitoring by Group Management Risk committee, but is not currently significant in relation to the overall results and financial position of the Group.

Interest rate movement have both cash flow and fair value effect depending on whether interest rate is fixed or floating. The impact resulting from adverse or favourable movement flows from either retained earnings or OCI and ultimately ends in equity in the following manner:

- Retained earnings arising from increase or decrease in net interest income and the fair value changes reported in profit or loss.
- Fair value reserves arising from increases or decreases in fair value of available-for-sale financial instruments reported directly in other comprehensive income.

At 31 December, 2015, the group's interest rate risk arises principally from risk assets and borrowings i.e. (deposit liabilities and long-term borrowings). Borrowings issued at variable rates expose the group to cash flow interest rate risk which is partially offset by cash held at variable rates. Borrowings issued at fixed rates expose the group to fair value interest rate risk.

The group therefore analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration refinancing, renewal of existing positions, alternative financing and hedging. Based on these scenarios, the group calculates the impact on profit and loss of a defined interest rate shift. For each simulation, the same interest rate shift is used for all currencies. The scenarios are run only for assets and liabilities that represent the major interest-earning and bearing positions. Major assumptions underlying the sensitivity are as follows:

- 100 basis point changes in floating interest rate on assets and liabilities held at amortized cost; and Assets and liabilities accounted at fair value through profit or loss (December 2015 – 100 basis points) with all other variables held constant, resulted in the impact on profit or loss as set out in the table on page 174.

In arriving at the 100 basis point used for the sensitivity analysis of interest rate, the fluctuation in the interest rate of the Group's major assets and liabilities were considered as shown below:

- The prime lending rate on loans and advances which ranged between 15.95% and 17.29% over the period, a change of about 100 basis points is therefore desirable.
- The discount rate on various maturities of treasury bills ranged between 4.57% and 11.20% over the financial period as published by Central Bank of Nigeria (CBN)
- A 100 basis point proportional change in the cost of fund was also assumed as costs of funds seldom vary beyond 100 basis point.

The table below shows the changes that would impact the income statement after carrying out interest rate

sensitivity.

As for Cash flow interest rate risk, this risk arises from long-term borrowings. Borrowings issued at variable rates expose the group to cash flow interest rate risk which is partially offset by cash held at variable rates.

At 31 December 2015, if interest rates on borrowed funds at amortised cost increased or reduced by 50 basis points with all other variables held constant, the effect on cash flow would have been as set out below:

Group*In thousands of Nigerian Naira*

	Dec-15	Dec-15	Dec-14	Dec-14

(v) Sensitivity Analysis of Trading Portfolio to Price and its Impact on Profit and Loss**1. Held for Trade - Bond price sensitivity**

The Group carried out the following in determining sensitivity of the Group's profit to fluctuations in market prices of bond:

- Daily bond prices were obtained and trended for the different series of Bonds in issue as at the reporting date.
- A reasonably possible change of ± 1 naira was determined based on the distribution of one year daily change in bond prices. The graph below indicates that large proportion of changes in price falls within the range of ± 1 naira.
- The chosen reasonable change in market prices was then applied to the bank's holding of trading bonds as at end of the period.

The result of the price sensitivity i.e. impact on mark-to-market profit or loss as at 31 December 2015, when price of bonds designated as financial assets held for trading increased or decreased by one naira with all other variables held constant, would have been as set out in the tables below:

Group

In thousands of Nigerian Naira

	Dec-15 Pre-tax	Dec-15 Post-tax	Dec-14 Pre-tax	Dec-14 Post-tax
Decrease	(145,373)	(119,617)	(689)	(585)

Increase	145,373	121,524	689	585

2. Held for Trade - Treasury bills discount rate / price sensitivity

The Group carried out the following in determining sensitivity of the Group's profit to fluctuations in market prices of treasury bills:

- Daily market discount rates were obtained, converted to prices and trended for the different maturities of treasury bills in issue as at the reporting date.
- A reasonably possible change of 100 basis points was determined based on the distribution of one year daily change in discount rates on treasury bills. The graph below indicates that large proportion of changes in discount rates falls within the range of 100 basis points.
- The chosen reasonable change in market discount rates was then applied to the bank's holding of Trading bills

The result of the price sensitivity i.e. impact on mark-to-market profit or loss as at 31 December , 2015, if discount rates of treasury bills, increased or reduced by 100 basis points with all other variables held constant, would have been as set out in the tables below:

Group

(vi) Sensitivity Analysis of Available for Sale Portfolio to Price and its Impact on OCI

3. Financial Instrument fair value through equity - Other Comprehensive Income (OCI)

The Group recognized fair value changes for AFS Bonds, Bills and Equities as at 31 December 2015 and the comparative period in 2014. The Group carried out the following in determining sensitivity of the Group's other comprehensive income to fluctuations in market prices of the financial assets:

Available for Sale Bonds to be fair valued through equity - Other Comprehensive Income (OCI)

- A reasonably possible change of ± 1 naira was determined based on the distribution of one year daily change in market prices. The results were that fluctuations were in the range of ± 1 naira.

The result of the price sensitivity i.e. impact on other comprehensive income as at 31 December 2015, when price of bonds designated as available for sales increased or decreased by one naira with all other variables held constant, would have been as set out in the tables below:

Group					
In thousands of Nigerian Naira	Dec-15	Dec-15	Dec-14	Dec-14	
	Pre-tax	Post-tax	Pre-tax	Post-tax	
Decrease		(66,085)	(54,376)	(61,735)	(52,351)

Increase	66,085	55,243	61,735	52,262

Available for Sale Treasury Bills to be fair valued through equity - Other Comprehensive Income (OCI)

The Group carried out the following in determining sensitivity of the Group's profit to fluctuations in market prices of treasury bills:

- Daily market discount rates were obtained and trended for the different maturities of treasury bills in issue as at the reporting date.
- A reasonably possible change of ± 100 basis points was determined based on the distribution of one year daily change in discount rates on treasury bills. The graph below indicates that large proportion of changes in discount rates falls in the range of ± 100 basis points.
- The chosen reasonable change in market discount rates was then applied to the bank's holding of Available for Sale treasury bills as at end of the period.

The result of the price sensitivity i.e. impact on other comprehensive income as at 31 December 2015, if discount rates of treasury bills designated as available for sales, converted to prices, increased or reduced by 100 basis points with all other variables held constant, would have been as set out in the tables below:

Group

In thousands of Nigerian Naira	Dec-15 Pre-tax	Dec-15 Post-tax	Dec-14 Pre-tax	Dec-14 Post-tax
Decrease	819,278	674,124	699,608	593,266
Increase	(819,278)	(674,124)	(699,608)	(593,266)

Decrease	819,278	684,874	699,608	592,251
Increase	(819,278)	(684,874)	(699,608)	(592,251)

(vii) Sensitivity analysis of level 3 equity Instruments and its impact on OCI

The estimated fair value per share of each of the unquoted equity instruments has been determined using the relevant valuation models (where applicable/suitable). IFRS 13 outlines three approaches to fair value measurements. We have adopted the income approach in determining the fair values of these investments. Among the significant inputs into the models are the following:

1. Risk free rate (Rf)
2. Beta (B) coefficient
3. Market return (Rm)
4. Free cash flow (FCF)
5. Cost of debt/equity etc.

The inputs were used to determine appropriate weighted cost of capital which subsequently was used to discount the free cash flow of the company before arriving at the appropriate fair value of the share of the unquoted equity.

In determining the sensitivity of the fair value of the share of the unquoted equity to changes to the various inputs, we have assumed a 100 basis points increase or decrease to equity price of the company determined using discounted cash flow, the resultant impact to pre-tax and post-tax results arising from the sensitivity analysis are as shown in the table below:

Group

In thousands of Nigerian Naira	Dec-15 Pre-tax	Dec-15 Post-tax	Dec-14 Pre-tax	Dec-14 Post-tax
Decrease	(41,170)	(33,876)	(36,309)	(29,962)
Increase	41,170	33,876	36,309	29,962

Parent

In thousands of Nigerian Naira	Dec-15 Pre-tax	Dec-15 Post-tax	Dec-14 Pre-tax	Dec-14 Post-tax
Decrease	(41,170)	(34,416)	(36,309)	(30,595)
Increase	41,170	34,416	36,309	30,595

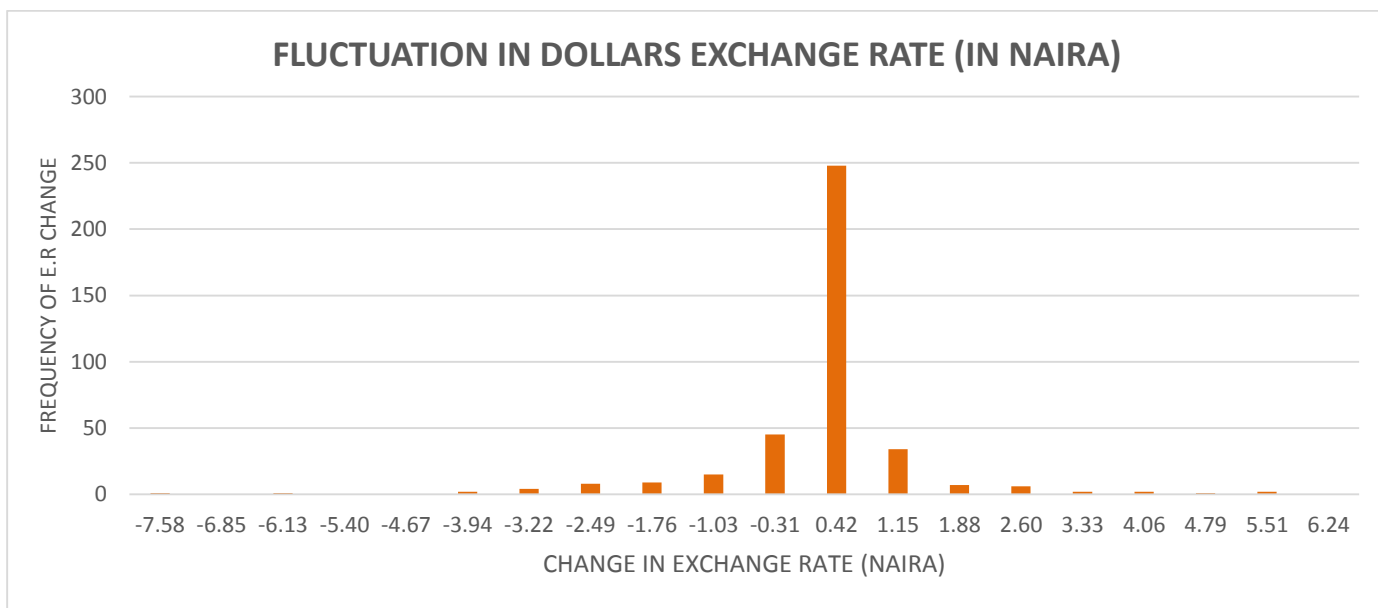

(viii) Exposure to foreign currency risk

The group operates internationally and is exposed to foreign exchange risk arising from various currency exposures primarily with respect to the US dollar and UK pound. Foreign exchange risk represents exposures to changes in the values of current holdings and future cash flows denominated in other currencies. The types of instruments exposed to this risk include investments in foreign subsidiaries, foreign currency-denominated loans and securities, future cash flows in foreign currencies arising from foreign exchange transactions, foreign currency denominated debt amongst others. The value of these instruments fluctuate with changes in the level or volatility of currency exchange rates or foreign interest rates. The Group deploys foreign derivative instruments whose values hedges currency debts to foreign currency loans and advances to eliminate exchange exposures on such borrowings.

Foreign exchange profit or loss (Dollars)

The Group carried out the following in determining sensitivity of the Group's profit to fluctuations in exchange rate of dollars:

- Daily dollar exchange rates were obtained and trended
- A reasonably possible change of ± 2.49 was determined based on the distribution of two years daily change in exchange rates. The graph below indicates that large proportion of changes in price falls in the range of ± 2.49 .
- The chosen reasonable change in exchange rates was then applied to the bank's dollar position as at end of the period.

At 31 December 2015, if the Naira had weakened/strengthened by ± 2.49 Naira against the Dollar with all other variables held constant the pre-tax and post-tax profit for the period would have increased/(decreased) as set out in the table below mainly as a result of foreign exchange gains or losses on the translation

Group

In thousands of Nigerian Naira	Dec-15 Pre-tax	Dec-15 Post-tax	Dec-14 Pre-tax	Dec-14 Post-tax
Decrease	(2,153,416)	(1,774,136)	(1,554,158)	(1,317,922)

Decrease	(2,135,229)	(1,784,939)	(1,542,031)	(1,305,402)
Increase	2,135,229	1,784,939	1,542,031	1,305,402

Foreign exchange profit or loss (Pounds)

The Group carried out the following in determining sensitivity of the Group's profit to fluctuations in exchange rate of pounds:

- Daily pound exchange rates were obtained and trended
- A reasonably possible change of ± 2.85 was determined based on the distribution of two years daily change in exchange rates. The graph below indicates that large proportion of changes in price falls in the range of ± 2.85
- The chosen reasonable change in exchange rates was then applied to the bank's ± 2.85 position as at end of the period.

At 31 December 2015, if the Naira had weakened/strengthened by ± 2.85 Naira against the Pounds with all other variables held constant the pre-tax and post-tax profit for the period would have increased/(decreased) as set out in the table below mainly as a result of foreign exchange gains or losses on the translation.

Increase	13,967	11,675	17,149	14,517

Foreign exchange profit or loss (Euros)

The Group carried out the following in determining sensitivity of the Group's profit to fluctuations in exchange rate of Euro:

- Daily Euro exchange rates were obtained and trended
- A reasonably possible change of ± 3.35 was determined based on the distribution of one year daily change in exchange rates. The graph below indicates that large proportion of changes in price falls in the range of ± 3.35
- The chosen reasonable change in exchange rates was then applied to the bank's euro position as at end of the period.

At 31 December 2015, if the Naira had weakened/strengthened by ± 3.35 Naira against the Euro with all other variables held constant, the pre-tax and post-tax profit for the period would have increased/(decreased) as set out in the table below mainly as a result of foreign exchange gains or losses on the translation.

Increase	207,141	170,657	161,354	136,594

(x) Sensitivity analysis of derivative valuation

The fair value of foreign exchange contracts varies largely due to changes in foreign currency exchange rates. For the purpose of assessing specific risks, the Group carried out a sensitivity analysis to determine the effects that market risk exposures may have on the fair value of the Group's derivative financial instruments and results of operations. To perform the sensitivity analysis, daily U.S. Dollar exchange rates were obtained and trended; with all other variables kept constant and a proportional foreign exchange rate movement of ~~₦~~2.49 (depreciation of the Nigerian Naira) and ~~₦~~2.49 (appreciation of the Nigerian Naira) against the U.S. Dollar; or ± 2.49 change in Nigerian Naira against the U.S. Dollar have been considered to be reasonably possible based on the distribution of two years daily change in exchange rates of the U.S. Dollar.

The following table summarizes our derivatives financial instruments as at 31 December, 2015 and analyzes the sensitivity of their fair values to an immediate change in foreign currency rates. Fair values represent the present value of forecasted future cash flows at market foreign currency exchange rates. A favorable change indicates a weakening of the Nigerian Naira against the U.S. Dollar and an unfavorable change indicates a strengthening of the Nigerian Naira against the U.S. Dollar. The selection of \pm ~~₦~~2.49 favorable or unfavorable change in foreign currency exchange rates should not be construed as a prediction by the Group of future market events, but rather, to illustrate the potential impact of such an event. The modeling technique used to calculate the exposure does not take into account correlation among foreign currency exchange rates, or correlation among various markets such as the foreign exchange, equity and fixed-income markets. Actual experience may differ from the results in the table below due to the correlation assumptions utilized, or if events occur that were not included in the methodology, such as significant liquidity or market events.

The impact of the sensitivity analysis of the Group's derivatives held for trading is zero (₦ 0) as at 31 December, 2015 because there was no derivative as at 31 December 2015, assuming a reasonable ± 2.49 favorable or Less Favorable change in foreign exchange rates, would have been to increase the pre-tax fair values by up to ₦0 (2014 ₦338,949,000) or a lower increase of (₦0) (2014 decrease to ₦209,778,000) respectively; with no potential effect impacting profit and loss or equity as at December 2015.

(xi) Sensitivity of Exposure at default to changes in loan loss impairment

Exposure at default as stated on the statement of financial position is subject to interplay of three key variables: probability of default, loss given default, and emergence period. Therefore changes to these three key variables would directly impact the exposure at default as at reporting date

Sensitivity of Exposure at default - Probability of Default (PD)

The Group carried out the following activities in assessing the sensitivity of the Group's profit to fluctuations in the probability of default:

- The probability of default was obtained on a monthly basis.
- A possible change of five per cent was determined based on the distribution of monthly change in the probability of default.
- The chosen change in the probability of default was then applied to the bank's loan portfolio as at end of the year.

As at 31 December 2015, if probability of default increased or decreased by 5%, with all other variables (exposure at default, emergence period and loss given default) held constant, the impact on impairment charge, which ultimately affects profit and exposure at default, would have been as set out in the tables below:

Group				
In thousands of Nigerian Naira	Dec-15	Dec-15	Dec-14	Dec-14
	Pre-tax	Post-tax	Pre-tax	Post-tax
Decrease	73,395	63,146	54,273	46,023
Increase	(73,395)	(63,146)	(54,273)	(46,023)
Parent

	Pre-tax	Post-tax	Pre-tax	Post-tax
Decrease	67,955	58,466	50,187	42,486
Increase	(67,955)	(58,466)	(50,187)	(42,486)

Sensitivity of Exposure at default – Emergence Period (EP) The Group in assessing the sensitivity of the Group's profit to fluctuations in the loss emergence period adjusted the timing gap between the emergence of impairment triggers and the time at which management becomes aware of the loss by 1 month. The chosen change in emergence period was then applied to the bank's loan portfolio as at period ended 31 December 2015.

As at 31 December 2015, if the emergence period increased or decreased by 1 month, with all other variables (exposure at default, probability of default and loss given default) held constant, the impact on impairment charge, which ultimately affects profit and exposure at default, would have been as set out in the tables below:

Group

In thousands of Nigerian Naira	Dec-15 Pre-tax	Dec-15 Post-tax	Dec-14 Pre-tax	Dec-14 Post-tax
Decrease	1,184,761	1,019,316	943,730	800,280

Increase	(1,096,949)	(943,766)	(872,679)	(738,764)

Sensitivity of Exposure at default – Loss Given Default (LGD)

The Group in assessing the sensitivity of the Group's profit to fluctuations in the loss given default, assumed a 1% change in the loss given default. The chosen change in the loss given default was then applied to the bank's loan portfolio as at end of the year.

As at 31 December 2015, if the loss given default increased or decreased by one per cent, with all other variables (exposure at default, emergence period and probability of default) held constant, the impact on impairment charge, which ultimately affects profit and exposure at default, would have been as set out in the tables below:

5. Capital management and other risks

(a) Regulatory capital

The Group's lead regulator, the Central Bank of Nigeria (CBN), sets and monitors capital requirements for the Bank. The parent company and individual banking operations are directly supervised by the Central Bank of Nigeria (CBN) and the respective regulatory authorities in the countries in which the subsidiary banking operations are domiciled.

During the year 2015, CBN revised the Capital Adequacy Ratio (CAR) reporting template and existing guidance notes on Regulatory capital, Credit risk, Market risk, Operational risk and Pillar 3 disclosure requirement for Basel II implementation in the Industry. The Apex bank directed all Nigerian banks and banking groups to re-compute capital adequacy ratio in line with the revised guidance notes. To this end, the Bank's Capital Adequacy Ratio (CAR) under Basel II has been re-computed in accordance to the new guidelines.

The revision of the capital adequacy ratio computation by the CBN introduced more stringent measures for calculating Risk weighted assets for the Pillar 1 risks such that banks are adequately capitalised and poised to withstand any threat to their solvency. In addition to this, the revision also sought to simplify and clarify grey areas in the previous guidance notes following the review comments obtained from the industry during the parallel run. Other changes include a simplified and uniform reporting template for monthly submission of CAR and the requirement by Domestic Systemically Important Banks to publish information on risk exposure and management on a more frequent basis in addition to the bi-annual disclosure of information under Pillar 3 – Market Discipline.

(b) Capital Adequacy Position in line with Basel II Accord

The International Convergence of Capital Measurement and Capital Standards: a Revised Framework, popularly known as the Basel II Framework was introduced in 2004 as a new set of international standards and best practices that define the minimum capital requirements for internationally active banks. The Basel II framework stipulates a minimum level of capital that banks must maintain to ensure that they can meet their obligations, cover unexpected losses; and can, very importantly, promote public confidence.

Basel II is a three-pronged approach relying on three Pillars -Minimum Capital Requirements (Pillar 1), Supervisory Review Process (Pillar 2) and Market Discipline (Pillar 3).

Pillar 1 Minimum Capital Requirements: It prescribes the capital allocation methodology against the core traditional credit, market and operational risks to ensure these are adequately measured and that banks have adequate capital to mitigate these risks.

Pillar 2 Supervisory Review: It requires banks to establish a risk management framework to identify, assess and manage major risks inherent in the institution and allocate adequate capital against those risks. It emphasizes that supervisors should be able to evaluate the soundness of these assessments.

Pillar 3 Market Discipline: It sets out to encourage market discipline by requiring a number of disclosure requirements in respect of a bank's risk exposures, risk assessment process and capital adequacy.

The CBN specifies approaches for quantifying the risk weighted assets for credit, market and operational risk for the

purpose of determining regulatory capital. Although the computations are consistent with the requirements of Pillar 1 Basel II Accord, certain sections have been adjusted to reflect the peculiarities of the Nigerian environment. In compliance with CBN, the Bank adopted the Standardized Approach (SA) in determining capital charge for Credit Risk and Market Risk while capital charge for Operational Risk was determined using the Basic Indicator Approach (BIA).

Pillar 1 focuses mainly on CAR, also known as Capital to Risk (Weighted) Assets Ratio (CRAR). This is the ratio of a bank’s capital to its risk. CBN requires the minimum requirement of 10% or 15% of Capital to risk weighted assets be maintained by Nigerian banks or banking groups with regional/national license and international banking license respectively.

CAR is measured as:

$$\frac{\text{Total Capital}}{\text{(Credit Risk Weighted Assets + Market Risk Weighted Assets + Operational Risk Weighted Assets)}}$$

The Bank’s regulatory capital is analysed into two tiers:

Tier 1 capital includes ordinary share capital, share premium, retained earnings, statutory reserves, and other reserves excluding regulatory reserves. Intangible assets and investments in subsidiaries were also deducted from Tier I capital for capital adequacy purposes.

Tier 2 capital comprises Fair Value Reserves.

The Bank and its individually regulated operations have complied with all externally imposed capital requirements throughout the period. There have been no material changes in the Bank’s management of capital during the period.

Period under review

A fundamental part of the Bank’s overall business strategy is its sound capital management practices. It adopts a capital planning process that ensures that regulatory capital remains within approved ranges or above target levels across economic and business cycles. The Bank is appropriately capitalized under normal and severe scenarios as well as a range of stress events.

Stress-testing models are used to gauge vulnerability of the bank to exceptional yet possible events. The result of stress-testing reveals the minimum capital requirements of the bank in the event that unforeseen negative events crystallize. The critical objective underpinning the stress-testing exercise is to identify as early as possible, any shortfall in capital requirements of the Bank and take corrective actions which may be direct or indirect.

The Bank throughout the review period, operated above its targeted capitalization range and well over the CBN-mandated regulatory minimum of 15% for international banks even with the introduction more stringent capital adequacy measures by CBN. As at 31 December, 2015, the Bank’s capital adequacy ratio was 18.11% (December 31, 2014- 21.40%).

The following table shows the composition of regulatory capital and risk weighted assets for the Bank:

Notes to the financial statements

Capital adequacy ratio

Bank

<i>In thousands of Nigerian Naira</i>	<i>Note</i>	Dec-2015	Dec-2014

Prior year restatement in line with current guideline (full compliance with Basel II):

Total Risk-Weighted Capital Ratio	18.17%	17.50%
Tier 1 Risk-Based Capital Ratio	17.96%	17.50%

(c) Capital allocation

The allocation of capital between specific operations and activities is, to a large extent, driven by optimization of the return achieved on the capital allocated. The amount of capital allocated to each operation or activity is based primarily upon the regulatory capital, but in some cases, the regulatory requirements do not reflect fully the varying degree of risk associated with different activities. In such cases, the capital requirements may be flexed to reflect differing risk profiles, subject to the overall level of capital to support a particular operation or activity not falling below the minimum required for regulatory purposes. The process of allocating capital to specific operations and activities is undertaken independently of those responsible for the operation, by the Group Enterprise Risk Management Division, and is subject to review by the Group Credit Committee or ALMAC as appropriate.

Although maximisation of the return on risk-adjusted capital is the principal basis used in determining how capital is allocated within the Group to particular operations or activities, it is not the sole basis used for decision making. Consideration is also given to synergies with other operations and activities, the availability of management and other resources, and the fit of the activity with the Group's longer term strategic objectives. The Group's policies in respect of capital management and allocation are reviewed regularly by the Board of Directors.

6. Use of estimates and judgments

These disclosures supplement the commentary on financial risk management (see note 4).

(a) Key sources of estimation uncertainty

Allowances for credit losses

Assets accounted for at amortised cost are evaluated for impairment on a basis described in accounting policy 3b (j)(viii).

The specific counterparty component of the total allowances for impairment applies to claims evaluated individually for impairment and is based upon management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgements about a counterparty's financial situation and the net realisable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimate of cash flows considered recoverable are independently approved by the Credit Risk function.

Collectively assessed impairment allowances cover credit losses inherent in portfolios of loans and advances and held to maturity investment securities with similar economic characteristics when there is objective evidence to suggest that they contain impaired loans and advances and held to maturity investment securities, but the individual impaired items cannot yet be identified. A component of collectively assessed allowances is for country risks. In assessing the need for collective loan loss allowances, management considers factors such as credit quality, portfolio size, concentrations, and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modelled and to determine the required input parameters, based on historical experience and current economic conditions. The accuracy of the allowances depends on how well future cash flows for specific counterparty allowances and the model assumptions and parameters used in determining collective allowances are estimated. Please refer to page 191 for sensitivity analysis of the exposure at default to changes to the EP, LGD and PD.

Determining fair values

The determination of fair value for financial assets and liabilities for which there is no observable market price requires the use of valuation techniques as described in accounting policy 3b (j)(vii). For financial instruments that

trade infrequently and have little price transparency, fair value is less objective, and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

(b) Critical accounting judgements in applying the Group's accounting policies

Critical accounting judgements made in applying the Group's accounting policies include:

Financial asset and liability classification

The Group's accounting policies provide scope for assets and liabilities to be designated on inception into different accounting categories in certain circumstances:

1. In classifying financial assets or liabilities as "trading", the Group has determined that it meets the description of trading assets and liabilities set out in accounting policy **3b(j)(ii)**.
2. In designating financial assets or liabilities as available for sale, the Group has determined that it has met one of the criteria for this designation set out in accounting policy **3b (j)(iib)**.
3. In classifying financial assets as held-to-maturity, the Group has determined that it has both the positive intention and ability to hold the assets until their maturity date as required by accounting policy **3b (j)(iic)**.

Details of the Group's classification of financial assets and liabilities are given in note **8** and sensitivity analysis are as stated on page 175.

Depreciation and carrying value of property and equipment

The estimation of the useful lives of assets is based on management's judgement. Any material adjustment to the estimated useful lives of items of property and equipment will have an impact on the carrying value of these items.

Determination of impairment of property and equipment, and intangible assets

Management is required to make judgements concerning the cause, timing and amount of impairment. In the identification of impairment indicators, management considers the impact of changes in current competitive conditions, cost of capital, availability of funding, technological obsolescence, discontinuance of services and other circumstances that could indicate that impairment exists. The Group applies the impairment assessment to its separate cash generating units. This requires management to make significant judgements and estimates concerning the existence of impairment indicators, separate cash generating units, remaining useful lives of assets, projected cash flows and net realisable values. Management's judgement is also required when assessing whether a previously recognised impairment loss should be reversed.

Defined benefits plan

The present value of the retirement benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Any changes in these assumptions will impact the carrying amount of pension obligations.

The assumptions used in determining the net cost (income) for pensions include the discount rate. The Group determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Group considers the market yields on Government Bonds of medium duration as compiled by the Debt Management Organisation that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension liability. Other key assumptions for pension obligations are based in part on current market conditions.

Impairment of available-for-sale equity investments

The Group determines that available-for-sale equity investments are impaired when there has been a significant or prolonged decline in the fair value below cost. This determination of what is significant or prolonged requires judgement. In making this judgement, the Group evaluates among other factors, the volatility in share price. In addition, objective evidence of impairment may be deterioration in the financial health of the investee, industry and sector performance, changes in technology, and operational and financing cash flows. The sensitivity analysis of level 3 equity Instruments and its impact on OCI are shown in note 4(d) under market risk above.

Impairment of Goodwill

The Group tests annually whether goodwill has suffered any impairment in accordance with the accounting policy in note 3(b)(o). The recoverable amounts of cash generating units have been determined based on value in use calculations. These calculations require the use of estimates. Goodwill and Goodwill Impairment testing are shown in note 32(b) below.

Valuation of financial instruments

The Group's accounting policy on fair value measurements is discussed under note 3b (j)(iib)

The Group measures fair values using the following hierarchy of methods.

Level 1: Quoted market price in an active market for an identical instrument.

Level 2: Valuation techniques based on observable inputs. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: This includes financial instruments, the valuation of which incorporate significant inputs for the asset or liability that is not based on observable market data (unobservable inputs). Unobservable inputs are those not readily available in an active market due to market illiquidity or complexity of the product. These inputs are generally determined based on inputs of a similar nature, historic observations on the level of the input or analytical techniques. This category includes loans and advances to banks and customers, investment securities, deposits from banks and customers, debt securities and other borrowed funds.

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:

All fair values are on a recurring basis. The sensitivity of investments and derivatives to fluctuation in market prices and yields are disclosed in note 4(d) under market risk above.

(a) Standard terms of clearing in Nigeria include provisions allowing net settlements of payments in the normal course of business.

(b) Certain customers provide monies to the Bank to serve as cash collateral for their LC transactions. The Bank simultaneously increases its balances with the correspondent bank to reflect this. As such, the Bank intends to realise the asset and settle the liability simultaneously.

(e) Disclosure Requirement for Level 2 and 3 Financial Instruments**Valuation control framework**

The key elements of the control framework for the valuation of financial instruments include model validation, product implementation review and independent price verification. These functions are carried out by an appropriately skilled finance team, independent of the business area responsible for the products.

Model validation covers both qualitative and quantitative elements relating to new models. In respect of new products, model validation examines the explanatory power of the implemented model, actively monitoring model parameters and comparing in-house pricing to external sources.

Independent price verification procedures cover financial instruments carried at fair value. The frequency of the review is matched to the availability of independent data, monthly being the minimum. Valuation differences in breach of established thresholds are escalated to senior management. The results from independent pricing and valuation reserves are reviewed monthly by senior management.

Valuation technique and Input used in Level 2 Fair Value Measurement

Where there is limited trading activity in financial instruments, the Group uses valuation models, consensus pricing information from third party pricing services and quotes to determine an appropriate valuation.

Available for Sale Corporate Bonds:

As at 31 December 2015, the Group disclosed its investment in Available for Sale Corporate bond as N5,858,271,000 (December 2014: N5,744,582,000) under Level 2 of the Fair Value Hierarchy. In valuing this investment, the price of the asset obtained from an Over the Counter Securities Exchange was adopted in arriving at the fair value. It was categorised under level 2 of the fair value hierarchy because the price obtained was an indicative price due to the fact that the market for the instrument is not very active. It is important to note that no adjustment was made to the input price.

Disclosure Requirements for Level 3 Financial Instruments**Valuation Technique:**

The investment valuation policy (IVP) of the Group provides the framework for accounting for the Group's investment in unquoted equity securities while also providing a broad valuation guideline to be adopted in valuing them. Furthermore, the IVP details how the group decides its valuation policies and procedures and analyses changes in fair value measurements from period to period.

In accordance with IFRS 13 Fair Value Measurement, which outlines three approaches for valuing unquoted equity instruments; market approach, the income approach and the cost approach. The Group estimated the fair value of its investment in each of the unquoted equity securities at the end of the financial year using the income approach.

The Discounted Cash flow (DCF) technique of the income approach was adopted in valuing each of these equity investments taken into cognizance the suitability of the model to each equity investment and the available financial information.

Description of Valuation Methodology and inputs:

Discounted Cash flow Technique (DCF)

The fair value of the other unquoted equity securities were derived using the Discounted Cash Flow technique. The steps involved in estimating the fair value of the Group's investment in each of the investees (i.e. unquoted equity securities) are as follows:

- Step 1: A five-year forecast of the Free Cash Flow to the Firm (FCFF) for each of the equity investments was made (see (a) below for the definition, explanation and derivation of FCFF).
- Step 2: The yearly FCFF forecasts were discounted to present value using the company's WACC. (See (b) below for the definition, explanation and derivation of WACC).
- Step 3: The terminal value at year five was estimated by dividing the compounded (with 'g') year five FCFF by the capitalization rate (please see (c) below)
- Step 4: The terminal value was discounted to present value using the company's WACC
- Step 5: The firm value was obtained by adding the present value of the five-year FCFF obtained in step (2) above to the present value of terminal value obtained in step (4) above.
- Step 6: The equity value of the firm was obtained by deducting the value of the debt of the company from the firm value obtained in step (5) above (i.e. Firm value minus market value of debt = Equity value)
- Step 7: The equity value per share was obtained by dividing the Equity value obtained in step (6) above by the number of shares outstanding in the company.
- Step 8: The fair value of the group's investment in each of the relevant unquoted equity securities was derived by multiplying the number of the Groups' shares in the investee by the value per share obtained in step (7) above.

a. Free Cash flow to the Firm (FCFF):

A measure of financial performance that expresses the net amount of cash that is generated for the firm, consisting of expenses, taxes and changes in net working capital and investments. Free cash flow to the firm is the cash available to all investors, both equity and debt holders.

$$\text{FCFF} = \text{NI} + \text{NCC} + [\text{Int} \times (1 - \text{tax rate})] - \text{Changes in FCI} - \text{Changes in WCI}$$

Where:

NI = Net Income

NCC = Non Cash Charges

Int = Interest

T = tax rate

FCI = Fixed Capital Investment

WCI = Working Capital Investment

b. Weighted average Cost of Capital (WACC):

This is the average cost of both equity and debt capital used in financing a business.

$$\text{WACC} = \left\{ \frac{D}{D+E} \times K_d(1-T) \right\} + \left\{ \frac{E}{D+E} \times K_e \right\}$$

Where:

D = Value of Debt
 E = Equity value
 Ke = Cost of equity
 Kd = Cost of debt
 T = Tax rate

$$c. \text{ Capitalization Rate} = \text{WACC} - g$$

$$\text{Terminal value} = \frac{\text{FCFF}_5 * (1+g)}{\text{WACC} - g}$$

Where:

FCFF = Year₅ FCFF
 g = Growth rate
 WACC = *Weighted average Cost of Capital*

Valuation Assumptions – Discounted Cash flow

1. Risk free rate (R_f) = 11.01% yield on 10-year Federal Government of Nigeria Bond
2. Beta = 1 or Less than 1.
3. Market premium = 6% based on trend analysis and research of market premiums across the globe by Aswath Damodaran.
4. Growth rate used is growth rate in earnings between the latest year and prior period.

Summary of carrying amounts of equity Securities at fair value through equity

<i>In thousands of Nigerian Naira</i>	Dec-15	Dec-14
Historical cost	(2,415,699)	(2,476,810)
Fair value	4,116,988	3,609,554
Unrealized Fair Value Gain recognized in Equity (OCI)	1,701,289	1,132,744

The movement in equity securities at fair value during the period is as follows:

<i>In thousands of Nigerian Naira</i>	Group Dec-15	Group Dec-14	Parent Dec-15	Parent Dec-14
Balance, beginning of the period	3,609,554	6,975,140	3,609,554	6,975,140
Reclassification from unquoted (SMEEIS) equity investments	-	-	-	-
Reclassification from/to Other unquoted equity investments	(61,111)	(469,999)	(61,111)	(469,999)

Disposals	-	(264,201)	-	(264,201)
Exchange difference- gain/(loss)*	(191)	116	-	-
Balance, end of the period	4,972	5,163	-	-

Derivatives

Where the Group's derivative assets and liabilities are not traded on an exchange, they are valued using the discounted cash flow model. The future cash flow to be received is discounted using the appropriate Libor rates.

The Group did not have any derivative financial instrument as at 31 December 2015. The Group estimated the fair value of its Foreign exchange derivatives as at 31 December 2014 using the Discounted Cash Flow Model and disclosed it under Level 3 Fair Value Hierarchy.

(f) Statement of Prudential Adjustment

In 2015, the bank transferred the sum of N23,891,957,000 from its retained earnings to a non-distributable regulatory risk reserve within the Statement of Changes in Equity. This transfer takes the total regulatory risk reserve to N52,241,013,000. The stated sum represents the difference between the Central Bank of Nigeria (CBN) recommended Provision for Loan Losses amounting to N78,324,985,000 and the Loan Impairment allowance determined in accordance with provisions of IAS 39 amounting to N26,309,048,000. Of the amount recommended by the Central Bank of Nigeria, N24,457,544,000 relates to 2% General Loan Loss Provision on performing loans.

Also, N3,985,610,000 recommended by CBN for Other Known Losses was adequately provided for in the December 2015 IFRS Financial Statement

The Reconciliation between the CBN Recommended provisions and that under IFRS as at December 2015 is as shown in the table below:

<i>In thousands of Nigerian Naira</i>	Reference	Specific	General	Total
a				
Loans and Advances:				
Provision per CBN Prudential Guidelines		53,867,441	24,457,544	78,324,985
Impairment Allowance per IAS 39: (Inclusive of Collective Allowance)	(Note 28 & 29)	26,309,048	-	26,309,048
Amount required in Regulatory Risk Reserve¹		27,558,393	24,457,544	52,015,937
b				
Provision for Other Known Losses:				
<i>Provision for Other Known Losses - CBN</i>				3,985,610
<i>Provision for Other Known Losses - IFRS</i>				
Specific Impairment for Equities	(Note 26)			3,454,978
Impairment on Other Assets	(Note 34)			305,556
Others – Regulatory Risk Reserve				225,076
Amount required in Regulatory Risk Reserve²				0

¹Regulatory Risk Reserve refers to the difference between the Provision assessment under CBN Prudential Guideline and impairment assessment under IFRS

c Impairment of loans and advances and Other Known Losses (OKL)

Regulatory reserve required for loans and advances		52,015,937
Regulatory reserve required for Other Known Losses		225,076
Balance required per Regulatory Risk Reserve		52,241,013
Balance per Regulatory Risk Reserve	(SOCIE - Page 56)	52,241,013
Excess amount in regulatory risk reserve		0

d Movement in Regulatory Reserves

	Specific	General	Others	Total
Movement in Regulatory Reserves				
Balance as at 1 January	16,302,579	11,510,805	535,672	28,349,056
Transfer during the year	11,255,814	12,946,739	-	24,202,553
Reversal during the year	-	-	(310,596)	(310,596)
Balance, end of the period	27,558,393	24,457,544	225,076	52,241,013

Operating segments

The Group has five reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer varied products and services, and are managed separately based on the Group's management and internal reporting structure. For each of the strategic business units, the Executive Management Committee reviews internal management reports on at least a quarterly basis.

The following summary describes the operations in each of the Group's reportable segments:

- **Corporate banking** – Incorporates current accounts, deposits, overdrafts, loans and other credit facilities, foreign currency and derivative products offered to very large corporate customers and blue chips.
- **Commercial banking** – Incorporates current accounts, deposits, overdrafts, loans and other credit facilities, foreign currency and derivative products for mid-size and fledgling corporate customers.
- **Retail banking** – Incorporates private banking services, private customer current accounts, savings deposits, investment savings products, custody, credit and debit cards, consumer loans and mortgages.
- **SME banking** – Incorporates current accounts, deposits, overdrafts, loans and other credit facilities, foreign currency and derivative products for small and medium-size enterprises and ventures.
- **Public Sector** – Incorporates current accounts, deposits, overdrafts, loans and other credit facilities, foreign currency and derivative products for Government Ministries, Departments and Agencies.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Executive Management Committee. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

No single external customer accounts for 10% or more of the Group's revenue.

The measurement policies the Group uses for segment reporting are the same as those used in its financial statements, except that activities of Staff Investment Trust have not been consolidated in arriving at the operating profit, assets and liabilities of the operating segment (see note 30(b)). There have been no changes from prior periods in the measurement methods used to determine reported segment profit or loss.

Fair value of loans and advances

The fair values of non retail loans have been determined based on observable market data (transactions) (level 2) whilst those of retail loans have been estimated using **Discounted Cash Flow (DCF) valuation models (level 3)**. Inputs into this valuation technique include: expected cash flows, expected losses, tenor and interest rates, risk premium between interest rate on the loan and risk free rate in the economy.

The expected cash flows (estimated recoverable amount from receivables, collateral and otherwise) are thus discounted to obtain the fair value of the retail loans. To improve the accuracy of fair value of retail loans, these loans are grouped into homogenous portfolio along product and customer type.

Fair value of customers' deposits

Fair values of customers' deposits have been determined using discounted cash flow techniques applying the rates on deposits of similar maturities and terms to discount the contractual cash flows.

Accounting classification measurement basis and fair values (continued)

Financial instruments at fair value (including those held for trading, designated at fair value, derivatives and available-for-sale) are either priced with reference to a quoted market price for that instrument or by using a valuation model. Where the fair value is calculated using a valuation model, the methodology is to calculate the expected cash flows under the terms of each specific contract and then discount these values back to present value. The expected cash flows for each contract are determined either directly by reference to actual cash flows implicit in observable market prices or through modelling cash flows using appropriate financial markets pricing models. Wherever possible these models use as their basis observable market prices and rates including, for example, interest rate yield curves and prices.

Staff loans

Staff received loans at below the market interest rate. These loans are measured at fair value at initial recognition. The difference between the PV of cash flows discounted at the contractual rate and PV of cash flows discounted at market rate has been recognised as prepaid employee benefit which is amortised to personnel expense (other staff cost) over the life of the loan.

Cash-settled share-based payments

The Group operates a cash-settled share based compensation plan (share appreciation rights (SARs)) for its management personnel. The management personnel are entitled to the share appreciation rights after spending ten years in the Bank. Qualified employees must have been in the scheme for five years and must have held the shares for at least three years. The amount of cash payment is determined based on the fair value of the shares of the Bank. The details of SARs granted at the reporting date are provided below:

In thousands	Number of shares
SARs granted to senior management employees at 31 December 2015	394,199
SARs granted to senior management employees at 31 December 2014	401,415

22

Basic and Diluted earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to equity holders of the company by the weighted average number of ordinary shares in issue during the year, excluding the average number of ordinary shares purchased by the company and held as treasury shares.

The calculation of basic earnings per share for the reporting period was based on the profit attributable to ordinary shareholders of N98,678,427,000 and a weighted average number of ordinary shares outstanding of 28,152,505,000 and it is calculated as follows:

Profit attributable to ordinary shareholders

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014
Net profit attributable to equity holders of the Company	98,678,427	93,736,459
Net profit used to determine diluted earnings per share	<u>98,678,427</u>	<u>93,736,459</u>

Number of ordinary shares

<i>In thousands of shares</i>	Group Dec-2015	Group Dec-2014
Weighted average number of ordinary shares in issue	28,152,505	28,219,672
Basic earnings per share (expressed in naira per share)	3.51	3.32

The Group does not have any dilutive potential ordinary shares. Therefore, Basic EPS and Diluted EPS for continuing operations are the same for the Group.

Weighted average number of ordinary shares in issue	28,152,505	28,219,672
Weighted average number of ordinary shares for diluted earnings per share	28,152,505	28,219,672
Diluted earnings per share (expressed in naira per share)	3.51	3.32

(b) All derivatives are settled in less than one year.

(c) Foreign exchange derivatives

The Group did not have outstanding foreign exchange derivative transactions as at the reporting date.

The Group enters into forward foreign exchange contracts and currency swaps designated as held for trading.

A forward foreign exchange contract is an agreement by two counterparties to exchange currencies at a pre-determined rate on some future date. No funds change hands when a typical forward foreign exchange contract originates; a funds flow occurs only at the contract's stated future delivery time. A currency swap is the simultaneous spot sale (or purchase) of currency against a forward purchase (or sale) of approximately an equal amount. In a swap contract, there is an exchange, or notional exchange, of equivalent amounts of two currencies and a commitment to exchange interest periodically until the principal amounts are re-exchanged on a future date.

The Group's foreign exchange derivatives do not qualify for hedge accounting; therefore all gains and losses from changes in their fair values are recognised immediately in the income statement and are reported in 'Net gains/(losses) on financial instruments classified as held for trading'.

Movement in unquoted equities at cost:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Balance at 1 January	549,215	79,100	544,052	74,053
- Exchange difference	(191)	116	-	-
- Disposal	-	(264,201)	-	(264,201)
- Reversal of impairment	3,000	264,201	3,000	264,201
- Transfer from equity investments at fair value	61,111	469,999	61,111	469,999
Balance, end of the year	613,135	549,215	608,163	544,052

Fair values of certain SMEEIS and Other long term investments which are borne out of regulatory requirement in force as at the time of investment cannot be measured reliably because there are no active market for these financial instruments; they have therefore been disclosed at cost less impairment..

Their impairment was based on the observable data from the environment which suggests that the recoverable amount will be much lower than the carrying value of these investments; hence, they are carried at cost less impairment and included in Level 3 of the Fair Value hierarchy table.

The Group is willing to divest from these entities if willing buyers come across and upon obtaining appropriate regulatory approvals since the regulation that led to their creation has been abolished.

The Group does not have power to influence the returns from the investees. Consequently, the Group is of the opinion that it does not have power over the investees investments because of the following:

- There are no material transactions between the Group and the entities and it does not participate in the policy making processes owing to the nature of these entities.
- The Group does not provide essential technical information to the entities.
- There is no inter-change of personnel between the Group and the entities.
- Although the Group is represented in some of the boards, these representations do not connote any form of control or significant influence because most of the entities do not hold regular board meetings and are run like sole proprietorship businesses.

(c) **Specific impairment for equities**

Movement in specific impairment for equities during the year is as shown below:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Balance at 1 January	3,457,978	3,214,163	3,457,978	3,214,163
- Charge for the year	(3,000)	243,815	(3,000)	243,815
Balance, end of the year	3,454,978	3,457,978	3,454,978	3,457,978

The Bank would only lose cost of investment if decline in value is considered significant or prolonged.

Specific impairment for equities is further analysed by classification below:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Specific impairment on equity securities at fair value	508,016	508,016	508,016	508,016
Specific impairment on equity securities at cost	2,946,962	2,949,962	2,946,962	2,949,962
	3,454,978	3,457,978	3,454,978	3,457,978

27 **Assets pledged as collateral**

(c) Impairment testing for cash-generating units containing Goodwill

For the purpose of impairment testing, goodwill acquired through business combinations is allocated to each of the cash-generating units or groups of cash-generating units that is expected to benefit from the synergies of the combination.

Goodwill is allocated the Cash Generating Units (CGUs) as shown below:

In thousands of Nigerian Naira

Cash Generating Units	Dec -15	Dec-14
Rest of West Africa:		
- Corporate Banking	38,144	36,070
- Commercial Banking	5,564	6,836
- Retail Banking	7,214	8,015
East Africa:		
- Corporate Banking	6,440,068	6,091,621
- Commercial Banking	939,431	1,154,521
- Retail Banking	1,217,962	1,353,639
	8,648,384	8,650,702

No impairment loss on goodwill was recognised during the year ended 31 December 2015 (31 December 2014: nil).

The recoverable amounts for the CGUs have been determined based on value-in-use calculations; using cash flow projections based on financial budgets approved by senior management covering a five-year period.

Cash Flow Forecasts

The cash flows projections used for the 2 periods were based on actual operating results and the 5-year business plan appropriately approved by senior management. Cash flows were projected for a period of 5-years using a constant average growth rate of 7.0 per cent and 6.2 per cent for CGUs in Rest of Africa and East Africa regions respectively. This constant growth rate is based on the long term forecast of GTBank's growth rate in the countries in which the CGU's operate centred on past performance, current industry trend and management's expectations of market development. This growth rate used does not exceed the long-term average growth rate for the countries/regions in which the goodwill was allocated. The forecast period is based on the Group's medium to long term perspective with respect to the operations of these units.

Valuation Assumptions and Other Disclosures

For each of the CGUs for which the goodwill was allocated, the key assumptions used in Value-in-use calculations are as follows:

The recoverable amount of the regions for which goodwill was allocated has been based on their value in use which was determined by discounting the projected cash flows generated by the segments with an average and weighted discount rate of 13.02% derived using Gordon's Dividend's approach. It would require over N1.5billion change in the recoverable amount of the most vulnerable CGU (East Africa – Corporate) before goodwill allocated the CGU can be assumed impaired.

2015-Key Assumptions	Rest of West Africa			East Africa		
	Corporate	Commercial	Retail	Corporate	Commercial	Retail
Revenue Growth Rate (%)	7.0%	6.5%	7.5%	5.7%	6.2%	6.7%
Operating Income Growth Rate (%)	7.4%	6.9%	7.9%	6.2%	6.7%	7.2%
Other Operating Costs (₦'Million)	969	569	1,513	351	206	549
Annual Capital Expenditure (₦'Million)	222	221	822	55	56	215
Recoverable Amount (₦'Million)	66,909	10,922	26,239	12,949	4,061	6,691
Long Term Growth Rate (%)	6%-8%	6%-8%	6%-8%	6%-8%	6%-8%	6%-8%
Discount Rate (%)	13.0%	13.0%	13.0%	13.04%	13.0%	13.0%

2014-Key Assumptions	Rest of West Africa			East Africa		
	Corporate	Commercial	Retail	Corporate	Commercial	Retail
Revenue Growth Rate (%)	10.5%	10.5%	10.5%	9.5%	9.5%	9.5%
Operating Income Growth Rate (%)	10.0%	10.0%	10.0%	10.0%	10.0%	10.0%
Other Operating Costs (₦'Million)	2,006	2,585	4,177	1,118	1,441	2,329
Annual Capital Expenditure (₦'Million)	64	12	14	443	314	60
Recoverable Amount (₦'Million)	102,109	19,222	39,608	13,556	4,080	8,855
Long Term Growth Rate (%)	4%-7.3%	4%-7.3%	4%-7.3%	4%-7.3%	4%-7.3%	4%-7.3%
Discount Rate (%)	10.4%	10.4%	10.4%	10.4%	10.4%	10.4%

The key assumptions described above may change as economic and market conditions change. The Group estimates that reasonably possible changes in these assumptions are not expected to cause the recoverable amount of the subsidiaries (from which the goodwill arose) to decline below their carrying amount

33 Deferred tax assets and liabilities

- (a) Restricted deposits with central banks are not available for use in the Group's day-to-day operations. The Bank had restricted balances of N273,873,799,000 with the Central Bank of Nigeria (CBN) as at 31 December 2015 (December 2014: N257,098,961,000). This balance is CBN cash reserve requirement. The cash reserve ratio represents a mandatory 25% of qualifying Naira deposits (December 2014: 20% non-government, 75% government deposit) which should be held with the Central Bank of Nigeria as a regulatory requirement.

As at 31 December 2015, GTB Liberia and Cote d'Ivoire had restricted balances of N1,669,398,000 and N106,072,000 with the Central Bank of Liberia and the BCEAO respectively (December 2014: N1,203,885,000 and N104,972,000). The Cash Reserve Ratio in Liberia and Cote d'Ivoire represents a mandatory 15% and 5% respectively of local currency deposit which should be held with their respective Central Banks as a regulatory requirement. In the same period, GTBank Kenya had restricted deposits of N809,530,000 (December 2014: N970,247,000).

Non-current	11,108,595	32,912,847	1,606,921	23,454,654

- (a) The Bank and its employees each contribute a minimum of 10% and 8% respectively of basic salary, housing and transport allowance to each employee's retirement savings account maintained with their nominal pension fund administrators.
- (b) The lease obligation relates to other transportation equipment held under a finance lease arrangement. The net carrying amount of the assets, included within property, plant and equipment is N9,231,455,000 (December 2014: N1,594,950,000)

The lease agreement includes fixed lease payments and a purchase option at the end of the 10 year lease term. The agreement is non-cancellable but does not contain any further restrictions. No contingent rents were recognised as an expense in the period (December 2014:Nil)

The future minimum lease payments extend over a number of years. This is analysed as follows:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Not more than one year	955,335	669,346	955,335	669,346
Over one year but less than five years	1,114,557	2,156,783	1,114,557	2,156,783
Over five years	-	-	-	-
	2,069,892	2,826,129	2,069,892	2,826,129
Less future finance charges	(154,492)	(297,893)	(154,492)	(297,893)
	1,915,400	2,528,236	1,915,400	2,528,236

The present value of finance lease liabilities is as follows:

<i>In thousands of Nigerian Naira</i>	Dec-2015	Dec-2014	Dec-2015	Dec-2014
Not more than one year	848,125	549,307	848,125	549,307
Over one year but less than five years	1,067,275	1,978,929	1,067,275	1,978,929
Over five years	-	-	-	-
	1,915,400	2,528,236	1,915,400	2,528,236

- (c) This represents the Naira value of foreign currencies held on behalf of customers in various foreign accounts to cover letters of credit transactions. The corresponding balance is included in Foreign Banks - Cash Collateral in other assets.

(d) Movements in the number of share options outstanding and their related weighted average exercise prices are as follows:

	Dec-2015		Dec-2014	
	Average Exercise Price Per Share	Share Rights (thousands)	Average Exercise Price Per Share	Share Rights (thousands)
At 1 January	20.13	401,414.77	18.36	406,626
Granted	11.21	25,485.93	10.46	28,690
Forfeited	-	-	-	-
Exercised	21.65	(32,702)	22.22	(33,901)
Expired	-	-	-	-
As at end of the year	20.64	394,199	20.13	401,415

Out of the 394,199,000 outstanding SARs as at Dec-2015 (2014: 401,415,000 SARs), 287,440,956 SARs (2014: 285,243,397) were exercisable. SARs exercised in 2015 resulted in 32,701,735 shares (2014:33,901,000) being issued at a weighted average price of N21.65 each (2014: N22.22 each).

The fair value of Share Appreciation Right was determined using a multi-factor model which entails using average share price for vested shares and multiple combination of 11.16% probability of exits, number of employees years in the scheme and in the organization for non-vested shares.

Share options outstanding at the end of the year have the following expiry date and exercise prices:

Naira Grant-Vest	Exercise price		Share options (thousands)	
	Dec-2015	Dec-2014	Dec-2015	Dec-2014

39 Defined benefit obligations

The Bank operates a non-contributory, funded lump sum defined benefit gratuity scheme. Employees are automatically admitted into the scheme after completing 10 consecutive years of service with the Bank. Employees' gratuity benefits are calculated based on number of years of continuous service, limited to a maximum of 10 years.

(a) The amounts recognised in the statement of financial position are as follows:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Unfunded obligations	-	-	-	-
Present value of funded obligations	(3,178,414)	(2,300,259)	(3,178,414)	(2,300,259)
Total present value of defined benefit obligations	(3,178,414)	(2,300,259)	(3,178,414)	(2,300,259)
Fair value of plan assets	8,273,747	7,947,358	8,273,747	7,947,358
Present value of net asset/(obligations)	5,095,333	5,647,099	5,095,333	5,647,099
Unrecognized actuarial gains and losses	-	-	-	-
Recognized asset/(liability) for defined benefit obligator	5,095,333	5,647,099	5,095,333	5,647,099

The bank has a right to surplus on its plan assets. There are no unrecognized actuarial gains and losses.

Recognised asset for defined benefit obligations is included within Restricted deposits and other assets in note 34

(b) Movement in the present value of defined benefit obligations:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014

The defined benefit plan assets are under the management of custodians - Crusader Sterling Pension Limited

Plan assets include the Group's ordinary shares with a fair value of N1,839,796,000 (2014: N2,271,540,000) and money market placements with a fair value of N3,610,631,000 (2014: N3,292,634,000).

Expected contributions to post-employment benefit plans for the year ending 31 December 2016 are N142,145,000 (December 2015: N142,019,000) while gratuity payments are estimated to be N142,145,000 (December 2015: N142,019,000)

(d) Defined benefit cost for year ending December 2016 is expected to be as follows:

	Parent Dec-2016	Parent Dec-2015
Current service cost	116,074	168,486
Net Interest on Net benefit liability	(575,738)	(826,893)
Expense/(Income) recognised in profit or loss	(459,664)	(658,407)

Components of net interest on defined benefit liability for year ending December 2015 is estimated to be as follows:

	Parent Dec-2016	Parent Dec-2015
Interest cost on defined benefit obligation	367,469	357,263
Interest income on assets	(943,207)	(1,184,156)
Total net interest cost	(575,738)	(826,893)

Plan assets are valued at current market value. The expected return on plan assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the date of the consolidated statement of financial position. Expected returns on equity reflect long-term real rates of return experienced in the respective markets.

(e) Movement in plan assets:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Fair value of plan assets, beginning of the year	7,947,358	7,560,108	7,947,358	7,560,108
Contributions paid into/(withdrawn from) the plan	36,528	55,132	36,528	55,132
Benefits paid by the plan	(36,528)	(55,132)	(36,528)	(55,132)
Actuarial gain/(loss)	(857,767)	(595,564)	(857,767)	(595,564)
Expected return on plan assets	1,184,156	982,814	1,184,156	982,814
Fair value of plan assets, end of the year	8,273,747	7,947,358	8,273,747	7,947,358

Actual return on plan asset is made up of expected return on plan assets and actuarial gains / losses

(f) Movement in present value of obligations:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Present value of obligation, beginning of the year	2,300,259	1,780,666	2,300,259	1,780,666
Interest cost	351,649	244,744	351,649	244,744
Current service cost	78,067	129,545	78,067	129,545
Benefits paid	(36,528)	(55,132)	(36,528)	(55,132)
Actuarial (gain)/loss on obligation	484,967	200,436	484,967	200,436
Present value of obligation at end of the year	3,178,414	2,300,259	3,178,414	2,300,259

(g) Actuarial assumptions

Principal actuarial assumptions at the reporting date (expressed as weighted averages):

	2015	2014
Discount rate	14.90%	14.90%
Salary increase rate	10%	10%
Inflation	8%	8%
Retirement age for both male and female	60 years	60 years
Withdrawal Rate: 18 – 29	4.5%	4.5%
Withdrawal Rate: 30 – 44	6.0%	6.0%
Withdrawal Rate: 45 – 50	5.0%	5.0%
Withdrawal Rate: 51	4.5%	4.5%
Withdrawal Rate: 52	4.0%	4.0%
Withdrawal Rate: 53	3.5%	3.5%
Withdrawal Rate: 54	3.0%	3.0%
Withdrawal Rate: 55	2.5%	2.5%
Withdrawal Rate: 56	2.0%	2.0%
Withdrawal Rate: 57	1.5%	1.5%
Withdrawal Rate: 58	1.0%	1.0%
Withdrawal Rate: 59	0.5%	0.5%
Withdrawal Rate: 60	100.0%	100.0%

Assumptions regarding future mortality before retirement are based on A1949/52 ultimate table published by the Institute of Actuaries of United Kingdom.

The overall expected long-term rate of return on assets is 11.4%. The expected long-term rate of return is based on the portfolio as a whole and not on the sum of the returns on individual asset categories. The return is based entirely on current market yields on Nigerian Government Bonds. The component of the rate of remuneration increase based on seniority and promotion is an average of 5% per annum. The inflation component has been worked out at 8% per annum.

For members in active service as at the valuation date, the projected unit credit method of valuation as required under the IFRS has been adopted.

(h) Reasonably possible changes at the reporting date of discount rate, salary increase rate and mortality rate would have affected the defined benefit obligation by the amounts shown below:**Group****Dec-2015***In thousands of Nigerian Naira except percentages***Impact on defined benefit obligation**

	Change in Defined benefit obligation		
	assumption	Increase	Decrease
Discount rate	1.00%	(2,932,763)	3,457,932
Salary increase rate	1.00%	3,464,306	(2,923,107)
Mortality rate	1 year	3,177,742	(3,179,136)

Group**Dec-2014***In thousands of Nigerian Naira except percentages***Impact on defined benefit obligation**

	Change in Defined benefit obligation		
	assumption	Increase	Decrease
Discount rate	1.00%	(2,141,016)	2,478,872
Salary increase rate	1.00%	2,489,285	(2,129,719)
Mortality rate	1 year	2,303,568	(2,297,239)

Parent**Dec-2015***In thousands of Nigerian Naira except percentages***Impact on defined benefit obligation**

	Change in Defined benefit obligation		
	assumption	Increase	Decrease
Discount rate	1.00%	(2,932,763)	3,457,932
Salary increase rate	1.00%	3,464,306	(2,923,107)
Mortality rate	1 year	3,177,742	(3,179,136)

Parent**Dec-2014***In thousands of Nigerian Naira except percentages***Impact on defined benefit obligation**

	Change in Defined benefit obligation		
	assumption	Increase	Decrease
Discount rate	1.00%	(2,141,016)	2,478,872
Salary increase rate	1.00%	2,489,285	(2,129,719)
Mortality rate	1 year	2,303,568	(2,297,239)

In practice, changing an actuarial assumption while holding other assumptions constant is unlikely to occur as changes in some of the assumptions may be correlated.

(k) Defined Benefit Risk Management

The Group's exposure to risks through its defined benefit plan is mitigated through a number of strategies. Most important of them is the asset-liability matching strategy. Thus, fluctuations in macro-economic variables have minimal impact on its exposure to the plan.

Over the years, the Group not only ensures that it has sufficient plan assets to fund its defined benefit obligation but also adopts a robust strategy that ensures that the macro-economic variables affecting the obligations are similar to those of the plan assets. The significant risks inherent in the Group's defined benefit plan are detailed below:

Asset volatility

Post employment benefit obligations are calculated using a discount rate determined with reference to market yields on high quality bonds. The Group ensures that the plan assets do not underperform this yield. This is achieved through maintaining an efficient portfolio of investments in plan assets significantly made up of high quality equities and government securities. Consequently, the yield on the Group's plan assets has consistently outperformed interest cost on plan obligations. The Group also ensures that as tenured investments in plan assets mature, they are replaced with top quality investments which better match the liabilities.

Overall, the Group's defined benefit investment strategy aims at reducing investment risks while maintaining the right mix of investments in high quality equities, debt and near cash instruments void of impairment threats. The choice of investment in equities stems from the long term nature of the Group's defined benefit plan and expected maturity of the plan's liabilities.

Changes in bond yields

The rate used to discount post-employment benefit obligations is determined with reference to market yields at the balance sheet date on high quality corporate bonds. In countries where there is no deep market in such bonds, the market yields on government bonds are used. The Group is of the opinion that there is no deep market in Corporate Bonds in Nigeria and as such assumptions underlying the determination of discount rate are referenced to the yield on Nigerian Government bonds of medium duration, as compiled by the Debt Management Organisation. A decrease in Nigerian Government Bond yields will increase the plan's liabilities. However, this growth is offset by an increase in the value of the plan assets.

Inflation risk

We believe this is less a material risk given the accretion to the Group's plan assets arising from continuous contribution to the plan and improved yield. Growth in inflation, all other things being equal, should lead to increased basic salaries (which is an important determinant of the Group's defined benefit liability) and consequently higher plan liabilities. This growth in liabilities should be offset with increased plan assets.

- i). The amount of N58,245,601,000 (USD 292,618,000) (December 2014: N26,534,084,000 ; USD 142,695,000) represents the outstanding balance on the Tranche 4 and Tranche 5 dollar term loan granted to the Parent by the International Finance Corporation (IFC). The Tranche 4 facility was disbursed in December 2011(USD 170,000,000) for a period of 8 years and the Tranche 5 was availed in December 2014(USD 175,000,000) equally for a period of 8 years. The principal amount is repayable semi annually from December 2013 for Tranche 4 and December 2016 for Tranche 5. The pricing of the Tranche 4 facility is 5.5% and Libor plus 4% for the Tranche 5. Interest is paid semi annually on the two tranches.
- ii). The amount of N8,921,850,000 (USD 44,822,000) (December 2014: N11,656,689,000; USD62,687,000) represents the outstanding balance on the second tranche of the facility granted to the Parent by the African Development Bank(AfDB). The first tranche was disbursed in August 2007(USD 40,000,000) for a period of 5.5 years and was fully re-paid in February 2013. The second tranche was disbursed in February 2012 (USD 90,000,000) for a period of 7 years. The principal amount on this is payable semi annually from August 2013. Interest is payable semi annually on the second tranche at 5.157%.
- iii). The amount of N47,568,133,000 (December 2014: N40,916,461,000) represents the outstanding balance on the wholesale funding granted to the Parent for the refinancing/restructuring of SME/Manufacturing loan portfolio under the Small and Medium Enterprise Refinancing and Restructuring Fund (SMERRF) and to fastrack the development of power projects and aviation sector so as to improve power supply, under the Power and Airline Intervention Fund (PAIF). The SMERRF and PAIF are administered at an all-in interest rate /charge of 7% per annum payable on a quarterly basis. The BOI is entitled to 1% management fee payable quarterly by the Parent. The Loans have a maximum life of 15 years and/or working capital facility of one year with the provision for roll over subject to a maximum tenor of 5 years. The tenor of the facilities as at the end of the period range between 5 years to 13 years.
- iv). The amount of N179,736,280,000 (USD 902,971,000) (December 2014: N166,919,321,000; USD897,657,000) represents amortised cost of dollar guaranteed notes issued by GTB Finance B.V., Netherlands subsequently granted as a loan to the Parent. It represents the balances on the second tranche of USD 500,000,000 issued in May 2011 for a period of 5 years at 7.5% per annum and the third tranche of USD 400,000,000 (principal) issued in November 2013 for a period of 5 years at 6% per annum. The principal amounts are repayable at the end of the tenor while interest on the notes are payable semi-annually

- v). The amount of N14,140,270,000 (December 2014: N3,693,901,000) represents the outstanding balance on the on lending facilities granted to the Parent by the Central Bank of Nigeria in collaboration with the Federal Government of Nigeria represented by the Federal Ministry of Agriculture and Rural Development(FMARD) with the aim of providing concessionary funding for agriculture so as to promote commercial agricultural enterprises in Nigeria. The Facility is for a period of 7 years. at 2% p.a cost to the Parent. The maximum interest rate to the borrowers under the Scheme is 9% p.a inclusive of all charges.
- vi). The amount of 11,109,588,000 (USD 55,813,000) (December 2014: N3,110,439,000; USD16,727,000) represents the outstanding balance on the facility granted to the Parent by PROPARCO, the private sector financing arm of Agence Francais de Development(AfD). The facilities were disbursed in two tranches with the first tranche in December 2011 (USD 50,000,000) and the second tranche in January 2015(USD 50,000,000). The principal amount is repayable semi annually from January 2012 for the first tranche and April 2017 for the second tranche. Interest is paid on a semi-annual basis with the first tranche priced at 4.46% and Libor plus 4.26% for the second tranche.
- vii). The amount of N398,000,000 (December 2014: Nil) represents outstanding balance on the on lending facility granted by the Central Bank of Nigeria targeted at the growth and development of the Micro, Small and Medium Scale sub sector of the economy by providing single digit low interest rate funds. The facility is granted at an interest rate of 2% to the Parent . The maximum rate, inclusive of all charges, to the eligible MSMEs is 9% p.a.
- viii). The amount of N13,460,578,000 (December 2014: Nil) represents the outstanding balance on the concessionary loans granted by the Central Bank of Nigeria to State governments for the liquidation of their workers' salary arrears. The facility attracts an interest rate of 2% and the Parent is under obligation to lend to participating states at a maximum rate of 9% p.a (inclusive of all charges). The principal is repayable monthly from the Federal Account Allocation Committee(FAAC) allocation of those States as a first line charge upon the issuance of an Irrevocable Standing Payment Order(ISPO) by those States. The tenor of the facility is 20 years.
- ix). The amount of N5,000,000,000 (December 2014: Nil) represents the outstanding balance on the concessionary loans granted by the Central Bank of Nigeria to State Governments for the execution of developmental and infrastructure projects. The facility is secured by the balance due to State Governments from the Excess Crude Account. The facility is priced at 2% p.a payable on a monthly basis. The loan is granted to the States at 9% p.a inclusive of all charges. The principal is repayable monthly from the Federal Account Allocation Committee(FAAC) allocation of those States as a first line charge upon the issuance of an Irrevocable Standing Payment Order(ISPO) by those States. The tenor of the facility is 20 years.

At 31 December 2015	29,431,180	14,715,590	123,471,114	(4,754,156)

Share premium

Share premium is the excess paid by shareholders over the nominal value for their shares.

Other regulatory reserves

The other regulatory reserve includes movements in the statutory reserves and the small and medium enterprises equity investment reserve.

- (i) **Statutory Reserves:** Nigerian banking regulations require the Bank to make an annual appropriation to a statutory reserve. As stipulated by S.16(1) of the Banks and Other Financial Institution Act of 1991 (amended), an appropriation of 30% of profit after tax is made if the statutory reserve is less than paid-up share capital and 15% of profit after tax if the statutory reserve is greater than the paid up share capital. In the current period, the bank appropriated N20,747,787,000 representing 22% of its Profit after tax to statutory reserve. Total statutory reserves was N161,134,636,000 at the end of the year.
- (ii) **Small and medium enterprises equity investment reserve (SMEEIS):** The SMEEIS reserve is maintained to comply with the Central Bank of Nigeria (CBN) requirement that all licensed banks set aside a portion of the profit after tax in a fund to be used to finance equity investment in qualifying small and medium scale enterprises. Under the terms of the guideline (amended by CBN letter dated 11 July 2006), the contributions will be 10% of profit after tax and shall continue after the first 5 years but banks' contributions shall thereafter reduce to 5% of profit after tax. However, this requirement is no longer mandatory. The small and medium scale industries equity investment scheme reserves are non-distributable. The bank did not make any appropriation to this reserve during the current period. Total SMEEIS reserves was N4,232,478,000 at the end of the year.
- (iii) **Treasury shares**
Treasury shares in the sum of N4,754,156,000 (31 December 2014:N3,987,575,000) represents the Bank's shares held by the Staff Investment Trust as at 31 December 2015.
- (iv) **Fair value reserve**
The fair value reserve includes the net cumulative change in the fair value of available-for-sale investments until the investment is derecognised or impaired.
- (v) **Regulatory risk reserve**
The regulatory risk reserves warehouses the difference between the impairment balance on loans and advances as determined in accordance with the provisions of Prudential guidelines of Central Bank of Nigeria when compared with the assessment in line with the requirement of IAS 39 Incurred loss model. The key component of CBN Prudential Guidelines (PG) is the setting aside of additional 2% provision on all performing loans assessed under the PG. This 2% provision amounting to N24,457,544,000 is not required by IAS 39. Therefore it has been recognised in Regulatory Risk Reserve. The total Parent's balance in regulatory risk reserve is N52,241,013,000.

(vi) **Retained earnings**

Retained earnings are the carried forward recognised income net of expenses plus current period profit attributable to shareholders.

(vii) **Non-controlling interest**

The analysis of non-controlling interest per subsidiary is as shown below:

	Group Dec-2015	Group Dec-2014	Group Dec-2015	Group Dec-2014
	%	%	₦'000	₦'000

42 Dividends

The following dividends were declared and paid by the Group during the year ended:

<i>In thousands of Nigerian Naira</i>	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Balance, beginning of year	-	-	-	-
Final dividend declared ¹	44,146,768	42,675,209	44,146,768	42,675,209
Interim dividend declared	7,357,795	7,357,795	7,357,795	7,357,795
Payment during the year	(51,504,563)	(50,033,004)	(51,504,563)	(50,033,004)
Balance, end of year	-	-	-	-

¹ This relates to the final dividend declared for the 2014 financial year

Subsequent to the balance sheet date, the board of directors proposed a final dividend of 152k per share (31 December 2014: 150k per share) on the issued ordinary shares of 29,431,179,224 of 50k each.

43. Contingencies

Claims and litigation

The Bank, in its ordinary course of business, is presently involved in 428 cases as a defendant (31 December 2014: 394) and 180 cases as a plaintiff (31 December 2014: 176). The total amount claimed in the 428 cases against the Bank is estimated at N511.17 Billion and \$132.02 Million (31 December 2014: N447.12 Billion and \$135.42 Million) while the total amount claimed in the 180 cases instituted by the Bank is N49.6 Billion (31 December 2014: N66.4 Billion). However, the solicitors of the Bank are of the view that the liability which may arise from the cases pending against the Bank is not likely to exceed N109,781,042 (31 December 2014: N93,601,000).

Contingent liabilities and commitments

In common with other banks, the Group conducts business involving acceptances, performance bonds and indemnities. The majority of these facilities are offset by corresponding obligations of third parties. Contingent liabilities and commitments comprise acceptances, endorsements, guarantees and letters of credit.

Nature of instruments

An acceptance is an undertaking by a bank to pay a bill of exchange drawn on a customer. The Group expects most acceptances to be presented, but reimbursement by the customer is normally immediate. Endorsements are residual liabilities of the Group in respect of bills of exchange, which have been paid and subsequently rediscounted. Guarantees and letters of credit are given as security to support the performance of a customer to third parties. As the Group will only be required to meet these obligations in the event of the customer's default, the cash requirements of these instruments are expected to be considerably below their nominal amounts.

Other contingent liabilities include transaction related customs and performances bond and are, generally, commitments to third parties which are not directly dependent on the customer's creditworthiness. Documentary credits commit the Group to make payments to third parties, are on production of documents, which usually reimbursed immediately by customers. The following tables summarise the nominal principal amount of contingent liabilities and commitments with off-financial position risk.

Acceptances, bonds, guarantees and other obligations for the account of customers:

a. These comprise:

In thousands of Nigerian Naira	Group Dec-2015	Group Dec-2014	Parent Dec-2015	Parent Dec-2014
Contingent liabilities:				
Acceptances and guaranteed commercial papers	-	-	-	-
Transaction related bonds and guarantees	463,573,112	497,857,280	454,123,077	483,566,238
	463,573,112	497,857,280	454,123,077	483,566,238
Commitments:

*Ownership interest in Rwanda increased as a result of additional investment made by Guaranty Trust Bank Kenya Limited

The subsidiaries and sub-subsidiaries of the Group are all involved in the Banking business only.

(a) GTB Gambia was incorporated in April 2001 and commenced operations in March 2002.

(b) GTB Sierra Leone was incorporated in September 2001 and commenced operations in January 2002.

(c) Guaranty Trust Bank (Ghana) was incorporated in October 2004 and commenced operations in March 2006.

(d) Guaranty Trust Bank (UK) Limited was incorporated in February 2007 and commenced operations in January 2008.

- (e) Guaranty Trust Bank (Liberia) Limited was incorporated in September 2008 and commenced operations in March 2009.
- (f) Guaranty Trust Bank (Cote D'Ivoire) is Guaranty Trust Bank Plc's first subsidiary in Francophone West Africa. The Bank was licensed by the Central Bank of Cote D'Ivoire to offer banking services to the Ivorian public and commenced operations on April 16, 2012.
- (g) The Group extended its regional presence in Africa December 2013 by acquiring 70% stake in Fina Bank Limited, a commercial bank incorporated in Kenya with subsidiaries in Uganda and Rwanda. The bank has been re-branded as Guaranty Trust Bank Kenya Limited.
- (h) GTB Finance B.V was incorporated in December 2006 as a special purpose entity with the principal purpose of providing funding, through the international capital markets to the ultimate parent. The Bond issued by GTB Finance B.V are guaranteed by Guaranty Trust Bank Plc.

Significant restrictions

There are no significant restrictions (contractual or otherwise) on the Group's ability to access or use the assets and settle the liabilities of any member of the Group to the extent that regulation does not inhibit/prohibit the group from having access, and in liquidation scenario, the group's liability will be limited to its level of investment in the entity .

Non -controlling interest of significant subsidiaries

The following relates to accumulated non-controlling interest and profit or loss allocated to non-controlling interest for significant subsidiaries for year ended 31 December, 2015:

Significant subsidiaries						
		Principal place of business	Accumulated Non-controlling Interest		Profit or loss Allocated to Non-controlling Interest	
			Dec-15	Dec-14	Dec-15	Dec-14
1	Guaranty Trust Bank Gambia Limited	Gambia	537,421	372,605	150,686	102,877
2	Guaranty Trust Bank Sierra Leone Ltd	Sierra Leone	645,034	438,790	211,922	140,298
3	Guaranty Trust Bank Ghana Limited	Ghana	597,485	607,503	152,939	185,612
4	Guaranty Trust Bank Liberia Limited	Liberia	18,476	16,290	1,666	1,881
5	Guaranty Trust Bank Kenya Limited	Kenya	4,590,133	4,244,134	241,240	266,966

Guaranty Trust Bank (Ghana) Limited, Guaranty Trust Bank (Sierra Leone) Limited and Guaranty Trust Bank (Gambia) Limited paid dividend during the year in the sum of N66,489,000, N13,989,000 and N23,197,000 respectively (December 2014: N98, 102,000, N47, 622,000 and N62, 537,000 respectively) to non-controlling interest.

45. Unconsolidated interests in structured entities

The table below describes the types of structured entities that the Group does not consolidate but in which it holds an interest.

Name of the entity	Terra Kulture Limited	3 Peat Investment Ltd	Ruqayya Integrated Farms Ltd
Percentage holding	96%	70%	51%
Nature of entity	Arts & Culture	Hotel & Leisure	Poultry Farming
Purpose of investment	Government-induced investment	Government-induced investment	Government-induced investment

*Carrying amount	N469,998,600 (Dec. 2014: N469,998,600)	N508,016,000(Dec-2014: N515,041,000)	N40,500,000 (Dec-2014: N40,500,000)
Line item in SOFP	Investment securities- AFS	Investment securities-AFS	Investment securities- AFS
Loans granted	-	N2,581,437,971(Dec-2014: N2,058,620,550)	-
**Maximum exposure to loss	N469,998,600 (Dec-2014: N469,998,600)	N3,597,469,971 (Dec-2014: N3,074,652,550)	N40,500,000 (Dec-2014: N40,500,000)
Source of Financing	Equity financing and loans from financial institutions	Equity financing and loans from financial institutions	Equity financing and loans from financial institutions

* Carrying amount is investment amount net of impairment or where information is available, represents fair value

** Maximum exposure comprises the cost of investment and total facilities granted at arm's length to the entity.

The Bank does not provide financial support to these unconsolidated structured entities and has no plans to provide financial support to these entities in the future. However, the bank extended loans to the entities in the normal course of business at arm's length.

46. Related parties

(a) Related party transactions

Parties are considered to be related if one party has the ability to control the other party or exercise influence over the other party in making financial and operational decisions, or another party controls both. The definition includes subsidiaries, associates, joint ventures and the Group's pension schemes, as well as key management personnel.

(b) Subsidiaries

Transactions between Guaranty Trust Bank Plc and its subsidiaries also meet the definition of related party transactions. These transactions are eliminated on consolidation, hence, they are not disclosed in the consolidated financial statements but are disclosed in the books of the Bank.

During the year, the Bank received Dividend of ₦1,358,206,951, ₦74,802,739 and ₦81,332,222 from GTBank Ghana, GTBank Sierra Leone and GTBank Gambia respectively.

The Bank also has receivables from GTBank Liberia and GTBank Ghana in the sum of ₦31,751,974 and ₦141,212,679 as at 31 December, 2015 respectively (December 2014: GTBank Gambia, GTBank Sierra Leone, GTBank Liberia, GTBank Ghana and GTBank Kenya in the sum of ₦1,596,000, ₦121,155,885, ₦3,352,365, ₦14,577,169 and ₦3,711,000 respectively).

(c) Transactions with key management personnel

The Group's key management personnel, and persons connected with them, are also considered to be related parties. The definition of key management include the close family members of key personnel and any entity over which they exercise control. The key management personnel have been identified as the Assistant General Managers, Deputy General Managers, General Managers, Executive and Non-Executive directors of the Group. Close family members are those family members who may be expected to influence, or be influenced by that individual in their dealings with Guaranty Trust Bank Plc and its subsidiaries.

(d) Risk assets outstanding 31 December 2015

During the period the Bank granted various credit facilities to companies whose directors are also directors of Guaranty Trust Bank Plc at rates and terms comparable to other facilities in the Bank's portfolio. An aggregate of N1,585,455,000 (31 December 2014:N881,920,000) was outstanding on these facilities at the end of the period. The status of performance of each facility is as shown below:

Restatements in respect of prior years:

The restatement arose because the requirements of Section 19 of the Companies Income Tax Act (CITA) was not considered in the computed tax liability for the 2013, 2014 and 2015 years of assessment. Section 19 of the Income Tax Act in Nigeria provides that where total profits are less than the amount of dividend which is paid, whether or not the recipient of the dividend is a Nigerian company, the company shall be charged tax at 30% of the dividend paid. The bank computed its tax liability based on total profits, which was lower than the dividend paid. This resulted in a lower tax liability than would have been if the dividend paid was used.

Prior period corresponding balances

Certain prior period balances have been reclassified in line with IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, to reflect current period presentation:

<i>In thousands of Nigerian Naira</i>	Reported Group Dec-2014	Restatements Group	Restated Group Dec-2014	Reported Parent Dec-2014	Restatements Parent	Restated Parent Dec-2014

Profit for the year	98,694,919	(4,260,827)	94,434,092	93,431,604	(4,260,827)	89,170,777

Restatements in respect of prior year(s):

¹ Foreign exchange revaluation gain recognized within Net gains on financial instruments classified as held for trading in prior year has been reclassified to Other Income for better presentation.

² The restatement arose because the requirements of Section 19 of the Companies Income Tax Act (CITA) was not considered in the computed tax liability for the 2013, 2014 and 2015 years of assessment. Section 19 of the Income Tax Act in Nigeria provides that where total profits are less than the amount of dividend which is paid, whether or not the recipient of the dividend is a Nigerian company, the company shall be charged tax at 30% of the dividend paid. The bank computed its tax liability based on total profits, which was lower than the dividend paid. This resulted in a lower tax liability than would have been if the dividend paid was used.

Based on the restatement, the Basic and Diluted Earnings per Share dropped by N0.15 from N3.47 to N3.32 for the Group and by N0.14 from N3.17 to N3.03 for the Parent

Regulatory Requirements under the IFRS Regime

In addressing the challenges faced by the Nigerian Banking industry which was at the brink of a crisis as a result of spiral effects of the global financial meltdown, the CBN undertook a review of the prudential guidelines. In the revised guidelines, which became effective 1st of July, 2010, the CBN provided for the adaptation of the prudential guidelines to IFRS after it has been adopted in Nigeria. Paragraph 12.4 of the revised Prudential Guidelines for Deposit Money Banks in Nigeria stipulates that Banks would be required to make provisions for loans as prescribed in the relevant IFRS Standards when IFRS is adopted. However, Banks would be required to comply with the following:

- (a) Provisions for loans recognized in the profit and loss account should be determined based on the requirements of IFRS. However, the IFRS provisions should be compared with provisions determined under prudential guidelines and the expected impact/changes in general reserve should be treated as follows:
- i. Prudential Provisions is greater than IFRS provisions; transfer the difference from the general reserve to a non-distributable regulatory reserve.
 - ii. Prudential Provisions is less than IFRS provisions; the excess charges resulting should be transferred from the regulatory reserve account to the general reserve to the extent of the non-distributable reserve previously recognized.
- (b) The non-distributable reserve should be classified under Tier 1 as part of core capital.

The group has fully complied with the requirements of the guidelines.

Provisioning as recommended by Prudential Guideline

Loan provisioning is segregated along two (2) categories as detailed below:

1. Loans other than Specialized Loans

The provisioning policy for 'loans other than specialized loans' covers the following:

- i. Commercial Loans
- ii. Commodities Financing
- iii. Corporate Loans
- iv. Retail & Consumer Credits
- v. Neither past due nor impaired
- vi. Facilities granted to Federal, State and Local governments and their parastatals.
- vii. Facilities not specifically classified as specialized loans by the CBN.

The bank's provisioning benchmark for 'loans other than specialized loans' is highlighted in the table below:

No of Days Overdrawn	Classification	% Provision taken
90 – 180	Substandard	10
180 – 360	Doubtful	50
Over 360	Lost	100

As soon as an account is classified as non-performing, the interest is accounted for on non-accrual basis i.e. interest is not recognized as income but suspended.

Furthermore, if the occurrence of a loss event is certain, appropriate provisions will be made regardless of the fact that such loans does not fall in any of the above categories.

2. Specialized Loans

The provisioning policy for specialized loans covers the following:

- i. Agriculture Finance
- ii. Margin Loans
- iii. Project Finance
- iv. Object Finance
- v. Real Estate Loans (Commercial and Residential)
- vi. SME Loans

The bank's provisioning benchmarks are spelt out below under each of the specialized loan types:

- i. Agriculture Finance
 - a. Agriculture Finance - short term facilities (purchase of seeds, fertilizers, WC, and other Inputs)

Category	Classification	Days past due	% provision
1	Watchlist	Markup / interest or principal past due by 90days	0% of total outstanding balance
1A	Substandard	Markup / interest or principal past due by 90days to 1year	25% of total outstanding balance
2	Doubtful	Markup / interest or principal past due by 1 to 1.5 years	50% of total outstanding balance
3	Very Doubtful	Markup / interest or principal past due by 1.5 to 2 years	75% of total outstanding balance

4	Lost	Markup / interest or principal past due by more than 2 years	100% of total outstanding balance
---	------	--	-----------------------------------

- b. Agriculture Finance – long term facilities (Farm development finance, purchase of machinery, livestock financing)

Category	Classification	Days past due	% provision
1	Watchlist	Markup / interest or principal past due by 90days	0% of total outstanding balance
1A	Substandard	Markup / interest or principal past due by 90days to 1year	25% of total outstanding balance
2	Doubtful	Markup / interest or principal past due by 1 to 2years	50% of total outstanding balance
3	Very Doubtful	Markup / interest or principal past due by 2 to 3 years	75% of total outstanding balance
4	Lost	Markup / interest or principal past due by more than 3 years	100% of total outstanding balance

- ii. Mortgage Loans

Category	Classification	Days past due	Treatment of Income	% provision
1	Watchlist	Markup / interest or principal past due by 90days	Suspend interest and realize on cash basis	0% of total outstanding balance
1A	Substandard	Markup / interest or principal past due by 90days to 1year	As above	10% of total outstanding balance
2	Doubtful	Markup / interest or principal past due by 1 to 1.5 years	As above	Unprovided balance should not exceed 50% of the estimated net realisable value of the security.

3	Very Doubtful	Markup / interest or principal past due by 1.5 to 2 years	As above	75% of total outstanding balance
4	Lost	Markup / interest or principal past due by more than 2 years	As above	100% of total outstanding balance

iii. Margin Loans

The shares backing margin facilities shall be marked to market on a daily basis in order to determine the potential loss in the portfolio. Provisions shall be made periodically for the excess of loan balance over the market value of the underlining shares. Any increase in the mark to market value from the previous valuation shall be recognized to the extent of the previous charge-off made.

iv. Project Finance

Category	Classification	Days past due	Treatment of Income	% provision
1	Watchlist	Repayment on obligation between 60% and 75% of amount due or installment 180days past due	Suspend interest and realize on cash basis	0% of total outstanding balance
1A	Substandard	Repayment below 60% of amount due or installment btw 180 to 1year past due	As above	25% of total outstanding balance
2	Doubtful	Repayment below 60% of amount or installment overdue by 1 to 2 years	As above	50% of total outstanding balance
3	Very Doubtful	Repayment below 60% of amount due or installment over due by 2 to 3 years	As above	75% of total outstanding balance
4	Lost	Repayment below 60% of amount due or installment overdue by more than 3 years	As above	100% of total outstanding balance

v. Object Finance

Category	Classification	Days past due	Treatment of Income	% provision
1	Watchlist	Repayment on obligation between 60% and 75% of amount due or installment 180days past due	Suspend interest and realize on cash basis	0% of total outstanding balance
1A	Substandard	Repayment below 60% of amount due or installment btw 180 to 1year past due	As above	25% of total outstanding balance
2	Doubtful	Repayment below 60% of amount or installment overdue by 1 to 2 years	As above	50% of total outstanding balance
3	Very Doubtful	Repayment below 60% of amount due or installment over due by 2 to 3 years	As above	75% of total outstanding balance
4	Lost	Repayment below 60% of amount due or installment overdue by more than 3 years	As above	100% of total outstanding balance

vi. SME

a. SME Loans - SME short term facilities (Maturities of 1 year)

Category	Classification	Days past due	% provision
1	Watchlist	Markup / interest or principal past due by 90days	0% of total outstanding balance
1A	Substandard	Markup / interest or principal past due by 90days to 1year	25% of total outstanding balance
2	Doubtful	Markup / interest or principal past due by 1 to 1.5 years	50% of total outstanding balance
3	Very Doubtful	Markup / interest or principal past due by 1.5 to 2 years	75% of total outstanding balance
4	Lost	Markup / interest or principal past due by more than 2 years	100% of total outstanding balance

b. SME Loans - SME Long term facilities (Maturities of more than 1 year)

Category	Classification	Days past due	% provision
1	Watchlist	Markup / interest or principal past due by 90days	0% of total outstanding balance
1A	Substandard	Markup / interest or principal past due by 90days to 1year	25% of total outstanding balance
2	Doubtful	Markup / interest or principal past due by 1 to 2years	50% of total outstanding balance
3	Very Doubtful	Markup / interest or principal past due by 2 to 3 years	75% of total outstanding balance
4	Lost	Markup / interest or principal past due by more than 3 years	100% of total outstanding balance

Operational Risk Management

Guaranty Trust Bank defines Operational Risk Management (OpRisk) as “the direct or indirect risk of loss resulting from inadequate and/or failed internal processes, people, and systems or from external events”. In GTBank, this involves the review and monitoring of all strategies and initiatives deployed in its people management, process engineering and re-engineering, technology investment and deployment, management of all regulatory responsibilities, engagement of third party services, and response to major disruptions and external threats.

To ensure a holistic framework is implemented, Operational Risk Management also monitors Strategic and Reputational Risks from a broad perspective. Strategic Risk Management is the process for identifying, assessing and managing risks and uncertainties, affected by internal and external events or scenarios, that could inhibit the Bank’s ability to achieve its strategic objectives with the ultimate goal of creating and protecting shareholder and stakeholder value.

In Guaranty Trust Bank, Strategic Risk is regarded as the possibility that the Bank’s strategy may be inappropriate to support its long-term corporate goals due to the inadequacy of its strategic planning and/or decision-making process or the inadequate implementation of such strategies. This could include the risk that the strategy is unclear, clear but not viable or clear and viable but badly implemented, or strategy failure due to unexpected circumstances. A specialized template for monitoring Strategic Risk is deployed for tracking key business activities designed or defined by the Bank to monitor performance in the achievement of its strategic intent in the short, medium and long term.

The Bank considers Reputational Risk to be the current and prospective adverse impact on earnings and capital arising from negative public opinion. It measures the change in perception of the Bank by its stakeholders. It is linked with customers’ expectations regarding the Bank’s ability to conduct business securely and responsibly. A detailed template with internal and external factors that might impact the Bank adversely is used to monitor the Bank’s exposure to reputational risk. All adverse trends identified are reported to relevant stakeholders for timely redress.

The following practices, tools and methodologies have been deployed in the Bank for the purpose of Operational Risk Management implementation:

- **Loss Incident Reporting** – Loss incidents are reported to OpRisk Group by all business areas in the Bank. All staff are encouraged to report operational risk events as they occur in their respective business spaces whether these risks crystallize into actual losses or not. As a result, the Bank has a robust OpRisk loss database detailing relevant OpRisk loss data for four years. Information collated is analyzed for identification of risk concentrations, appropriate OpRisk risk profiling and capital estimation.

Risk and Control Self Assessments (RCSAs) – This is a qualitative risk identification tool deployed bank-wide. All branches and Head-Office departments are required to complete the Risk Self-Assessment process at least once a year. A risk-based approach has been adopted for the frequency of RCSAs to be conducted by branches, departments, groups and divisions of the Bank. These assessments enable risk profiling and risk mapping of prevalent operational risks across the

Bank. A detailed risk register cataloguing key risks identified and controls for implementation is also developed and maintained from this process.

Risk Assessments of the Bank's new and existing products, services, branches and vendors/contractors are also carried out. This process tests the quality of controls the Bank has in place to mitigate likely risks. Other Risk Assessments conducted include Process Risk Assessments, Product Risk Assessments, Vendor Risk Assessments, Fire Risk Assessments, New Branch Risk Assessment and Fraud Risk Assessments.

- **Key Risk Indicators (KRI)** – These are quantitative parameters defined for the purpose of monitoring operational risk trends across the Bank. A comprehensive KRI Dashboard is in place and it is supported by specific KRIs for key departments in the Bank. Medium – High risk trends are reported in the Monthly and Quarterly Operational Risk Status reports circulated to Management and key stakeholders.
- **Fraud Risk Management Initiatives** – Causal analysis of key fraud and forgeries trends identified in the Bank or prevalent in local and global business environments are carried out and reported on a monthly basis. Likely and unlikely loss estimations are also determined in the process as input in the OpRisk capital calculation process. The focus in Fraud Risk Management is to ensure that processes for preventing, deterring, detecting fraud and forgeries incidents, and sanctioning offenders are effective.

Business Continuity Management (BCM) in line with ISO 22301 Standards – To ensure the resilience of our business to any disruptive eventuality, the Bank has in place a robust Business Continuity Plan (BCP). This plan assures timely resumption of its business with minimal financial losses or reputational damage and continuity of service to its customers, vendors and regulators. Various testing and exercising programs are conducted bank-wide to ensure that recovery coordinators are aware of their roles and responsibilities. The Plan is reviewed and updated periodically to ensure reliability and relevance of information contained. GTBank has been certified ISO 22301 BC compliant by the globally recognized British Standards Institution signifying that the Bank has instituted internationally accepted processes, structures and systems that demonstrate its capacity to resume business within a short timeframe in the event of any business disruption.

- **Compliance and Legal Risk Management** – Compliance Risk Management involves close monitoring of KYC compliance by the Bank, escalation of Audit Non-conformances, Complaints Management, and observance of the Bank's zero-tolerance culture for regulatory breaches. It also entails an oversight role for monitoring adherence to regulatory guidelines and global best practices on an on-going basis.

Legal Risk Management involves the monitoring of litigations against the Bank to ascertain likely financial or non-financial loss exposures. It also involves conduct of causal analysis on identified points of failure that occasioned these litigations. Medium – High risk factors identified are duly reported and escalated for appropriate treatment where necessary.

- **Occupational Health and Safety procedures and initiatives** – Global best practices for ensuring the health and safety of all staff, customers and visitors to the Bank's premises are advised,

reported to relevant stakeholders and monitored for implementation. Related incidents are recorded bank-wide for identification of causal factors and implementation of appropriate mitigants to forestall reoccurrence

As a result, the following are conducted and monitored: Fire Risk Assessments, Quarterly Fire Drills, Burglaries and Injuries that occur within the Bank's premises.

Operational Risk Management Philosophy and Principles

Approach to Managing OpRisk

- Guaranty Trust Bank adopts operational risk procedures and practices that are “fit for purpose” and will increase the efficiency and effectiveness of the Bank's resources, minimize losses and utilize opportunities.
- This outlook embeds OpRisk practices in the bank's day-to-day business activities.
- It also aligns with the Bank's Operational Risk Management framework with sound practices recommended by various local and globally-accepted regulatory agencies such as Basel II Accord's "Sound Practices for the Management and Supervision of Operational Risk", Committee of Sponsoring Organizations (COSO) / Sarbanes-Oxley (SOX) standards, and International Organization for Standardization (ISO)

Principles

- Operational risks inherent in all products, activities, processes and systems are assessed periodically for timely identification of new risks and trending of prevalent risks. The Bank ensures that before any new products, processes, activities and systems are introduced or undertaken, the operational risks inherent are assessed and likely risks mitigated.
- In accordance with this, the Bank ensures regular monitoring of its operational risk profile and material exposure to losses.
- Pertinent information is reported regularly to Senior Management and the Board to ensure proactive management of operational risk bank wide.
- Furthermore, the Bank's Business Continuity Plan outlines the Bank's requirements for contingency and business continuity procedures to ensure its ability to operate on an ongoing basis and limit losses in the event of severe business disruption.

Operational Risk Capital Calculation – The Bank has adopted the Basic Indicator Approach under Basel II Pillar 1 for the calculation of its Operational Risk Economic Capital for internal risk monitoring and decision-making. Whilst the Bank has the required OpRisk loss data to migrate to other capital calculation methods i.e. the Standardized Approach and Advanced Measurement Approach, it is mindful of investing in the additional resources required especially as the Central Bank of Nigeria has recommended the Basic

Indicator Approach for all banks in Nigeria. The Estimated OpRisk Capital Charge is reported to the Board and Management for guidance in Capital Planning and decision making.

Operational Risk Reporting – Monthly, quarterly, and annual reports highlighting key operational risks identified are circulated to relevant stakeholders for awareness and timely implementation of mitigation strategies. Reports are also generated and circulated on a need-basis.

To aid timely and comprehensive reporting of prevalent OpRisk exposures in the Bank, an OpRisk Management software/application has been acquired by the Bank. This has been successfully implemented to aid data collation and information gathering, analysis, escalation and reporting of key OpRisk incidents or emerging trends observed.

Governance Structure

- The Board through its Board Risk Committee (BRC) oversees the operational risk function in the Bank. It ensures that the OpRisk policy is robust and provides a framework for the Bank's OpRisk profile and limits. It also determines the adequacy and completeness of the Bank's risk detection, and measurement systems, assesses the adequacy of risk mitigants, reviews and approves contingency plans for Specific Risks and lays down the principles on how operational risk incidents are to be identified, assessed, controlled, monitored and measured. The BRC reviews OpRisk Reports on a quarterly basis.
- The Management Risk Committee monitors and ensures the implementation of the guiding OpRisk framework bank-wide. It ensures that all departments in the Bank are fully aware of the risks embedded in respective process flows and business activities. The Committee considers and approves key decisions relating to Operational Risk before presentation to the Board. .
- All process owners are responsible for the day-to-day management of OpRisk prevalent in their respective Departments, Groups, Divisions and Regions.
- The Internal Audit function conducts independent reviews on the implementation of OpRisk Policies and Procedures bank-wide.

Treatment of Operational Risks

- GTBank adopts several risk treatment strategies to mitigate identified operational risks. These mitigants are applied to achieve a residual risk level aligned with the Bank's risk tolerances. In line with best practices, the cost of risk treatments introduced must not exceed the reward.

The following comprise the OpRisk treatments adopted by the Bank:

- **Risk Acceptance and Reduction:** The Bank accepts the risk because the reward of engaging in the business activity far outweighs the cost of mitigating the risk. Residual risks retained by the business after deploying suitable mitigants are accepted For Reduction option, risks that are within the Bank's strategic objectives but are outside the defined risk tolerance are

reduced by implementing or increasing controls to reduce the impact and/or likelihood of the risk.

- **Risk Transfer (Insurance):** This involves another party or parties bearing the risk, by mutual consent. Relationships are guided by the use of contracts and insurance arrangements
- **Risk Sharing (Outsourcing):** Risk is shared with other parties that provide expert solutions required to mitigate risk or reduce risk burden whether operationally or financially
- **Risk Avoidance:** Requires discontinuance of the business activity that gives rise to the risk

Agents and Locations

List of Agents and Locations		
S/N	Name	Location
1	Prince Ebeano Supermarket	9, Northern Business District, Lekki Phase 1, Lagos

5. Activities of Cards Operations

The Group continues to abide by the minimum standards and requirement for the issuance and usage of payment cards in Nigeria and in all the other nations where we have presence. We carry out continuous upgrade of our card systems to ensure optimum security, absolute efficiency, cost effectiveness and customer satisfaction. We also implemented stringent fraud control measures to reduce financial loss to the bank and our customers.

We continually encourage the usage of our cards both locally and internationally by providing the enabling environment for smooth operations in terms of provision of modern technology.

Presented below are the highlights of our card transaction volumes for period ended 31 December 2015.

5.1. Table below shows a summary of transactions done on GTBank Cards

Category	No. of Transactions		Value Of International Transaction		Value Of Local Transactions	
	Dec-15	Dec-14	Dec-15	Dec-14	Dec-15	Dec-14
	'000	'000	₦'mm	₦'mm	₦'mm	₦'mm
Naira denominated debit cards	164,664	154,975	226,599	235,884	1,649,059	1,638,088
Foreign currency credit cards	114	115	8,934	9,508	-	-
Foreign currency debit cards	278	274	10,696	10,526	539	-

Corporate Social Responsibility Report

At GTBank, we believe we can only grow and sustain the value of our business by what we give to our host communities. We also passionately believe that Corporate Social Responsibility (CSR) embodies our ardent commitment and social pact with all our stakeholders.

Our foot prints in Corporate Social Responsibility are projects are targeted towards the needs of the society and are sustainable. They are guided strategically by our decision to operate on the four major pillars of Education, Community Development, Arts and the Environment, which we believe are essential building blocks for the development of communities and prerequisites for economic growth.

As at 31 December 2015, we invested the sum of **₦241, 666,961.10** to develop our business community. This investment was made through our CSR initiatives with focus on the four main pillars of Education, Community Development, Arts and the Environment.

Pillar	Amount (N)	Percentage (%)
Education	132,357,264.30	54.8%
Community Development	90,621,366.07	37.5%
Arts	17,649,830.75	7.3%
Environment	1,038,499.98	0.4%
Total	241,666,961.10	100%

Our work in Education is guided by the conviction that quality education is important for both individual and societal advancement and aims to develop young people and ensure that they do not stop learning and make meaningful contributions to the society. This is achieved by creating conducive learning environment, equipping teachers to engage their students through effective teaching practices and motivating/encouraging the students through scholarships and extra-curricular activities.

We invest in Community Development initiatives to create societal awareness and acceptance of developmental disabilities and to stimulate community investment activities in child healthcare. We also

work with in partnership with Non-Governmental Organizations and charity organizations that share our vision and values, to support victims of natural disasters and other humanitarian issues in the world.

We are a strong advocate of the Arts as a means of unlocking personal and professional innovation and creativity. We support Art in all forms which include painting, drama, poetry and music. At its most basic level we buy art work from talented Nigerian artists and display them at our offices and branches to promote the works of indigenous artists.

The effect of climate change being felt all over the world with debilitating consequences has called for concerted effort to address environmental issues. We take steps to safeguard our environment by ensuring the sustainable use of our resources.

(1) EDUCATION

We recognize the importance of educating the people in our community and we have done this through series of programmes that are impactful and beneficial to their well-being, day to day activities and social interaction.

We are convinced that quality education is important and we aim to ensure young people do not stop learning and make meaningful contributions to the society by; creating conducive learning environment, equipping teachers to engage their students through effective teaching practices and motivating/encouraging the students through scholarships and extra-curricular activities.

Projects

Adopt-a-School Programme: The GTBank Adopt-a-School project is a child focused programme introduced by the Bank in 2004, to improve the quality of public education available to the Nigerian Child. This programme is designed to support schools in high density areas across the nation. We have to date, fully adopted 6 schools and partially adopted / supported several other schools across the geo-political zones of the country.

A school is chosen and adopted (based on set out criteria). Once a school is adopted, there is focus on 3 core elements to ensure consistency in set standards;

- Provision and/or upgrade of Infrastructure such as buildings, basic amenities, furniture and beautification of the environment – this ensures conducive learning environment.
- Capacity building for teachers through trainings – this ensures capacity development is sustained and our children have access to quality education.
- Capacity building for students through scholarship programmes, coaching classes, provision of basic school materials and extra-curricular/physical education – this ensures healthy competition and physical development amongst students.

Highlights of 2015 Half Year Projects

Adopt-a-school Initiative

- Provided scholarships to 20 indigent students in Ogun State.
- Trained 200 secondary students in Ondo State on financial literacy
- Provided study materials for 2,500 students in preparation for the Joint Admission Matriculation Examination (JAMB).
- Supported inter-house sports and other school activities for adopted schools.
- Donated 12,000 books on Children's day
- Donations 1,350,000 optical marker exams sheets to 16 tertiary institutions for entrance examinations.

Staff Volunteer Coaching Programme: This is a GTBank staff-led initiative introduced in 2012 to coach students on weekends, in preparation for external / entrance examinations. 70 pupils were coached over 26 hours by 13 members of staff during year.

Sports Education through Football Tournaments: We are a major sponsor of sports education in Nigeria and our interest in supporting sport is borne out of our understanding that sport plays a major role in the development of life skills.

Our football programme include; The Principals Cup tournament, The Masters Cup (formerly known as Heritage Cup) tournament, The Super Cup tournament, Players Development Programme (known as CAMP GTBank) and Tournament Ambassadors Programme (TAP).

These competitions are aimed at actively engaging the youths through sports whilst promoting the values of excellence and fair play. It fosters camaraderie and provides a platform for identifying, nurturing and grooming young and talented players amongst students of Secondary Schools in both male and female categories.

- **The Principals Cup football tournament:** This competition currently runs in Lagos and Ogun and they are in their 6th and 3rd seasons respectively. The sports is for all Secondary Schools in the participating States and is coordinated in partnership with the State Ministry of Youth, Sports & Social development and the Ministry of Education.

The GTBank-Lagos State Principals Cup competition started in 2009/10 and has grown in the last six years from 296 schools in 2009 to 355 schools with 615 teams in 2015.

The GTBank-Ogun state Principals Cup has also grown in three years from 237 schools with 337 teams in 2012 to 242 schools with 344 teams in 2015.

Cash prizes of N45,000,000.00 has been awarded to date, 1 sport facility has been provided and 91 players had been trained for football carrier opportunities over 3 years.

- **The Masters Cup football tournament:** This tournament which was formerly known as the Heritage Cup tournament, was introduced in 2012 for non-Government managed schools which are under the Lagos State First Generation Colleges Association (LAFGECA).

(2) COMMUNITY DEVELOPMENT

Beyond the benefits of our core business brings to our host communities, we aim to encourage social and economic opportunities through community investment activities.

We work in partnership with Non-Governmental and Charity Organizations that share our vision and values, to create societal awareness and acceptance of developmental disabilities, stimulate community investment activities in child healthcare and support victims of natural disasters and other humanitarian issues in the world.

During the year, we invested in the following projects

Highlights for 2015 Half Year Projects

Orange Ribbon Initiative

- 2 days training of 1,500 health practitioners, care givers, teachers and parents on the management and care for children living with autism.
- Free consultation/assessment service was provided for 200 children within 7 days period.
- Enlightenment talks on management and care for children living with autism was provided to the general public through various radio stations to further enlighten the general public.

GTBank Orange Ribbon Initiative: The Orange Ribbon Initiative is an advocacy program designed to support children with developmental disabilities in Nigeria especially Autism Spectrum Disorders (ASD). Our aim is to create awareness about ASD, ensure autism is diagnosed early in children and provide the required support for caregivers, health practitioners, parents, teachers, and the society to help in proper management of ASD.

We started this journey 5 years ago, when we saw the need to stop the stigmatization and public belief system towards children living autism, with an advocacy/awareness seminar. The seminar attendance grew from less than 500 to over 1,500 participants annually. By the 3rd year of the programme, we introduced the diagnosis and free consultation programme for children.

The services were provided through collaboration with ASD professionals from the United States and Nigeria and the College of Medicine, University of Lagos.

At the inception of this project, little was known about autism and attendance was very limited. Over the years, awareness has grown, other non-organisations have started autism advocacy and parents are now getting comfortable bringing their children for diagnosis. We received an average of 10 consultation appointments/day in 2014 and by 2015, this grew to 40 consultations/day.

Staff Charity Initiative: In 2012, a voluntary donation by staff on 14th February of every year was introduced. The donation was targeted at supporting a community development related activity. The interest by staff grew by the year and in 2014, we adopted a project to support Sickle Cell patients by providing free health insurance annually. The donation in 2014 was used to support 40 patients and the donation in 2015 will be used to support 60 patients.

Maternal and Child health Initiative: This targets the Millennium Development Goals 4 (reducing child mortality), 5 (improving maternal health) and 6 (combating HIV, malaria and other diseases). We supported sick children in Massey Children's Hospital Lagos and victims of terror in Northern Nigeria.

During the year under review, we have;

- Donated the sum of N40,000,000.00 towards support for Ebola intervention in Africa
- Strategic partnership with Special Olympics to support 42 children with intellectually and physically challenged to participate in Special Olympics world games in Los Angeles.
- Supported special persons activities in Nigeria
- Supported cardiovascular health programme in 4 secondary schools in Lagos State

(3) ARTS

We are a strong advocate of the Arts as a means of unlocking personal and professional innovation and creativity. We support Art in all forms which include painting, drama, poetry and music. At its most basic level we buy art work from talented Nigerian artists and display them at our offices and branches to promote the works of indigenous artists.

In the 6 months under review, we have engaged in 2 major projects;

GTBank-TATE Partnership: The GTBank and Tate partnership started in 2011 and is focused on promoting the value of African Art by bringing the works of African artists to the attention of new audiences both in Africa and international market, through project-lead initiatives. In 2015, we started a new project on curatorial research with a focus on Africa.

GTBank Virtual Art Gallery: This project supports art and artists, by creating a Virtual Museum through an on-line documentation of our art collections to create opportunity for art education, exhibitions, and provide access to arts materials for the general public as a reference point. It will also increase publicity for the artists as well as broaden the reach and viewership of their works.

(4) ENVIRONMENT

The effect of climate change being felt all over the world with debilitating consequences has called for concerted effort to address environmental issues. We take steps to safeguard our environment by ensuring the sustainable use of our resources.

Beautification and conservation: We adopted 3 major public areas in Lagos, Kano and Sokoto to tend and beautify and ensure their maintenance.

We also invest in energy efficient solutions as part of our contribution to mitigating the effect of climate change in our environment, through renewable energy and resource efficient ways of conducting our business.
